A Cultural History of Tarot Helen Farley, 2009-08-13 The enigmatic and richly illustrative tarot deck reveals a host of strange and iconic mages such as The Tower The Wheel of Fortune The Hanged Man and The Fool over which loom the terrifying figures of Death and The Devil The 21 numbered playing cards of tarot have always exerted strong fascination way beyond their original purpose and the multiple resonances of the deck are ubiquitous From T S Eliot and his wicked pack of cards in The Waste Land to the psychic divination of Solitaire in Ian Fleming's Live and Let Die and from the satanic novels of Dennis Wheatley to the deck's adoption by New Age practitioners the cards have in modern times become inseparably connected to the occult They are now viewed as arguably the foremost medium of prophesying and foretelling Yet as the author shows originally the tarot were used as recreational playing cards by the Italian nobility in the Renaissance It was only much later in the 18th and 19th centuries that the deck became associated with esotericism before evolving finally into a diagnostic tool for mind body and spirit This is the first book to

explore the remarkably varied ways in which tarot has influenced culture Tracing the changing patterns of the deck's use from game to mysterious oracular device Helen Farley examines tarot's emergence in 15th century Milan and discusses its later associations with astrology kabbalah and the Age of Aquarius **Philosophy in Schools** Felicity Haynes, 2017-10-02

In 1972 Matthew Lipman founded the Institute of Advancement for Philosophy for Children IAPC producing a series of novels and teaching manuals promoting philosophical inquiry at all levels of schooling The programme consisted of stories about children discussing traditional topics of ethics values logic reality perception and politics as they related to their own daily experiences Philosophy for Children has been adapted beyond the IAPC texts but the process remains one of an open community of inquiry in which teachers promote respect conceptual clarity critical judgement and active listening without imposing their own ideas **Philosophy in Schools** describes the successes and difficulties in implementing this community of inquiry model The book covers topics including the formation of non didactic courses in ethics the difficulties of fitting a post compulsory philosophy course into a standard curriculum framework and the political assumptions of adopting this model in a low socio economic school The contributions also ask deeper questions about how a genuine community of inquiry model is incompatible with conventional models of schooling with their positioning of the discipline of philosophy in the curriculum This book was originally published as a special issue of *Educational Philosophy and Theory* **Travels into Print** Innes M. Keighren, Charles W. J. Withers, Bill Bell, 2015-05-11

In eighteenth and nineteenth century Britain books of travel and exploration were much more than simply the printed experiences of intrepid authors They were works of both artistry and industry products of the complex and often contested relationships between authors and editors publishers and printers These books captivated the reading public and played a vital role in creating new geographical truths In an age of global wonder and of expanding empires there was no publisher more renowned for its travel books than the House of John Murray Drawing on detailed examination of the John Murray Archive of manuscripts images and the firm's correspondence with its many authors a list that included such illustrious explorers and scientists as Charles Darwin and Charles Lyell and literary giants like Jane Austen Lord Byron and Sir Walter Scott *Travels into Print* considers how journeys of exploration became published accounts and how travelers sought to demonstrate the faithfulness of their written testimony and to secure their personal credibility This fascinating study in historical geography and book history takes modern readers on a journey into the nature of exploration the production of authority in published travel narratives and the creation of geographical authorship a journey bound together by the unifying force of a world leading publisher *Learning Across Borders* Amy Hodges, Leslie Seawright, 2016-01-14
