Environmental Protection Agency,1997-10 **Moody's International Manual**,1994 **Technical guidance on fall armyworm** Food and Agriculture Organization of the United Nations,2022-05-27

Worldwide maize is the third most important cereal after rice and wheat It occupies 197 million hectares of planted area Asia contributes to nearly 30 percent of global maize supplies and area and production of the crop is rapidly increasing in the continent Minimum support prices swelling market demand from the animal feed and processing industries as well as human consumption have all led to increased maize production in zones where precipitation limits rice cultivation However maize production is currently threatened by the arrival in Asia in 2018 of the fall armyworm FAW Spodoptera frugiperda J E Smith a native to North America It invaded India in 2018 and since then it has marched to most of the Asian countries In 2019 its presence was confirmed in 13 Asian countries including Cambodia China India Indonesia Japan the Lao People s Democratic Republic Malaysia Myanmar Nepal the Philippines the Republic of Korea Sri Lanka and Viet Nam In 2020 it was confirmed in Australia Timor Leste and Papua New Guinea In August 2021 it reached the Solomon Islands posing a serious threat to other Pacific islands FAW is a fast dispersing migratory transboundary insect pest While high FAW incidences have been reported on several crops in Asia the most important economic damage caused is to maize followed by sorghum The FAW invasion threatens the food security of millions of family farms in Asia with smallholder farmers being especially vulnerable The

negative economic impact of FAW is not only evident in yield loss the pest also leads to a significant increase in insecticide applications with associated health environmental and cost issues At the same time resilience to FAW on the continent is currently weakened by the limited access to necessary tools technologies and sustainable integrated pest management IPM practices for FAW Thus there is an urgent need to implement an effective approach to FAW management in Asia **Grants Administration** United States. Scholten,2014-11-19 Based on a decade of study this book provides a scholarly overview of organic dairy politics showing how politics policy and protest both inside and outside of agriculture can determine a future of pastoral landscapes resembling an earlier time in the western world or alternatively one made of dystopian ruralities **ADHD Unpacked** Alex Conner,James Brown,2025-03-13 Essential reading Tom Watson Think you have ADHD and looking for help Recently diagnosed and thinking what now Looking to support and understand an adult with ADHD in your life From the hosts of The ADHD Adults comes this accessible authentic and unfiltered guide to understanding adult ADHD You ll find science backed facts on what ADHD actually is how it shows up in everyday life personal reflections sometimes painful often hilarious and tips and tools for coping Join Alex and James as they walk you through ADHD myth busters it s not a trend technology doesn t cause it and medication can be effective 80% of people who take ADHD medication think so the long held perceptions of ADHD did you know that it was once known as a defect of moral control to why intention and emotion regulation disorder might be a better name for it ADHD Unpacked is the relatable reassuring and downright funny handbook you need to survive and thrive with ADHD A true gift to the community Hana Walker Brown author of A Delicate Game A deep dive into the

science understandings and misunderstandings of ADHD Anita Bhagwandas author of Ugly Aerospace Reports, 1976 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database

Herbicides Ruben Alvarez-Fernandez, 2012-01-20 Weeds severely affect crop quality and yield Therefore successful farming relies on their control by coordinated management approaches Among these chemical herbicides are of key importance Their development and commercialization began in the 1940 s and they allowed for a qualitative increase in crop yield and quality when it was most needed This book blends review chapters with scientific studies creating an overview of some the current trends in the field of herbicides Included are environmental studies on their toxicity and impact on natural populations methods to reduce herbicide inputs and therefore overall non target toxicity and the use of bioherbicides as natural alternatives

Ethical Tensions from New Technology Harvey S James Jr, 2018-08-20 The introduction of new technologies can be controversial especially when they create ethical tensions as well as winners and losers among stakeholders and interest groups While ethical tensions resulting from the genetic modification of crops and plants and their supportive gene technologies have been apparent for decades persistent challenges remain This book explores the contemporary nature type extent and implications of ethical tensions resulting from agricultural biotechnology specifically and technology generally There are four main arenas of ethical tensions public opinion policy and regulation technology as solutions to problems and older versus new technologies Contributions focus on one or more of these arenas by identifying the ethical tensions technology creates and articulating emerging fault lines and where possible viable solutions Key features include focusing on contemporary challenges created by new and emerging technologies especially agricultural biotechnology Identifying a unique perspective by considering the problem of ethical tensions created or enhanced by new technologies Providing an interdisciplinary perspective by including perspectives from sociologists economists philosophers and other social scientists This book will be of interest to academics in agricultural economics sociology and philosophy and policymakers concerned with introducing new technology into agriculture

Conflicts of Interest in Science Sheldon Krimsky, 2019-01-29 30 Years of Peer Reviewed Studies on the Corporate Ties and Vested Interests that Influence Scientific Research For over 500 years groups and organizations with political economic and personal interests have successfully exercised influence on the pursuit of scientific inquiry and knowledge History is replete with examples like the Papal authority muddying research into studies of the cosmos but far less attention is paid today to the various corporate and special interest groups who through funding and lobbying efforts have been able to shape the modern academic and scientific landscape to fit their agenda In Conflicts of Interest Within Science author Sheldon Krimsky compiles 21 peer reviewed academic articles that examine the complex relationship between the individual scientists conducting research and the groups who fund them Ultimately Krimsky s call to action concerns a collective movement among authors peer reviewers

corporations and journal editors to disclose the sources of their funding By holding scientists and the groups that fund them more accountable through increased transparency we as a society can begin to rebuild trust in the integrity of knowledge
