God And The Crisis Of Freedom Biblical And Contemporary Perspectives:

God and the Crisis of Freedom Richard Bauckham, 2002-01-01 This book outlines a biblical understanding of freedom and the particular ways in which Christians choose to exercise that freedom in response to major issues confronting the world today Specifically Bauckham constructs a Christian understanding of freedom explores the authority of Scripture in modern and postmodern contexts and also examines themes of tradition ethics oppression and ecology as they relate to issues of freedom and authority **Holy People, Holy Land** Michael Dauphinais, Matthew Levering, 2005-10 Offers an integrated theological vision of the Old and New Testaments that highlights the pattern of God's work through scripture

Christology in Cultural Perspective Rev. Dr. Colin J. D. Greene, 2015-10-14 Christology defines the very heart of the Christian faith Traditionally the study of the person and work of Christ has been understood largely as an exercise in biblical exegesis or historical and doctrinal analysis Rarely if ever has Christology focused on the changing cultural paradigms that have deeply influenced the development of human knowledge and self understanding This unique volume by Colin Greene reverses that trend and in line with developments in modern cultural theory explores the interlaces between successive cultural contexts and the story of Jesus to which the Scriptures bear witness Starting with an examination of the three main Christological trajectories that have dominated the history of Christology cosmological Christology political Christology and anthropological Christology Greene proceeds to concentrate on the subtle and complex linkages between Christology and the sociopolitical paradigms that have bolstered the epistemological assumptions of modernity Greene's wide ranging study closes with a creative exploration into how Christology might once again provide us with a Christ centered vision of reality

The Bible in the Contemporary World Richard Bauckham, 2015-11-30 A crucial responsibility for Christian interpreters of Scripture says Richard Bauckham is to understand our contemporary context and to explore the Bible's relevance to it in ways that reflect serious critical engagement with that context In this book Bauckham models how this task can be carried out Bauckham calls for our reading of Scripture to lead us to greater engagement with critical issues in today's world including globalization environmental degradation and widespread poverty He works to bring biblical texts to bear on these contemporary realities through the Bible's metanarrative of God and the world according to which God's purpose takes effect in the blessing and salvation and fulfillment of the world as his cherished creation [Desire for God and the Things of God](#) Wyndy Corbin Reuschling, 2012-09-21 For many Christians spirituality and ethics are in separate mental and experiential compartments Spirituality may be understood as an inner experience while ethics is focused on decisions or positions on issues Both of these views reduce spirituality and morality in Christian faith and practice and ignore the centrality of desire for God and the things of God as key focal points for spiritual and moral formation These aspects of Christian formation must be located in their scriptural and theological contexts in order to understand more fully what God desires for human life This focus on desire provides content and context to Christian spirituality and morality We are drawn outward to focus on God

and the good of others while we learn to embody virtues such as compassion courage self control gratitude humility and hope Practices are crucial ways by which we learn to incarnate our ultimate desire of love for God and for what God desires in the pursuit of justice and goodness for all creation In so doing practices enable us to more fully integrate spiritual and moral growth in the processes of our desire for God and the things of God **Galatians and Christian Theology** N. T.

Wright,Mark W. Elliott,Scott J. Hafemann,John Frederick,2014-09-09 The letter to the Galatians is a key source for Pauline theology as it presents Paul s understanding of justification the gospel and many topics of keen contemporary interest In this volume some of the world s top Christian scholars offer cutting edge scholarship on how Galatians relates to theology and ethics The stellar list of contributors includes John Barclay Beverly Gaventa Richard Hays Bruce McCormack and Oliver O Donovan As they emphasize the contribution of Galatians to Christian theology and ethics the contributors explore how exegesis and theology meet critique and inform each other **Bound to be Free** Graham Tomlin,2017-09-21 Graham

Tomlin Bishop of Kensington discusses the fraught concept of Freedom in contemporary culture Freedom is one of the most cherished ideals of Western culture Yet that ideal is threatened from without and within in alarming ways in our increasingly polarised world Could it be that at the heart of our secular vision of freedom there is a fatal flaw which means it can never square the circle of personal liberty and social cohesion that we all long for In this accessible significant and deeply thoughtful book Graham Tomlin argues that the Christian vision of freedom offers a way to think about liberty that can bring together both personal fulfilment and the health of community life in a way that secular versions have failed to do **Jazz**

and Christian Freedom Bradley K. Broadhead,2018-12-21 Contemporary Western society has a strange relationship with freedom Unbridled subjective liberty and narrow fundamentalism pull away from each other in mutual loathing while sociological forces seek to manipulate both sides The church needs to recover and reconstruct a theology of freedom to navigate between the perils of both extremes and to avoid being manipulated by these forces Just as biblical figures are taught through parables and metaphors this book uses jazz improvisation as an analogy for Christian freedom Just as jazz improvisation relies on successfully navigating constraints such as the history and traditions of jazz jazz theory and musical instruments so Christian freedom also relies on constraints such as the biblical canon church history theology and the church itself Through understanding the freedom jazz musicians enjoy in making music together we can better understand how Christian freedom might be enacted in daily life If Western churches discover and enact Christian freedom in a meaningful way the songs that they improvise will be as siren calls to people in chains *Systematic Theology and Climate Change*

