Politics of the Administrative Process, 8th Edition by Kettl Donald

Chapter 1: Accountability

Chapter Objectives

- Understand the three intertwined themes of the book: politics, performance, and accountability.

The Founding Fathers were necessarily ambiguous about the details of public administration, leaving big administrative questions for later leaders to work out due to the politics of the time. The Progressives, in the late nineteenth century, grappled again with these questions and helped to further develop American ideas around executive power. Woodrow Wilson, among them, helped to outline a central difficulty in public administration referred to as the "policy-administration dichotomy," where elected officials, accountable to citizens, make laws, but administrators, who are accountable to these elected officials, are the ones who actually carry out the laws. His ideas were challenged by political scientist John Gaus who pointed out that laws are not always clear and are further
