Sreenivasan,2008-10-24 An insightful look at the long tradition of communal societies in the United States from colonial times to the present examining their ideological foundations daily life and relationships to mainstream American society With this volume a fascinating yet often overlooked part of the American story is brought to the forefront In *Utopias in American History* independent scholar Jyotsna Sreenivasan makes the case that from the founding of the American colonies to the hippie communes of the 1960s to the cohousing movement which started in the 1990s the United States has the most sustained tradition of utopianism of any modern country Accessible yet authoritative and highly informative *Utopias in American History* offers dozens of alphabetically organized entries covering all aspects of communal societies from colonial times to the present Featured are descriptions of over 40 major utopian communities both religious and secular Entries are organized in terms of their histories belief systems leadership economics daily life and the reactions they drew from mainstream society *New Religions* Eugene V. Gallagher, Lydia Willsky-Ciollo,2021-02-15 A valuable resource for students and general audiences this book provides a unique global perspective on the history beliefs and practices of emergent faith communities new religious traditions and religious movements worldwide from the 19th century to the present *New Religions Emerging Faiths and Religious Cultures in the Modern World* provides insightful global perspectives on the emergent faith communities and new traditions and movements of the last two centuries Readers will gain access to the information necessary to explore the significance complexities and challenges that modern religious traditions have faced throughout their history and that continue to impact society today The work identifies the themes and issues that have often brought new religions into conflict with the larger societies of which they are a part Coverage includes new religious groups that emerged in America such as the Seventh day Adventists the Latter day Saints and the Jehovah s Witnesses alternative communities around the globe that emerged from the major Western and Eastern traditions such as Aum Shinrikyo and Al Qaeda and marginalized groups that came to a sudden end such as the Peoples Temple Heaven s Gate and the Branch Davidians The entries highlight thematic and broader issues that run across the individual religious traditions and will also help students analyze and assess the common difficulties faced by emergent religious communities **Cutting Along the Color Line** Quincy T. Mills,2013-10-09 Today black owned barber shops play a central role in African American public life

The intimacy of commercial grooming encourages both confidentiality and camaraderie which make the barber shop an important gathering place for African American men to talk freely. But for many years preceding and even after the Civil War black barbers endured a measure of social stigma for perpetuating inequality though the profession offered economic mobility to black entrepreneurs. Black barbers were obliged by custom to serve an exclusively white clientele. Quincy T Mills traces the lineage from these nineteenth century barbers to the bustling enterprises of today demonstrating that the livelihood offered by the service economy was crucial to the development of a black commercial sphere and the barber shop as a democratic social space. *Cutting Along the Color Line* chronicles the cultural history of black barber shops as businesses and civic institutions. Through several generations of barbers Mills examines the transition from slavery to freedom in the nineteenth century, the early twentieth century expansion of black consumerism and the challenges of professionalization, licensing laws and competition from white barbers. He finds that the profession played a significant though complicated role in twentieth century racial politics while the services of shaving and grooming were instrumental in the creation of socially acceptable black masculinity. Barbering permitted the financial independence to maintain public spaces that fostered civil rights politics. This sweeping engaging history of an iconic cultural establishment shows that black entrepreneurship was intimately linked to the struggle for equality.

The New Black Gods Edward E. Curtis IV, Danielle Brune Sigler, 2009-04-23

Taking the influential work of Arthur Huff Fauset as a starting point to break down the false dichotomy that exists between mainstream and marginal, a new generation of scholars offers fresh ideas for understanding the religious expressions of African Americans in the United States. Fauset's 1944 classic *Black Gods of the Metropolis* launched original methods and theories for thinking about African American religions as modern cosmopolitan and democratic. The essays in this collection show the diversity of African American religion in the wake of the Great Migration and consider the full field of African American religion from Pentecostalism to Black Judaism, Black Islam and Father Divine's Peace Mission Movement. As a whole they create a dynamic humanistic and thoroughly interdisciplinary understanding of African American religious history and life. This book is essential reading for anyone who studies the African American experience.