Michael S. Northcott,Peter M. Scott,2014-06-05 This book offers the first comprehensive systematic theological reflection on arguably the most serious issue facing humanity and other creatures today Responding to climate change is often left to scientists policy makers and activists but what understanding does theology have to offer In this collection the authors demonstrate that there is vital cultural and intellectual work for theologians to perform in responding to climate science and

in commending a habitable way forward Written from a range of denominations and traditions yet with ecumenical intent the authors explore key Christian doctrines and engage with some of the profound issues raised by climate change Key questions considered include What may be said about the goodness of creation in the face of anthropogenic climate change And how does theology handle a projected future without the human The volume provides students and scholars with fascinating theological insight into the complexity of climate change The Body God Gives Robert S. Smith,2025-02-19 What is the relationship between sex and gender Understand society s shifts in thinking and talking about sex and gender Discover how biological sex guides gender Recognize how the Bible speaks to gender and transgender Respond to affirming interpretations of Scripture Answer gender confusion with clarity and compassion In The Body God Gives A Biblical Response to Transgender Theory Robert S Smith argues that God intends a person s gender to be grounded in the reality of his or her biological sex the body God has given In making his case Smith critiques the central claim of transgender theory that the sexed body does not determine the gendered self He also evaluates contemporary changes in thought and speech about sex and gender responding to modern confusion with biblical conviction and compassion God speaks clearly both in his word and in his world **Religion and Security** Robert A. Seiple,Dennis R. Hoover,2004-09-13 Religion and Security The New Nexus in International Relations focuses on a groundbreaking theme In global security today religion is not only part of the problem but also part of the solution This book explores positive nexus points between religion and security paying particular attention to the resources within the Abrahamic faith traditions of Judaism Christianity and Islam that foster sustainable peace Religion and Security is a lively and insightful collection of analyses by distinguished scholars and practitioners in security diplomacy conflict resolution human rights and theology As states and nongovernmental organizations alike reconsider their strategies for being relevant in the 21st century this book provides a practical framework through which both can work toward reducing violence and promoting human dignity Divided into four parts Religion and Security addresses themes of war and terrorism pluralism and stability military intervention and conflict resolution and religious freedom and civil society It underscores a crucial irony nations that violate religious human rights in the name of security will ultimately be vulnerable to a number of significant threats to stability This volume is a timely guide to the intersection of religion and security for human rights organizations security experts scholars of religion and politics government and non government staffers and decision makers and students in the disciplines of international affairs Heart of the Living God Michael G. Old and New Perspectives on Paul Chris Tilling, 2014-05-05 New Testament studies are witnessing many exciting developments And Douglas Campbell's groundbreaking publications are an important contribution to future discussions relating to Paul Familiar problems relating to justification old and new perspectives and much more besides have been tackled in fresh and exciting ways setting down challenge after challenge to all those involved in Pauline studies Campbell's publications therefore demand serious engagement This book seeks to facilitate academic engagement with Campbell's work in a unique way It contains numerous chapters critiquing his proposals while others summarize the key themes succinctly But it also contains Campbell's own response to the reception of his work allowing him space to outline how his thinking has developed In so doing this work allows readers to be drawn into a vitally important conversation It is academic theology in the making and constitutes the cutting edge of Pauline studies embed container position relative padding bottom 56 25% height 0 overflow hidden max width 100% embed container iframe embed container object embed container embed position absolute top 0 left 0 width 100% height 100% **The Annihilation of Hell** Nicholas Ansell, 2014-07-08 This work analyses and evaluates Jurgen Moltmann's model of universal salvation and its relation to his understanding of the redemption or eschatological fulfilment of time For Jurgen Moltmann Hell is the nemesis of Hope The Annihilation of Hell thus refers both to Hell's annihilative power in history and to the overcoming of that power as envisioned by Moltmann's distinctive theology of the cross in which God becomes all in all through Christ's descent into Godforsakenness The negation of Hell and the fulfilment of history are inseparable Attentive to the overall contours and dynamics of Moltmann's thinking especially his *zimizum* doctrine of creation his eschatologically oriented philosophy of time and his expanded understanding of the nature grace relationship this study asks whether the universal salvation that he proposes can honour human freedom promise vindication for those who suffer and do justice to biblical revelation As well as providing an in depth exposition of Moltmann's ideas The Annihilation of Hell also explores how a covenantal universalism might revitalise our web of beliefs in a way that is attuned to the authorising of Scripture and the spirituality of existence If divine and human freedom are to be reconciled as Moltmann believes the confrontation between Hell and hope will entail rethinking issues that are not only at the centre of theology but at the heart of life itself **Not Just Private** Craig Bakker, 2023-03-07 Both within the church and outside of it

popular discourse around sex is often shallow and individualistic This is especially true on the topic of sex outside of marriage Not Just Private explains how our sexual practices can and should stem from our deeply held uniquely Christian convictions convictions that mean we cannot talk about sex apart from Christian community or Christian character Laying out those foundations allows us to recover Christian insights that many of us have lost and to identify the cultural syncretism that has crept into our churches With these foundations in view we can see how sex is not about following rules or avoiding harm but rather about producing certain kinds of individuals and communities This is a book for Christians who want to be chaste but are not sure why they should be This is also a book for non Christians wondering why some Christians practice what Oscar Wilde described as the greatest sexual perversion namely chastity In the end Not Just Private shows both how Christian perceptions and beliefs are deeply at odds with the practice of extramarital sex and how the perceptions and beliefs that support extramarital sex are unchristian

