based society in the present right dominated world A viable solution to the current real world problems could be found in exploring the philosophy on duties and the book provides relevant literature in this regard It undertakes jurisprudential analysis of duty in a rights dominated world identifying the gaps in realising the potential of duty to address the critical issues of the present times It argues that enforcement of rights depends heavily on the observance of duties and proposes coherence in right duty relationship Gandhian thought on duty recognises duty as a precursor to rights and emphasises that the observance of duties guarantees the enforcement of rights The relevance of duties and Gandhian thoughts on the same is not restricted to India but transcends borders with profound appeal Gandhian thoughts have become even more relevant in the current times to examine the situation of COVID 19 pandemic racial discrimination BLM environmental crises digital divide health care and medical care crises refugee and migrant labour problems and it can offer promising solutions based on the nuances of social solidarity self realisation of duties responsibilities local governance compassion and humanity *The Times of India Directory and Year Book Including Who's who* Sir Stanley Reed,1965 Issues for 1919 47 include Who s who in India 1948 Who s who in India and Pakistan **Immunology at the feto-maternal interface** Mahmood Jeddi-Tehrani,Amir-Hassan Zarnani,Maria Laura Zenclussen, Marie-Pierre Piccinni,2025-09-19 Reproductive biology is the mother of other areas in biology as Reproduction had been the main strategy of simple and higher organisms to evolve The utmost fitness in evolutionary tree is biological fitness in being beneficial for successful reproduction In this connection reproductive sciences have been the focus of many research programs Specifically reproductive immunology has received the attention of researchers more than ever This trend is largely due to the industrialization of societies the increase in the age of marriage and as a result the decrease in fertility rates On the other hand despite significant advances in the field of artificial reproductive technologies low success rate of embryo transfer is the main limiting factor for in vitro fertilization treatment Therefore understanding the immunological mechanisms of implantation and the adaptation of the immune cells of the pregnancy site which leads to the maternal immunological tolerance to fetal antigens is of utmost importance

Immunological alterations of the female reproductive tract commences from the first exposure to seminal plasma leading to molecular and cellular changes that increase the chance of conception and pregnancy through modulation of inflammatory responses and induction of paternal antigen specific regulatory T cells Steroid hormone directed decidualization of endometrium is the first step for embryo implantation and placental development which eventually leads to immunoregulation of the immune cells residing in the endometrium in favor of pregnancy Following placental development an extensive crosstalk begins among developing trophoblasts decidualized endometrial stromal cells and the decidual immune cells and establishes a unique triangle for induction of maternal immune tolerance All the processes of entire pregnancy are under the tight control of inflammation regulatory mechanisms While acute inflammation is a triggering mechanism of embryo implantation and parturition cell senescence associated with chronic inflammation in pregnancy

related disorders such endometriosis chronic endometritis and hydrosalpinx is destructive and can lead to infertility or abortion **Economic and Political Weekly** ,1997 Arts & Humanities Citation Index ,1983 A multidisciplinary index covering the journal literature of the arts and humanities It fully covers 1 144 of the world s leading arts and humanities journals and it indexes individually selected relevant items from over 6 800 major science and social science journals