New World A-Coming Judith Weisenfeld, 2017-02-07

Albert J Raboteau Prize Best Book in Africana Religions. Impeccably researched, paints a colorful picture of religious diversity among Black people. *Journal of Africana Religions*. When Joseph Nathaniel Beckles registered for the draft in 1942, he rejected the racial categories presented to him and persuaded the registrar to cross out the check mark she had placed next to Negro and substitute Ethiopian Hebrew. God did not make us Negroes, declared religious leaders in black communities of the early twentieth century urban North. They insisted that so-called Negroes are in reality Ethiopian Hebrews, Asiatic Muslims, or raceless children of God. Rejecting conventional American racial classification, many black southern migrants and immigrants from the Caribbean embraced these alternative visions of black history, racial identity and collective future, thereby reshaping the black religious and racial landscape. Focusing on the Moorish Science

Temple the Nation of Islam Father Divine's Peace Mission Movement and a number of congregations of Ethiopian Hebrews Judith Weisenfeld argues that the appeal of these groups lay not only in the new religious opportunities membership provided but also in the novel ways they formulated a religious racial identity Arguing that members of these groups understood their religious and racial identities as divinely ordained and inseparable the book examines how this sense of self shaped their conceptions of their bodies families religious and social communities space and place and political sensibilities Drawing on extensive archival research and incorporating a rich array of sources to highlight the experiences of average members the book demonstrates that the efforts by members of these movements to contest conventional racial categorization contributed to broader discussions in black America about the nature of racial identity and the collective future of black people that still resonate today A masterful work of religious history a significant contribution to the study of religious narratives and their role in shaping African American identity and community in the past and the present *Journal for the Scientific Study of Religion*

The Urban Pulpit Matthew Bowman, 2014-02-04 Matthew Bowman explores the world of a neglected group of American Christians the self-identified liberal evangelicals who began in late nineteenth century New York to reconcile traditional evangelical spirituality with progressive views on social activism and theological questions These evangelicals emphasized the importance of supernatural conversion experience but also argued that scientific advances new movements in art and the decline in poverty created by a new industrial economy could facilitate encounters with Christ *The Urban Pulpit* chronicles the struggle of liberal evangelicals against conservative Protestants who questioned their theological sincerity and against secular reformers who grew increasingly devoted to the cause of cultural pluralism and increasingly suspicious of evangelicals over the course of the twentieth century Liberal evangelicals walked a difficult path facing increasing polarization in twentieth century American public life both conservative evangelicals and secular reformers insisted that religion and science were necessarily at odds and that evangelical Christianity was incompatible with cultural diversity Liberal evangelicals rejected these simple dichotomies but nonetheless found it increasingly difficult to defend their middle way Drawing on history anthropology and religious studies Bowman paints a complex portrait of these understudied Christians at work at worship and engaged in advocacy in the public square

Extraordinary Groups William W. Zellner, William M. Kephart, 2000-09-15 Text covering different groups in today's society like Jehovah's Witnesses Amish Gypsies Mormons etc New chapter on Unitarian Universalists

The Other Black Church Joseph L. Tucker Edmonds, 2020-12-02 *The Other Black Church* Alternative Christian Movements and the Struggle for Black Freedom examines the movements led by Father Divine Charles Mason and Albert Cleage later known as Jaramogi Abebe Agyeman as alternative Christian movements in the middle of the twentieth century that radically re-envisioned the limits and possibilities of Black citizenship These movements not only rethink the value and import of Christian texts and reimagined the role of the Black Christian prophetic tradition but they also outlined a new model of protest that challenged the language and logic of

Black essentialism economic development and the role of the state By placing these movements in conversation with the long history of Black theology and Black religious studies this book suggests that alternative Christian movements are essential for thinking about African American critiques of and responses to the failures of U S based democracy These prophets of Black theological thought and their attention to the limits of the state and traditional Black religious formations are most fully appreciated when studied in light of their conversations and interactions with other key Black prophetic and theological figures of the mid twentieth century Ultimately *The Other Black Church* will use those conversations and archives from these movements to highlight their protest of the racial state to explore the limits of the Black church and to argue for their continued significance for thinking about the variety and vibrancy of Black protest specifically Black religious protest during the twentieth century
