Should Christians Prosper? James H. Hooks,2012-12-29 Prosperity is guaranteed by God Himself revealed through His
Word Most Christians believe that God wants them to prosper and rightly so This is because in the Bible God tells us He not
only wants us to prosper but also that He plans for us to prosper Yet prosperity has eluded so many not because of lack of
desire but because of lack of understanding In search of this dilemma they look for Scriptures to guide them They find that
the answer is not found in one topic or one scripture but scattered throughout the Bible in over 1 500 Scriptures dealing

directly with the subject There are approximately 1 000 more dealing indirectly with prosperity in some form My research has taken me through all of those Scriptures and put together an understanding that is easy to follow from one chapter to another revealing in Scripture in such a way that answers any question you may be facing in your own life that may be preventing you from achieving true prosperity There are many misconceptions and teachings on the prosperity doctrine that miss the mark and turn off many believers and nonbelievers alike This book reveals the false teachings of prosperity and how to detect the difference at a glance No matter where you are in your Christian walk there is something here for you Remember it is what you learn after you know it all that makes the biggest difference in your life If you do not consider yourself a Christian dont let that deter you from reading this book After reading this book you may just want to become one Dont waste another minute We know that God never lies God never fails and God truly wants you to prosper Suggested Reading Trust God for Your Finances by Jack Hartman The Generosity Factor by Ken J Blanchard and S Truett Cathy The Blessed Life by Robert Morris

PRESENTATION COMPETENT PEOPLE METAPHYSICS I KNOW IT I CREATE IT BECAUSE I KNOW Competent people the
poles this is the most important point on which metaphysical systems converge and they all agree about the competent
people What are competent people They somehow form the pillars of existence sustain it are the structures that sustain the
system What idea does this stem from As a metaphysical principle it is necessary to find a reason for creation if there is a god
why did he create creation what is the reason for this So there must be there must be a reason it is based here the knowledge
of reason He says I was a gem I wanted to be known so the reason is to want to be known what is it Your ore What is ore The
first substance that is the potential of something like the ore jewel relationship the thing that shows the ore is its processing
that is the god wanted to be processed this is the reason CREATING INDUCTION THROUGH THE OBSERVANT S MIRROR
What technique did God use when he was creating Creation continues in continuity at the moment Religious books give
different answers to these situations everyone tells what they have in their bags For example the angel Gabriel has a duty to
create storms every angel has a job and the chosen spirits which they call holy spirits also perform some duties God has an
innumerable number of angels made up of angels each doing a job What kind of technique is this does god use a technique
Reply Yeah So can you people use this technique in your own life Reply yes we can call it the induction technique How is it
First of all we will go over metaphysical values again of course creation means reaching a destiny in this way there are
various destinies on a line or on a cycle In other words there is such a thing as faith in destiny it has been written before but

this destiny is the destiny of possibilities Think of it this way you only have three numbers 1 2 3 no other numbers these three numbers are your potential destiny so you are confined here What can you do with these three numbers Here knowledge wisdom and effort come into play you can do subtraction addition permutation they are all your destiny but the number 4 is outside of your destiny there is nothing written for you there you can create change here Simply God has a science there are many options you can make with the numbers 1 2 3 in this science all of them are written for you the rest is to learn the science and technique of it In time you will understand what potential you have by using the science of nature So each result creates a pattern a kind of pattern Creation also means that a person moves from one mold to another and is reshaped there that is models and patterns are also present there For example 1 2 1 this pattern already exists you pour yourself into it there creation takes place This is how God does these things by his people there is nothing unknown let me give you another example For example you in position A are having a problem let s call it position A in distress Then you asked for the help of the angel with the permission of Allah and for some reason the angel decided to help you for example you wish for healing you are sick you have a wish for healing That is the disease is a model your healed state is another model the angel has healed you from the position of illness puts it in position For example it does not make a giraffe out of you it does not create such a possibility for you or it does not give you immortality We have the mirror of the observer the observer and the creation process for an observer again based on faith in destiny let s assume that the potential number 1 2 is the variation of these two numbers that an observer can see in his mirror no matter what he does nothing else It can increase the possibilities with knowledge but there is a but there In fact God takes care of his work namely his creation with these aims While the observer sees his own possibilities in his mirror he reaches the paradox of infinite mirrors since he is also an observed to those possibilities Just like the servant whom God loves and the servant who loves God very much these are the reflections of man as a servant in God the observing god determines the area he observes with the fate and potential of the observer It sounds complicated but it s not it all falls into place towards the end So how does this happen We are talking about a single human being the observer and the agent interfering person where is the field he she observes He cannot observe anything but manifestation that is he observes creation Observing it creates its own combination For example when looking at a work of art one person looks with admiration respects the effort for the art there and another looks with envy both of which are potentials within those numerical possibilities For example one commits a sin one observer looks forgiving the other looks vindictive and vengeful which is choosing a destiny within possibilities Now let s look at the rest of the sentence the concept of induction what is that concept This is a very interesting concept it is a technology that is already used today but even those who use or create this technology do not know the essence of the business and here is the secret of creation God s creation technique is induction it is to change the structure of a substance without touching it we can also call it the power of thought that is if you hit the iron with a hammer the iron will be crushed What is creation It means breaking the will of something

