marketing and loyalty campaign in the annals of corporate sustenance The world embraced this pasteurized version of the outlaw subculture You might meet the nicest people on a Honda but Harley riders are all about cool They adapt a pseudo outlaw lifestyle that emulates freedom and individualism They spend much of their time adopting one charity or another to prove they really aren't bad Many charities benefitted greatly during the Harley boom Can these riders be contesting the Honda mantra of niceness The previous owners AMF deserve much credit for the success of Harley Davidson They gave the Gang of 13 a platform from which to launch These new guys were brighter than bright They put a management team together that knew no bounds in success I am sure that Marketing 101 in every business school teaches and will continue to teach their brilliant story Harley Davidson became the epitome of American manufacturing and marketing the darling of capitalism at its finest Think about it How could a rusty old manufacturer whose time had drifted by reach such pinnacles of success Well H D had a little help along the way with two main sociological factors 1 The post World War II baby boom the aging bulge in American demographics looking for adventure and whatever safely came their way 2 A generation that worked hard raised families and then looked back at what they had missed in their youth Harley Davidson embodied the freedom and adventure they lacked Harley Davidson was granted two decades in which to plan a lasting and viable future It sought to be the motorcycle of mainstream America The world would follow This venerable company almost pulled it off The Motor Company updated technology both in their manufacturing venue and in the product itself H D balanced on a near impossible fulcrum maintaining tradition on one side and complying with environmental dictates on the other The Evolution's successor the air cooled Twin Cam introduced in 1999 with great success H D continued to grow and prosper I have always viewed the Twin Cam as a transitional model embracing the past but leading into a future of overhead cams and water jackets The new H D V Rod's technological marvels are a wonderful attempt but as much as the Factory hoped mainstream Harley riders did not take the bait en masse After all they had their psychological needs These attempts did not prevent dark clouds from appearing on the horizon 1 Inexorably the post World War II baby boom's bulge has grown older losing interest in reclaiming youth with interests shifting elsewhere Who is to take over this downsizing market Who will be left to support the Motor Company in the style it has become accustomed 2 In my humble opinion the masters of marketing did not fill the coming void of consumers I think H D is good at pretty much everything except lowering prices for the incoming generations Nor have they developed affordable and desirable product lines for the youth Certainly the Factory began to enjoy economies of scale in manufacturing I for one do not think they have used their profits wisely for continued prosperity Will I continue to ride a Harley at age 62 Sure I will but I was riding them before they became cool I am not a dentist looking for a safe walk on the wild side or a movie star acquiring the in bauble of the day The Evolution motorcycle saved the Hog's bacon but a new savior is now required

WALNECK'S CLASSIC CYCLE TRADER, DECEMBER 2007 Causey Enterprises, LLC, The Harley-Davidson Story
Aaron Frank, 2018-11-20 The Harley Davidson Story Tales from the Archives is a fascinating visually driven overview of the
motor company's rich story created in cooperation with the Harley Davidson Museum The story of Harley Davidson is a
classic American tale of spirit invention and the right idea at the right time From its beginning in a small Milwaukee shed in
1903 William Harley and his cousins the Davidson brothers set in motion what would eventually become the world's most
iconic motorcycle company While other motorcycle companies rose and fell through the teens and 1920s Harley went from
strength to strength whether introducing its first V twin motor or dominating race tracks across America The Milwaukee
Miracle even prospered during WWII building war bikes for the armed forces By the 1950s they'd buried their last American
built competitor Indian and gained a hold over the US market that they maintain to this day A remarkable story deserves a
remarkable space to recount it Such is the Harley Davidson Museum in Milwaukee which opened in 2009 Harley Davidson
partnered with Motorbooks to create this book relaying Harley Davidson's story as told through the museum's displays and
