Worship and Christian Identity E. Byron Anderson, 2017-04-21 Worship and Christian Identity argues that sacramental and liturgical practices are the central means by which a church shapes the faith character and consciousness of its members Consequently for any church to set aside such practices as outdated or irrelevant is to set aside the means by which the church nurtures and sustains its theological identity From this perspective Anderson explores the following questions What is

the relationship between worship and belief What is the relationship between corporate worship and the formation of Christian persons and communities What is the relationship between worship and our knowledge of ourselves our world and God How might our attention to the reform and renewal of worship and sacramental practice provide a framework for theological evangelical and sacramental renewal Questions of sacramental practice inclusive or transformative language and the renewal of congregational hymnody have been largely displaced by marketing questions and conflicts between traditional and contemporary worship The hour of worship is subdivided now into increasingly specialized target audiences of singles seekers boomers and X ers with worship carefully packaged as traditional or contemporary What at various points has been understood as a means of grace is now seen primarily as a means of numerical growth Missing in the conflict between traditional and contemporary worship is significant discussion of what is at stake for the identity of Christian persons and communities in the shape and practice of worship Perhaps more surprising discussion of the theological shape and practice of worship also has been absent in discussions concerning theological standards These absences suggest that for many in the church today worship is a means for expressing a community s belief but has little to do with the shape and character of that belief The assumption that worship is only or primarily a pragmatic means for expressing a community s belief stands in sharp contrast to the Christian tradition This assumption also contrasts with the insights provided by recent work in ritual studies psychology and faith development Worship and Christian Identity is an important book for faculty and students in seminary and graduate programs in liturgical studies and religious education particularly those interested in the relationships between liturgical studies and practical theology ritual studies and liturgical theology as well as the role of worship in Christian formation Chapters are Making Claims About Worship Worship as Ritual Knowledge Worship as Ritual Practice Trinitarian Grammar and the Christian Self Trinitarian Grammar and Liturgical Practice and A Vision of Christian Life

Living Our Beliefs Kenneth L. Carder, 2009-10-01 You can believe anything and be a Methodist just so long as you re sincere Such a misperception has deep historical and cultural roots Explore a basic explanation of the beliefs and practices of the United Methodist Church as defined in Part II of The Book of Discipline Uncover a deeper understanding and experience of Christian faith as you embrace the United Methodist way Beliefs are to be lived doctrine is to be practiced writes Carder in this updated edition of his 1996 bestseller The authenticity of beliefs lie in their ability to shape people and communities into the image of Christ and to promote holiness and happiness The important test of the validity of doctrines and beliefs for United Methodists is the kind of character they produce in individuals and communities and the actions they inspire in the world Living Our Beliefs is essential reading for new members confirmation classes and small group studies As
