Wright Foundation Ralph Ellison famously characterized ensemble jazz improvisation as antagonistic cooperation Both collaborative and competitive musicians play with and against one another to create art and community In Antagonistic Cooperation Robert G O Meally shows how this idea runs throughout twentieth century African American culture to provide a new history of Black creativity and aesthetics From the collages of Romare Bearden and paintings of Jean Michel Basquiat to the fiction of Ralph Ellison and Toni Morrison to the music of Louis Armstrong and Duke Ellington O Meally explores how the worlds of African American jazz art and literature have informed one another He argues that these artists drew on the improvisatory nature of jazz and the techniques of collage not as a way to depict a fractured or broken sense of Blackness but rather to see the Black self as beautifully layered and complex They developed a shared set of methods and motives driven by the belief that art must involve a sense of community O Meally s readings of these artists and their work emphasize how they have not only contributed to understanding of Black history and culture but also provided hope for fulfilling the broken promises of American democracy

Invisible Activists Lee Sartain, 2007-04-01 Behind the historical accounts of the great men of the National Association for the Advancement of Colored People lies the almost forgotten story of the black women who not only participated in the organization but actually helped it thrive in the early twentieth century South In *Invisible Activists* Lee Sartain examines attitudes toward gender class and citizenship of African American activists in Louisiana and women s roles in the campaign for civil rights in the state In the end he argues it was women working behind the scenes in Louisiana s branches of the NAACP who were the most crucial factor in the organization s efficiency and survival During the first half of the twentieth century especially in the darkest days of the Great Depression when membership waned and funds were scarce a core group of women maintained Louisiana s NAACP Fighting on the front line Sartain explains women acted as grassroots organizers running public relations campaigns and membership drives mobilizing youth groups and promoting general community involvement Using case studies of several prominent female NAACP members in Louisiana Sartain demonstrates how women combined their fundraising skills with an extensive network of community and family ties to fund the NAACP and increasingly to undertake the day to day operations of the local organizations themselves Still these women also struggled against the double obstacles of racism and sexism that prevented them from attaining the highest positions within NAACP branch leadership Sartain illustrates how the differences between the sexes were ultimately woven into the political battle for racial justice where women were viewed as having inherent moral superiority and hence the potential to lift the black population as a whole Sartain concludes that despite the societal traditions that kept women out of leadership positions in the early stages of the civil rights movement their skills and their contributions as community matriarchs provided the keys to the organization s progress Highly original and essential to a comprehensive study of the NAACP *Invisible Activists* gives voice to

the many individual women who sustained the influential civil rights organization during a time of severe racial oppression in Louisiana Without such dedication Sartain asserts the organization would have had no substantial presence in the state