The Bible and the Environment David G. Horrell, 2015-08-12 The biblical and Christian traditions have long been seen to have legitimated and encouraged humanity's aggressive domination of nature Biblical visions of the future with destruction for the earth and rescue for the elect have also discouraged any concern for the earth's future or the welfare of future generations But we now live in a time when environmental issues are at the centre of political and ethical debate What is needed is a new reading of the biblical tradition that can meet the challenges of the ecological issues that face humanity at the beginning of the third millennium The Bible and the Environment examines a range of biblical texts from Genesis to Revelation evaluating competing interpretations The Bible provides a thoroughly ambivalent legacy Certainly it cannot provide straightforward teaching on care for the environment but nor can it simply be seen as an anti ecological book Developing an ecological hermeneutic as a way of mediating between contemporary concerns and the biblical text The Bible and the Environment presents a way of productively reading the Bible in the context of contemporary ecology

Theology, Music, and Modernity Jeremy Begbie, Daniel K L Chua, Markus Rathey, 2021-02-02 Theology Music and Modernity addresses the question how can the study of music contribute to a theological reading of modernity It has grown out of the conviction that music has often been ignored in narrations of modernity's theological struggles Featuring contributions from an international team of distinguished theologians musicologists and music theorists the volume shows how music and discourse about music has remarkable powers to bring to light the theological currents that have shaped modern culture It focuses on the concept of freedom concentrating on the years 1740 1850 a period when freedom especially religious and political freedom became a burning matter of concern in virtually every stratum of Western society The collection is divided into four sections each section focusing on a key phenomenon of this period the rise of the concept of revolutionary freedom the move of music from church to concert hall the cry for eschatological justice in the work of black hymn writer and church leader Richard Allen and the often fierce tensions between music and language There is a particular concern to draw on a distinctively Scriptural imagination especially the theme of New Creation in order to elicit

the key issues at stake and to suggest constructive ways forward for a contemporary Christian theological engagement with the legacies of modernity today Out of Egypt: Biblical Theology and Biblical Interpretation Zondervan, 2011-03-01 Biblical theology attempts to explore the theological coherence of the canonical witnesses no serious Christian theology can overlook this issue The essays in the present volume illustrate the complexity and richness of the conversation that results from attentive consideration of the question In a time when some voices are calling for a moratorium on biblical theology or pronouncing its concerns obsolete this collection of meaty essays demonstrates the continuing vitality and necessity of the enterprise Richard B Hays George Washington Ivey Professor of New Testament The Divinity School Duke University USA This volume on biblical theology jumps into the fray and poses the right kind of questions It does not offer a single way forward Several of the essays are quite fresh and provocative breaking new ground Bray Reno others set out the issues with clarity and grace Bartholomew others offer programmatic analysis Webster Bauckham others offer a fresh angle of view Chapman Martin The success of this series is in facing the challenge of disarray in biblical studies head on and then modeling a variety of approaches to stimulate our reflection Christopher Seitz Professor of Old Testament and Theological Studies St Andrews University UK *Hope in the Age of Climate Change* Chris Doran, 2017-04-27 It is difficult to be hopeful in the midst of daily news about the effects of climate change on people and our planet While the Christian basis for hope is the resurrection of Jesus unfortunately far too many American Protestant Christians do not connect this belief with the daily witness of their faith This book argues that the resurrection proclaims a notion of hope that should be the foundation of a theology of creation care that manifests itself explicitly in the daily lives of believers Christian hope not only inspires us to do great and courageous things but also serves as a critique of current systems and powers that degrade humans nonhumans and the rest of creation and thus cause us to be hopeless Belief in the resurrection hope should cause us to be a different sort of people Christians should think purchase eat and act in novel and courageous ways because they are motivated daily by the resurrection of Jesus This is the only way to be hopeful in the age of climate change Christ and Culture Revisited D. A. Carson, 2012-01-31 Called to live in the world but not to be of it Christians must maintain a balancing act that becomes more precarious the further our culture departs from its Judeo Christian roots How should members of the church interact with such a culture especially as deeply enmeshed as most of us have become In this award winning book now in paperback and with a new preface D A Carson applies his masterful touch to that problem After exploring the classic typology of H Richard Niebuhr with its five Christ culture options Carson offers an even more comprehensive paradigm for informing the Christian worldview More than just theoretical Christ and Culture Revisited is a practical guide for helping Christians untangle current messy debates about living in the world
