Hate Speech Sex Speech Free Speech Hate Speech Sex Speech Free Speech:

Hate Speech, Sex Speech, Free Speech Nicholas Wolfson, 1997-06-18 A powerful indictment of contemporary attacks on free speech this book argues for a vigorous First Amendment jurisprudence protecting even offensive types of speech In recent years political activists academics and legal specialists have attacked traditional notions of free speech protection as they concern hate speech obscenity and pornography In a keenly argued analysis Wolfson finds that in the end the preservation of free and vigorous speech requires a strong First Amendment protection for even the most hateful of speech

Hate Speech and Democratic Citizenship Eric Heinze, 2016-02-05 Most modern democracies punish hate speech Less freedom for some they claim guarantees greater freedom for others Heinze rejects that approach arguing that democracies have better ways of combatting violence and discrimination against vulnerable groups without having to censor speakers Critiquing dominant free speech theories Heinze explains that free expression must be safeguarded not just as an individual right but as an essential attribute of democratic citizenship The book challenges contemporary state regulation of public discourse by promoting a stronger theory of what democracy is and what it demands Examining US European and international approaches Heinze offers a new vision of free speech within Western democracies *When the Nazis Came to Skokie* Philippa Strum, 1999 Strum political science City U of New York Brooklyn describes the events when a neo Nazi group announced it would parade in the Chicago suburb in 1977 and the ensuing court case that tested the devotion of many to the principles of free speech Annotation copyrighted by Book News Inc Portland OR **Speaking of Race, Speaking of Sex** Henry Louis Gates Jr., 1995 A provocative anthology on questions of hate speech and speech regulation designed to protect minorities At the University of Pennsylvania a student is reprimanded for calling a group of African American students water buffalo Several prominent American law schools now request that professors abstain from discussing the legal aspects of rape for fear of offending students As debates over multiculturalism and political correctness crisscross the land no single issue has been more of a flash point in the ongoing culture wars than hate speech codes which seek to restrict bigoted or offensive speech and punish those who engage in it In this provocative anthology a range of prominent voices argue that hate speech restrictions are not only dangerous but counterproductive The lessons of history indicate that speech regulation designed to protect minorities is destined to be used against them Acknowledging the legitimacy of the concerns that prompt speech codes and combining support for civil liberties with an acute concern for civil rights issues *Speaking of Race Speaking of Sex* demonstrates that it is difficult if not impossible to draw the line between unprotected insults and protected ideas Decrying such speech regulation as overly concerned with the symbols of racism rather than its realities *Speaking of Race Speaking of Sex* offers a balanced and well reasoned perspective on one of the most controversial issues of our time *Sex Matters* Holly Lawford-Smith, 2023-06-22 *Sex Matters* addresses a cluster of related questions that arise from the conflict of interests between rights based on sex and rights based on gender identity Some of these questions are theoretical including

who has the more ambitious vision for women's liberation: gender critical feminists or proponents of gender identity? How does each understand what gender is? What are the arguments for the refrain that trans women are women and do they succeed? Other questions taken up in the book are more applied to specific issues in law and policy including: should there be a right to exclude people who are biologically male from women-only spaces? How do the interests of all stakeholders to bathrooms in particular trade off when it comes to moving from sex to gender identity as the basis for self-inclusion? If we think about types of transition or gatekeeping requirements on transition as providing assurance to women who are asked to accept the opening up of women-only spaces to transwomen, are any such assurances sufficient? Is TERF a slur as some radical and gender critical feminists have claimed? And finally, is gender critical speech hate speech as it has been classified by some social media platforms or at least harmful speech? Holly Lawford Smith discusses these issues in a series of essays, all but one of them previously unpublished. She takes an analytic philosophical approach to these issues, drawing on ideas from political philosophy, philosophy of biology, and philosophy of language, as well as second-wave feminist theory and empirical literature to defend a gender critical position in response to all of these questions.

