

McGraw-Hill Connect, Managerial Accounting, Chapter 23 Homework

Ernie Boyd University Accountant Managerial Accounting (Spring 2024)

Identify the corresponding budget(s) from each of the accounts or financial items in parentheses with the following:

1) Budgetary control systems

- Cost of Goods Sold Budget
- Sales Budget

2) Budgetary control system

- Direct materials budget
- Payables budget
- Budgeted income statement

3) Cash flow budget

- Payables budget
- Sales Budget

4) Cost of goods sold budget

- Direct materials budget
- Production budget

5) Production budget

- Sales Budget

6) Flanagan Company's flexible budget provides for 220,000, 275,000, and 330,000 units manufactured, 10000, 12000, and 14000 gallons of raw, synthetically derived liquid. Sales are 10000, 12000, and 14000 units respectively. Manufacturing costs in the flexible budget for Flanagan:

- Variable manufacturing costs: 88,000, 105,600
- Total fixed manufacturing costs: 200,000

Explanation

The variable cost per production unit based on finding the difference in variable cost divided by the unit change in production is $\frac{105,600 - 88,000}{275,000 - 220,000} = \frac{17,600}{55,000} = 0.32$ per unit. The variable cost per gallon is $\frac{105,600 - 88,000}{275,000 - 220,000} = \frac{17,600}{55,000} = 0.32$ per gallon. The fixed manufacturing cost based on knowing that 220,000 units cost 88,000 is $\frac{88,000 - (0.32 \times 220,000)}{220,000 - 220,000} = \frac{88,000 - 70,400}{0} = \frac{17,600}{0}$. Thus, the flexible budget for 100 is a function of quantity = $88,000$.

7) Last month, when Department generated sales of 10000, 10000 units were sold and administrative expenses of 10000, 10000 units of direct costs were available. Expenses for company administration is not generated sales of 10000, 10000 units respectively.

Mcgraw Hill Connect Managerial Accounting Answers:

Ebook: Managerial Accounting - Global Edition Ronald Hilton, David Platt, 2014-09-16 We are pleased to present this Global Edition which has been developed specifically to acquaint students of business with the fundamental tools of managerial accounting and to promote their understanding of the dramatic ways in which business is changing. The emphasis is on teaching students to use accounting information to best manage an organization. Each chapter is written around a realistic business or focus company that guides the reader through the topics of that chapter. There is significant coverage of contemporary topics such as activity based costing, target costing, the value chain, customer profitability analysis, and throughput costing, while also including traditional topics such as job order costing, budgeting, and performance evaluation. Many of the real world examples in the Management Accounting Practice boxes have been revised and updated to make them more current, and several new examples have been added. This Global Edition has been adapted to meet the needs of courses outside the United States and does not align with the instructor and student resources available with the U.S. edition.

Managerial Accounting for Managers Eric W. Noreen, Peter C. Brewer, Ray H. Garrison, 2014 *Managerial Accounting for Managers* 3rd edition by Noreen Brewer Garrison is based on the market leading managerial accounting solution *Managerial Accounting* by Garrison Noreen and Brewer. The Noreen solution presents integrated and proven solutions designed to help attain course goals of student readiness, comprehension of content, and application of key concepts in the managerial accounting course while addressing the needs of instructors who do not wish to teach the financial accounting oriented content that is included in the Garrison solution. Of the three programs in the Garrison franchise, the Brewer solution, the Garrison solution, and the Noreen solution, the Noreen solution is the most pure management accounting content. The other two programs contain greater coverage of financial accounting topics. *Managerial Accounting for Managers 3e* is geared towards professors who love Garrison's market leading managerial accounting content but prefer to approach their course by eliminating the debits and credits coverage. The Noreen solution includes the managerial accounting topics such as Relevant Costs for Decision Making, Capital Budgeting Decisions, and Segment Reporting and Decentralization, however, the job order costing chapter has been extensively rewritten to remove all journal entries. Furthermore, the chapters dealing with process costing, the statement of cash flows, and financial statement analysis have been dropped to enable professors to focus their attention on the bedrocks of managerial accounting: planning, control, and decision making. McGraw Hill's Connect Plus Accounting offers a complete digital solution that combines all the great features of Connect Accounting along with access to an

online version of Managerial Accounting for Managers 3e so that students can easily refer back to the text for review and guidance This media rich eBook links directly to tutorials and online resources and offers additional functionality like taking notes and highlighting key passages for reviewing later Contained within Connect Plus Accounting is McGraw Hill s adaptive learning system LearnSmart which is designed to help students learn faster study more efficiently and retain more knowledge for greater success In addition Interactive Presentations deliver learning objectives in an interactive environment giving students access to course critical content anytime anywhere Guided Examples provide students with narrated and animated step by step walkthroughs of algorithmic versions of assigned exercises
