such as *Tools in Fluvial Geomorphology* by G Mathias Kondolf and Herv Pi gay or focused more on river engineering tasks such as *Stream Restoration in Dynamic Fluvial Systems Scientific Approaches* by Andrew Simon Sean Bennett and Janine Castro Finally Luna Leopold summarized river and stream morphologies in the beautiful *A view of the river* It appears that we continue to explore this subject in the right direction We better understand rivers and streams and as engineers and fluvial geomorphologists we can establish tools to help bring rivers alive However there is still a hunger for more scientific tools that we could use to further understand rivers and to support the development of healthy streams and rivers with high biodiversity in the present world which has started to face water scarcity
