

Harvey City Comprehensive Case

The Harvey City Comprehensive Case consists of the last problem in each chapter from Chapters 4 through 15. Completing this case essentially requires that you account for all the transactions of a moderately complex city for a year (dealing with summary transactions) and that you prepare the basic financial statements and a significant portion of the financial section of the comprehensive annual financial report (CAFR) for that city. If you complete all of the requirements for the Comprehensive Case, you will:

- Prepare journal entries and financial statements for one or more funds of each type for Harvey City, except Permanent Funds. Like most local governments, Harvey City does not have a Permanent Fund. (Chapters 4-8 and 10-12)
- Account for Harvey City's general capital assets and general long-term liabilities. (Chapter 9)
- Account for and report the vast majority of transactions that are either unique to governments or are handled in a unique manner by governments. (Chapters 4-12)
- Determine which of Harvey City's funds are *major funds*. (Chapter 13)
- Prepare a complete set of *fund* financial statements for Harvey City, including governmental fund financial statements, proprietary fund financial statements, and fiduciary fund financial statements. (Chapter 13)
- Prepare worksheets to derive Harvey City's government-wide financial statement data from its fund financial statement data. (Chapter 14)
- Prepare a complete set of *government-wide* financial statements for Harvey City, including both a government-wide statement of net position and a government-wide statement of activities. (Chapter 14)
- Prepare reconciliations of Harvey City's fund financial statements and its government-wide financial statements. (Chapter 14)
- Prepare *combining* financial statements that articulate with Harvey City's presentations for nonmajor funds in its fund financial statements. (Chapter 15)

Except for the General Fund, the transactions and events affecting each individual fund of Harvey City are dealt with in the chapter on that fund type. Most General Fund transactions are presented in this chapter, but more advanced transactions of the General Fund are presented in Chapters 5 and 6—after the related topics have been covered.

HARVEY CITY SOLUTION APPROACH

Various approaches may be used to complete the Harvey City Comprehensive Case. We believe that the most efficient approach is to use electronic spreadsheets similar to the worksheet shown in Appendix 4-1 to this chapter in Illustration 4-13 on pages 148-149. The one difference we would suggest is that you use detailed revenue and expenditures accounts in the worksheet instead of using the control account—subsidiary ledger approach demonstrated in this chapter. The use of detailed general ledger accounts is illustrated in Appendix 4-2 and is used in several later chapters. You may want to see Illustration 7-3 for an example of a simple detailed general ledger worksheet.

Using a worksheet approach to solve the problem will be particularly helpful when you begin to prepare fund financial statements in Chapter 13 and a worksheet to derive government-wide financial statement data in Chapter 14. (Worksheet templates are available for the case.)

Again, other approaches—use of a general ledger and detailed subsidiary ledgers, for instance—are acceptable, if your professor prefers.

HARVEY CITY CHAPTER 4 REQUIREMENTS

- a. Enter the beginning (January 1, 20X4) trial balance of the General Fund of Harvey City in a General Fund worksheet. (A different solution approach may be used if desired by your professor.) The worksheet (which is similar to Illustration 4-13) may be set up as follows:
 1. The first column should be used for account titles.
 2. Columns 2 and 3 should be the debit and credit columns, respectively, for the beginning trial balance of the General Fund.
 3. Column 4 of the worksheet should be a reference column to tie the journal entry *debits* to the transaction number in this problem.

Extreme Cities Ashley Dawson, 2017-10-31 How will climate change affect our lives Where will its impacts be most deeply felt Are we doing enough to protect ourselves from the coming chaos In Extreme Cities Ashley Dawson argues that cities are ground zero for climate change contributing the lion's share of carbon to the atmosphere while also lying on the frontlines of rising sea levels Today the majority of the world's megacities are located in coastal zones yet few of them are adequately prepared for the floods that will increasingly menace their shores Instead most continue to develop luxury waterfront condos for the elite and industrial facilities for corporations These not only intensify carbon emissions but also place coastal residents at greater risk when water levels rise In Extreme Cities Dawson offers an alarming portrait of the future of our cities describing the efforts of Staten Island New York and Shishmareff Alaska residents to relocate Holland's models for defending against the seas and the development of New York City before and after Hurricane Sandy Our best hope lies not with fortified sea walls he argues Rather it lies with urban movements already fighting to remake our cities in a more just and equitable way As much a harrowing study as a call to arms Extreme Cities is a necessary read for anyone concerned with the threat of global warming and of the cities of the world

