God and Evolution? Science Meets Faith Dr. Gerard M. Verschuuren, 2012-10-29 Meet the match made in heaven between religion and science as they harmoniously converge through exploring the Catholic view on God and evolution Author Dr Verschuuren a practicing Catholic and human geneticist challenges the black and white attitude toward matters of religion and science Through drawing upon religion philosophy and biology he reveals that science and religion answer different dimensions to the same fundamental question Where do we come from allowing for a compatible and desirable coexistence one that preserves and in fact intensifies God's splendor *God and Evolution?* Gerard M.

Verschuuren, 2019-01-04 This book is the best Catholic introduction to the science of evolution With its rich illustrations and easy to follow explanations it is designed for true beginners including college students and educated Catholics who want to know more about evolution but demand faithfully Catholic material Unlike many other books it is not a book trying to offer a new or updated understanding of God instead it shows how when Catholics discover what the Church already teaches they will welcome the teachings of evolution Because it is written by a trained human geneticist and philosopher of science the reader can trust that the science is rigorous and authentic The bishop's foreword the Imprimatur and the many citations from Church authority demonstrate that the reader can trust the material to support not undermine Catholic faith [God and Evolution?](#)