What is will Any substance has a self preservation that is a resistance structure to maintain its current shape which is also a necessary thing So if an outside force wants to create on something external it has to break its will For example the cracking of the seed means the breaking of the will of the seed Why does he have willpower Because God protects it that is he does it so that it does not break in an incorrect and unsuitable environment that is in areas where creation will not take place The seed cracks in the soil in various special circumstances like this because only there it can enter into creation In other words God creates his creations by breaking the shell of things breaking his will to resist and in this way he creates constantly According to what and for what purpose does God constantly create Here again induction comes into play God chooses creation but you choose how to create that s the interesting part For example electrolysis technique is an induction technique what is it You put a metal in acidic or silver or chrome water you give electricity to the metal the electrified metal attracts the liquid metal in the water and becomes a coating The other technique that does this is psychic therapy by suggestion that is no surgical procedure all by using a technique from afar and suitable for the next possibility of the thing For example you cannot apply this technique to plastic it is not among its fate options there is no electrolysis what does that mean As a potentially destiny item your creation pattern determines the possibilities In other words while creating God he connected the system to a kind of automatic order your destiny as a subject and a creation on you with the knowledge that comes over your attempt as a subject That is a kind of breaking of will followed by remodeling for change that is creation is in the form of both the observed and the observing you having reached any of your destiny possibilities at that moment getting sick is a possibility getting healed is a possibility it s all there Let s look at the creation process of god based on scriptures seven layers of heaven and above it the chair of God that is the universe created by God Think of it this way nine balls are intertwined The first ball is our universe the next seven floors are seven heavens the last one is the lectern which we also call the god floor we have such a model four archangels hold this lectern these are of course a symbolic expression but we will look at what it tells Where could God have started creation After God created all these and his angels he creates Adam determines the Doomsday time and the beginning and the end are created together I wonder why he created such a model Why is something done even if it is God Even God cannot escape his own rule **What Satan Doesn't Want you to Know** Felix Wantang,2022-06-02 This book reveals the limitations of Satan how to resist him and the tools that you need to spiritually draw closer to God through Jesus Christ When you read this book you will come to understand the crafty schemes that Satan uses to operate in the world and why you should never be afraid of him This book will help you look at Satan through the eyes of Jesus Christ and come to the realization that Satan is afraid of humanity In life in order to fight and successfully defeat your enemies you must first understand your enemies and their limitations You must use weapons capable of destroying the forces of your enemies otherwise you will be fighting a lost battle Jesus Christ is the light of God in the garden of Eden Satan disguised himself when he deceived Eve because he knew the strength and weakness of Eve he also

knew that to destroy Adam you must go through Eve Adam and Eve on the other hand were oblivious of Satan's true identity strength and limitations which explains why they failed and subsequently gave birth to the sins of the world In the wilderness Satan did not try to disguise himself when he tempted Jesus Christ because Jesus was cognizant of Satan's true identity limitations his source of strength and what it takes to humiliate or resist him Jesus knew exactly when and how to tell Satan to back off When the giant Goliath attacked the Israelites the young David with no warfare experience decided to confront Goliath because he knew and understood the limitations of the giant From a supernatural standpoint David knew that nothing is more powerful than the true living God The truth is that Satan doesn't want you to know that he is vulnerable inferior to you and afraid of humanity he also doesn't want you to know that he is fighting a lost battle God has given you everything you need to resist and humiliate Satan because the battle was fought on the cross and Jesus Christ has overcome the world I have told you these things so that in me you may have peace In this world you will have trouble But take heart I have overcome the world John 16:33 When you read this book you will come to the conclusion that Satan is afraid of you Jesus loves you
