God The Problem God The Problem:

God the Problem Gordon D. Kaufman, 1972 The most discussed and most significant issue on the religious scene today is whether it is possible or even desirable to believe in God Mr Kaufman's valuable study does not offer a doctrine of God but instead explores why God is a problem for many moderns the dimensions of that problem and the inner logic of the notion of God as it has developed in Western culture His object is to determine the function or significance of talk about God how the concept of God is generated in human experience the special problems in turn generated by this concept for example the intelligibility of the idea of transcendence the problem of theodicy and how they are met and under what circumstances the idea of God is credible or important or even indispensable He does not try to prove God's existence or nonexistence but elucidates what the concept of God means and the important human needs it fulfills Four of the eleven essays have been previously published at least in part seven are completely new

God and the Problem of Evidential Ambiguity

Max Baker-Hyatt, 2024-05-02 When it comes to what many of us think of as the deepest questions of existence the answers can seem difficult to make out This difficulty or ambiguity is the topic of this Element The Element begins by offering a general account of what evidential ambiguity consists in and uses it to try to make sense of the idea that our world is religiously ambiguous in some sense It goes on to consider the questions of how we ought to investigate the nature of ultimate reality and whether evidential ambiguity is itself a significant piece of evidence in the quest

God in Postliberal Perspective Robert Andrew Cathey, 2009 Who is God The variety of images of God tends to overwhelm us in the present age Is God a fiction of human construction or a reality that makes claims upon how we practice

faith in God How does this quest for an understanding of God illumine who we are God in Postliberal Perspective presents an introduction to the doctrine and concept of God in contemporary philosophy and theology exploring how some theologians and philosophers dare to speak of God as real in our sceptical pluralistic and interfaith age Robert Cathey tours the house of realism as constructed by postliberal Christians David Burrell William Placher Bruce Marshall in conversation with living communities of faith and critical work in philosophy and theology and develops a distinctive argument about the relation of realism and non realism in constructing the doctrine of God in postliberal theology Offering a reading of postliberal theology which is open to critical discussion with other types of theology philosophy and faith traditions this book proposes a model of theological reflection that may be extended to the reality claims of a wide range of doctrines and concepts **Ethics and the Problem of Evil** Marilyn McCord Adams, John Hare, Linda Zagzebski, Laura Garcia, Bruce Russell, Stephen J. Wykstra, Stephen Maitzen, 2017-02-27 Provocative essays that seek to turn the attention of analytic philosophy of religion on the problem of evil towards advances in ethical theory Reading Religion The contributors to this book Marilyn McCord Adams John Hare Linda Zagzebski Laura Garcia Bruce Russell Stephen Wykstra and Stephen Maitzen attended two University of Notre Dame conferences in which they addressed the thesis that there are yet untapped resources in ethical theory for affecting a more adequate solution to the problem of evil The problem of evil has been an extremely active area of study in the philosophy of religion for many years Until now most sources have focused on logical metaphysical and epistemological issues leaving moral questions as open territory With the resources of ethical theory firmly in hand this volume provides lively insight into this ageless philosophical issue These essays and others will be of primary interest to scholars working in analytic philosophy of religion from a self consciously Christian standpoint but its audience is not limited to such persons The book offers illustrative examples of how scholars in philosophy of religion understand their aims and how they go about making their arguments hopefully more work will follow this volume s lead Reading Religion Recommended Choice **God and the Problem of Evil** Chad Meister, James K. Dew Jr., 2017-05-16 The problem of evil has produced many responses and elicited vigorous debate In this multiview book five philosophical theologians discuss and defend different solutions to this ancient problem Phillip Cary on the classic view William Lane Craig on Molinism William Hasker on open theism Thomas J Oord on essential kenosis and Stephen Wykstra on skeptical theism **The Meaning of the Church** Witness Lee, 2006 **God of All Comfort** Scott Harrower, 2019-04-24 How does God respond to trauma in a world full of horrors Beyond their physical and emotional toll the horrors of this world raise difficult theological and existential questions Where is God in the darkest moments of the human experience Is there any hope for recovery from the trauma generated by these horrors There are no easy answers to these questions In God of All Comfort Scott Harrower addresses these questions head on Using the Gospel of Matthew as a backdrop he argues for a Trinitarian approach to horrors showing how God in his triune nature reveals himself to those who have experienced trauma He explores the many ways God relates restoratively with humanity showing how God