Mayoral Control of the New York City Schools David Rogers, 2009-03-04 This is a book about the ambitious reform strategy known as mayoral control initiated to transform the dysfunctional system of urban education in the United States I use the term dysfunctional to refer to the inability of urban school districts over the past 50 years to reduce the learning gap between poor students and their middle class peers despite a host of reform efforts including desegregation compensatory programs and decentralization Since the mid 1990s the idea of mayoral control has generated considerable interest Several large cities have introduced it such as Boston Chicago Cleveland Detroit Baltimore and Washington Henig and Rich 2004 Wong et al 2007 Although the latter have completed a quantitative study of mayoral control's impact on student performance in over 100 cities a case study of the New York experience nevertheless illuminates the capacity of this tool for transforming urban education Because of the size of the NYC system roughly 1.2 million students and its economic social and ethnic diversity it faces the myriad problems of urban education writ large that impede efforts to

Self-Organization and the City Juval Portugali, 2012-12-06 Cities first came into existence more than five thousand years ago How to deal with these partly fascinating partly frightening creatures of mankind both practically and intellectually concerns all of us and in particular presents a real challenge to city planners Each historical epoch has had its own particular attitudes associated with the Zeitgeist Accordingly the planning and steering of cities were based on quite different criteria But in spite of these differences the concept of planning and steering was and still is the cornerstone of our dealing with cities Nevertheless the planner's dilemma is becoming more and more visible cities and megacities seem to be unplannable In this book Juval Portugali introduces a new idea Cities are self-organizing systems To substantiate his revolutionary concept he uses several interlinked methods On the one hand and to my own delight he employs in his arguments theoretical tools developed in the interdisciplinary field of synergetics On the other hand jointly with his co-workers he has performed detailed model calculations on cellular nets It has been a great pleasure and a wonderful experience for me to discuss these concepts with Juval Portugali over a number of years I was repeatedly and deeply impressed by the way he established profound and often surprising links to other fields of science

Marxism and the City Ira Katznelson, 1992-03-05 Defeated in the East and discredited in the West Marxism has broken down as an ideology and as a guide to governance But for all its flaws it remains an important tool for understanding and raising questions about key aspects of modern life In *Marxism and the City* Ira Katznelson critically assesses the scholarship on cities that has developed within Marxism in the past quarter century to show how some of the most important weaknesses in Marxism as a social theory can be remedied by forcing it to engage seriously with cities and spatial concerns He argues that such a Marxism still has a significant contribution to make to the discussion of such historical questions as the transition from feudalism to a world composed of capitalist economies and nation states and the acquiescence of the western working classes to capitalism Professor Katznelson demonstrates how a Marxism that embraces complexity and is open to engagement with other social theoretical traditions can illuminate our understanding of cities and of the patterns of class and group formation that have characterized urban life in the West

Cincinnati, Queen City of the West, 1819-1838 Daniel Aaron, 1992 Daniel Aaron one of today's foremost scholars of American history and American studies began his career in 1942 with this classic study of Cincinnati in frontier days Aaron argues that the Queen City quickly became an important urban center that in many ways resembled eastern cities more than its own hinterlands with a populace united by its desire for economic growth Aaron traces Cincinnati's development as a mercantile and industrial center during a period of intense national political and social ferment The city owed much of its success as an urban center to its strategic location on the Ohio River and easy access to fertile backcountry Despite an early over-reliance on commerce and land speculation and neglect of manufacturing by 1838 Cincinnati's basic industries had been established and the city had outstripped her Ohio River rivals Aaron's account of Cincinnati during this tumultuous period details the ways in which Cincinnatians made the most of

commerce and manufacturing how they met their civic responsibilities and how they survived floods fires and cholera He goes on to discuss the social and cultural history of the city during this period including the development of social hierarchies the operations of the press the rage for founding societies of all kinds the response of citizens to national and international events the commercial elite s management of radicals and nonconformists the nature of popular entertainment and serious culture the efforts of education and the messages of religious institutions For historians particularly those interested in urban and social history Daniel Aaron s view of Cincinnati offers a rare opportunity to view antebellum American society in a microcosm along with all of the institutions and attitudes that were prevalent in urban America during this important time
