Boats Against the Current Lewis Perry, 2002-08 *Boats Against the Current* provides a fascinating account of how American culture emerged from the sheltered elitist world of the eighteenth century into the dynamic turbulent civilization that reached full bloom after the Civil War The antebellum years were times of flux and change years of a society rushing into the western wilds muscular and ambitious yet haunted by uncertainty about its future and its past Renowned scholar Lewis Perry begins his study with a fresh look at Andrew Jackson vividly recreating a time when Americans feeling their ties to the past disintegrating fostered a new fascination with history Then Perry introduces us to the observations of such articulate foreign travelers as Alexis de Tocqueville and Fredrika Bremer He deftly weaves together these writers perspectives to provide a fascinating look at our emergent nation Here too are the women of the cities and frontier the peddlers preachers and showmen along with such writers as Hawthorne Emerson Whittier and Parker Perry brings these personalities and writings together to show us how early nineteenth century America saw itself in both its promise and its fears Now available for the first time in paperback *Boats Against the Current* offers a brilliant portrait of a society in the midst of change expansion and reflection about its own future and past Written by one of our leading intellectual historians it makes a major contribution to our understanding of the emergence of modern American culture