s light shines through the darkness of trauma **The Gospel of God** Watchman Nee,1990-07 *Alternative Concepts of God* Andrei A. Buckareff,Yujin Nagasawa,2016 The concept of God according to traditional Judeo Christian Islamic theism minimally includes the following theses i There is one God ii God is an omniscient omnipotent and morally perfect agent iii God is the creator ex nihilo of the universe and the sustainer of all that exists and iv God is an immaterial substance that is ontologically distinct from the universe Proponents of alternative concepts of God such as pantheism panentheism religious anti realism developmental theism and religious naturalism exclude at least one of these claims A number of prominent philosophers and scientists have expressed sympathy with alternative concepts of the divine However voices raised in defense of these concepts tend not to be taken seriously in contemporary analytic philosophy of religion This volume aims to shed light on alternative concepts of God and to thoroughly consider their merits and demerits The contributors are leading analytic philosophers of religion including critics of these views as well as sympathizers This is the first contemporary edited collection featuring the work of analytic philosophers of religion covering such a wide range of alternative concepts of God

Catholicism and the Problem of God Mark K. Spencer,2023-11-23 This Element is an overview of the Catholic conception of God and of philosophical problems regarding God that arose during its historical development After summarizing key Catholic doctrines the first section considers problems regarding God that arose because Catholicism originally drew on both Jewish and Greek conceptions of God The second section turns to controversies regarding God as Trinitarian and incarnate which arose in early church councils with reference to how that conception developed during the Middle Ages In the third section the author considers problems regarding God's actions towards creatures including creation providence predestination and the nature of divine action in itself Finally the last section considers problems regarding how we relate to God The Element focuses on tensions among different Catholic spiritualities and on problems having to do with analogical language about God and human desire for God Three Philosophies of Life Peter Kreeft,2009-12-08 I've been a

philosopher for all my adult life and the three most profound books of philosophy that I have ever read are Ecclesiastes Job and Song of Songs These are the opening lines of Kreeft's Three Philosophies of Life He reflects that there are ultimately only three philosophies of life and each one is represented by one of these books of the Bible life is vanity life is suffering life is love In these three books Kreeft shows how we have Dante's great epic The Divine Comedy played out from Hell to Purgatory to Heaven But it is an epic played out in our hearts and lives here and now Just as there is movement in Dante's epic so there is movement in these books from Ecclesiastes to Job from Job to Song of Songs Love is the final answer to Ecclesiastes' quest the alternative to vanity and the true meaning of life Finally Kreeft sees in these books the epitome of theological virtues of faith hope and love and an essential summary of the spiritual history of the world **God** Christoph Schwöbel,1992 Peeters 1992 **Free Creatures of an Eternal God** Harm J. M. J. Goris,1996 Peeters 1996 **Walking in the Confidence of God in Troubled Times** Dr. Creflo Dollar,2009-05-30 Even in the midst of overwhelming personal

battles and troubled times Christians can learn to stand strong and enjoy lasting peace through God's words which provide deliverance and freedom

Divine Science and the Science of God Victor Preller, 2005-05-17 In this book Victor Preller examines the logical status of religious language in the light of recent developments in American analytic philosophy. The problem inherent in religious language is presented in terms of the referential status of the word God. The author argues that the significance of any referential term is dependent upon the ability of that term to play a significant role within a unified conceptual system. The problem is shown to transcend the epistemological dogmas of Positivism and Conceptual Empiricism and to be inherent in any intelligible epistemology including that of Thomas Aquinas whose theological treatises serve as a model of religious language for the thesis of this book. According to Professor Preller, Divine Science, Aquinas' term for what we now call Natural Theology, results from a reflection upon the limitations encountered by the intellect in its attempt to render intelligible the objects of human experience. In the Science of God, Aquinas' term for that mode of knowing engendered by faith, the unknown meta-empirical referent of Divine Science becomes the object of the human intellect. While this study develops out of the discussions inaugurated by Flew and McIntyre in *New Essays in Philosophical Theology*, it rejects the excessively empirical approach of most other studies in that tradition. It applies post-positivistic analysis to specifically Catholic theological language but it obviously applies to the theological language involved in any form of theism.
