Relaunching Titanic William Neill, Michael Murray, Berna Grist, 2013-07-18 Relaunching Titanic critically considers the invocation of Titanic heritage in Belfast in contributing to a new post conflict understanding of the city The authors address how the memory of Titanic is being and should be represented in the place of its origin from where it was launched into the collective consciousness and unconscious of western civilization Relaunching Titanic examines the issues in the context of international debates on the tension between place marketing of cities and other alternative portrayals of memory and meaning in places Key questions include the extent to which the goals of economic development are congruous with the contemplative city and especially the need for mature and creative reflection in the post conflict city whether development interests have taken precedence over the need for a deeper appreciation of a more nuanced Titanic legacy in the city of Belfast and what Belfast shares with other places in considering the sacred and profane in memory construction While Relaunching Titanic focuses on the conflicted history of Belfast and the Titanic it will have lessons for planners and scholars of city branding tourism and urban re imaging

Canadian Books in Print. Author and Title Index, 1975 **Juvenile Author-title Catalog** Orange County Public Library (Calif.), 1971 *Touring Cultures* Chris Rojek, John Urry, 2002-09-11 This collection brings together some of the most influential writers in the field to examine the complex connections between tourism and cultural change and the relevance of tourist experience to debates on space time and identity *The Publishers Weekly*, 1922 **Frankenstein Urbanism** Federico Cugurullo, 2021-05-16 This book tells the story of visionary urban experiments shedding light on the theories that

preceded their development and on the monsters that followed and might be the end of our cities The narrative is threefold and delves first into the eco city second the smart city and third the autonomous city intended as a place where existing smart technologies are evolving into artificial intelligences that are taking the management of the city out of the hands of humans The book empirically explores Masdar City in Abu Dhabi and Hong Kong to provide a critical analysis of eco and smart city experiments and their sustainability and it draws on numerous real life examples to illustrate the rise of urban artificial intelligences across different geographical spaces and scales Theoretically the book traverses philosophy urban studies and planning theory to explain the passage from eco and smart cities to the autonomous city and to reflect on the meaning and purpose of cities in a time when human and non biological intelligences are irreversibly colliding in the built environment Iconoclastic and prophetic Frankenstein Urbanism is both an examination of the evolution of urban experimentation through the lens of Mary Shelley s Frankenstein and a warning about an urbanism whose product resembles Frankenstein s monster a fragmented entity which escapes human control and human understanding Academics students and practitioners will find in this book the knowledge that is necessary to comprehend and engage with the many urban experiments that are now alive ready to leave the laboratory and enter our cities **The Cumulative Book Index** ,1922