Atlantic Passages Andreas Etges, Ursula Lehmkuhl, 2006. This volume commemorates the life and oeuvre of Willi Paul Adams. He belonged to a generation of German historians of the United States who shaped the profession in multifaceted ways. Kathleen Conzen, University of Chicago, writes in her commemorative essay: Willi Paul Adams produced an impressive and varied body of scholarship in his chosen field of American history. He made a lasting contribution to our understanding of the basic principles and processes under which Americans established their first democratic constitutions, stimulated significant inquiry into the political consequences of immigration for the United States, produced three major interpretive surveys of American history for non-American audiences, and gave German readers access through scholarly translations to major documents in the American political tradition.

The Encyclopedia of Civil Liberties in America David Schultz, John R. Vile, 2015-04-10. Shrage,Robert Scott Stewart,2015-01-20 Ancient Greek philosophers medieval theologians Enlightenment thinkers and contemporary humanists alike have debated all aspects of human sexuality including its purpose permissibility normalcy and risks *Philosophizing About Sex* provides a philosophical guide to those longstanding and important debates Each chapter takes a general issue freedom privacy objectification etc and shows how ongoing public discussions of sexuality can be illuminated by careful philosophical investigation Debates over topics such as sexual assault sexual orientation sex education prostitution and sexting involve larger questions about morality law science and politics and cannot be intelligently discussed in isolation from broader issues By asking deceptively simple questions this book shows how difficult but important it is to arrive at satisfying answers Hate Speech and the European Court of Human Rights Natalie Alkiviadou,2025-06-30 This

book argues that the European Court of Human Rights ECtHR should reconsider its approach to hate speech cases and develop a robust protection of freedom of expression as set out in the benchmark case of *Handyside v the United Kingdom* In that case the ECtHR determined that Article 10 of the European Convention on Human Rights ECHR safeguarding the right to freedom of expression extends protection not only to opinions which are well received but also to those deemed offensive shocking or disturbing However subsequent rulings by the Court have generated a significant amount of contradictory case law Against this backdrop this book provides an analysis of hate speech case law before the ECtHR and the now obsolete European Commission on Human Rights Through a jurisprudential analysis it is argued that these institutions have adopted an overly restrictive approach to hate speech which fails to provide adequate protection of the right to freedom of expression It also demonstrates that there are stark inconsistencies when it comes to the treatment of some forms of hate speech versus others The study further contends that in reaching its decisions on hate speech cases the Court disregards empirical

evidence on matters related to free speech restrictions Viewing the ECHR as a living instrument the book places this analysis within the current state of affairs vis vis the handling of hate speech particularly online by European countries the European Union itself and social media platforms actions which the author argues are contributing to a free speech demise The book will be a valuable resource for academics researchers and policymakers working in the area of law political science European studies and sociology

Professionalism in journalism in the era of new media Jacek Sobczak, Jędrzej Skrzypczak, 2015-12-31 The term professionalization arouses controversies in academic discussion let alone the issue of professionalization of journalism Journalism considerably departs from the ideal model of professionalization There is no structured knowledge that directly applies to journalists although we can talk about defined skills and the practical principles of the journalist s profession Considering the process of the professionalization of journalism we can indicate three significant determinants namely professional autonomy separate professional standards self regulation principles and serving

the public interest However it is particularly important to ask about the condition of the journalist s profession nowadays The ongoing technological revolution on the one hand and the political and legal transformations accompanied by market trends such as the tabloidization of the media so called infotainment first and foremost and citizen journalism on the other have all generated great doubts about the status of journalists This calls for a redefinition of the professional position and role of journalists in modern societies All these transformations may pose a serious threat to the model of traditional journalism and the social and professional position of journalists The book introduced here consists of four parts presenting various aspects of professionalization of journalism The first part treats of diverse topics concerning the essence of this issue as well as the legal status of journalist s profession The second part features texts devoted to the issues of digital media Part three deals with the disturbing phenomenon of hate speech The main theme of the last part of the book concerns the issue of lobbying in the process of establishing intellectual property rights The texts presented here have been written by scholars in the fields of law media studies and political science on the one hand and practitioners journalists from several countries of Europe on the other The editors hope that the publication will contribute to the ongoing discussion concerning both the journalists and journalism status in the era of dynamic technological transformation
