Race, Citizenship, and Law in American Literature Gregg D. Crane, 2002-01-24 In this broad ranging and powerful study Gregg Crane examines the interaction between civic identity race and justice in American law and literature Crane

recounts the efforts of literary and legal figures to bring the nation's law into line with the moral consensus that slavery and racial oppression were evil. By documenting an actual historical interaction central both to American literature and American constitutional law, Crane reveals the influence of literature on the constitutional discourse of citizenship. Covering such writers as Harriet Beecher Stowe, Ralph Waldo Emerson, and Frederick Douglass, and a whole range of novelists, poets, philosophers, politicians, lawyers, and judges, this is a remarkable book that will revise the relationship between race and nationalism in American literature.

A Race So Different Joshua Chambers-Letson, 2023-11-21. Winner of the 2014 Outstanding Book Award presented by the Association for Theatre in Higher Education. Taking a performance studies approach to understanding Asian American racial subjectivity, Joshua Takano Chambers-Letson argues that the law influences racial formation by compelling Asian Americans to embody and perform recognizable identities in both popular aesthetic forms such as theater, opera, or rock music, and in the rituals of everyday life. Tracing the production of Asian American selfhood from the era of Asian Exclusion through the Global War on Terror, *A Race So Different* explores the legal paradox whereby U.S. law apprehends the Asian American body as simultaneously excluded from and included within the national body politic. Bringing together broadly defined forms of performance from artistic works such as *Madame Butterfly* to the Supreme Court's oral arguments in the Cambodian American deportation cases of the twenty-first century, this book invites conversation about how Asian American performance uses the stage to document, interrogate, and complicate the processes of racialization in U.S. law. Through his impressive use of a rich legal and cultural archive, Chambers-Letson articulates a robust understanding of the construction of social and racial realities in the contemporary United States.

Gender and Race in Antebellum Popular Culture Sarah N. Roth, 2014-07-21. In the decades leading to the Civil War, popular conceptions of African American men shifted dramatically. The savage slave featured in 1830s novels and stories gave way by the 1850s to the less threatening, humble black martyr. This radical reshaping of black masculinity in American culture occurred at the same time that the reading and writing of popular narratives were emerging as largely feminine enterprises. In a society where women wielded little official power, white female authors exalted

white femininity using narrative forms such as autobiographies novels short stories visual images and plays by stressing differences that made white women appear superior to male slaves This book argues that white women as creators and consumers of popular culture media played a pivotal role in the demasculinization of black men during the antebellum period and consequently had a vital impact on the political landscape of antebellum and Civil War era America through their powerful influence on popular culture
