The Black Sea from Paleogeography to Modern Navigation Romeo Bosneagu, 2022-02-22. This book provides an analysis of the evolution of navigation and seaborne trade in the Black Sea, considering the geographic, geological, and hydro-meteorological data, including information from the historical, geopolitical, economic, social, and military frames. In ancient times, the Black Sea was at the edge of the known world, and together with its coasts, it preserves traces of the Greek, Roman, and Byzantine civilizations. Many of the ancient ports were important and essential towns, which remains the case in modern times. The complex geographical conditions that have historically influenced and continue to influence the development of maritime trade and transport in the Black Sea have not been thoroughly researched or optimized for these activities. The book is divided into ten chapters. Chapter I describes the physical geographical conditions of the Black Sea's basin and the geological evolution of its recent history, with application to the hypothesis of Noah's flood. Chapter 2 presents a short history of the research conducted on the Black Sea up to the present day. Chapter 3 summarizes the specific characteristics of the Black Sea's morphohydrography and morphodynamics. Chapter 4 contains the conclusions regarding the influence of coastal relief on the navigation and seaborne trade on the Black Sea. Chapter 5 analyzes the Black Sea basin's meteorological regime. Chapter 6 contains the conclusions of the influence of weather and climate factors on the navigation and seaborne trade on the Black Sea. Chapter 7 describes the specific hydrological factors of the Black Sea. Chapter 8 contains the conclusions regarding the influence of the hydrological factors for the navigation and seaborne trade on the Black Sea. Chapter 9 presents the Black Sea's specific hydrobiological

elements specific as a unicum hydrobiologicum and the main features of the Black Sea s ecology Chapter 10 is concentrated on the historical social political economic and geopolitical framework of the Black Sea basin influencing navigation and maritime transportation from ancient times to the present The book is written from the perspective of a Romanian Navy officer with more than 40 years experience in the Romanian Navy *Mediterranean Almanac 2025/26* Rod and Lucinda Heikell,2025-02-13 The essential marine data resource for yachts sailing the Mediterranean the Imray Mediterranean Almanac is published biennially with updates available in a downloadable supplement at the end of the first year It includes Data waypoints and contacts for all major harbours and marinas throughout the Mediterranean Sea plus Atlantic Islands Weather sources for radio internet and apps Information on lights and buoys Maritime regulations marine reserves and traffic schemes Coast radio stations and frequencies GMDSS safety and distress communications Harbour plans throughout with the familiar Imray cartography which adds clarity to their use There are the usual detailed revisions throughout this edition plus many new harbour plans *Innovating Education in Technology-Supported Environments* Kam Cheong Li,Eva Yuen Mei Tsang,Billy Tak Ming Wong,2020-09-29 This book explores a broad range of innovations in education such as flipped classrooms the educational use of social media mobile learning and educational resources It also includes theoretical discussions and practical applications related to the use of augmented reality and educational technologies for improving students engagement and facilitating their future studies and careers Featuring case studies and practical applications illustrating the effectiveness of new modes of education in which the latest technologies and innovations are widely used in the global context the book helps readers develop their awareness of the related insights and implications in order to deepen their understanding and stimulate critical thinking as to how new technologies have made learning and teaching easier in different educational settings
