The Absence of Evidence and Its Consequences in Travesties of Justice Raphael Israeli,2019-01-29 This book is built on the assumption that very often what seems to be evidence turns out to be fake news while libels and stereotypes that have no foundation in reality are accepted as evidence thus potentially causing travesties of justice Examples are drawn here from several prominent and renowned case studies including OJ Simpson s trial and the fiasco of American intervention in Iraq to search for the traces of weapons of mass destruction which were not found The book also explores the history of anti Semitism which is replete with false accusations where evidence was lacking and Jews were nevertheless convicted It also shows how the Arab Israeli conflict also demonstrates how unfounded accusations can be sustained by lies proving that beliefs and prejudices are sometime stronger than hard facts

Marketing Peace Paromita Goswami, 2017-08-21 Religious terrorism accounted for 66% of all deaths from terror attacks in 2013 Using religion as a trump card for justification of violence has increased sharply since 2000 significantly overtaking political and nationalist separatist movements There has however been no serious attempt to understand how peace can be offered as an alternative product to violence if it was handled by commercial marketers If a presidential candidate sportsperson detergents or banking services can be marketed can peace be marketed too This book argues that social marketing which uses commercial marketing principles for social good may make a significant contribution to encouraging peace The book unearths the subconscious metaphorical frames utilised by Christians in their conceptualisations of Muslims in the US and vice versa through a two fold approach Firstly ethnographic field work is used to gain the trust of the community and to understand the lived in experience of community members in their natural social setting Secondly the Zaltman Metaphor Elicitation Technique ZMET is adopted as a tool to discern the metaphorical lens that Christians and Muslims use to view each other The study suggests how this metaphorical lens of framing may help in designing more effective interventions that would fundamentally alter the mechanism of contact

between rival majority and minority religious groups in conflict

Perverse Feelings Suzanne Ashworth, 2022-09-23

Perverse Feelings Poe and American Masculinity examines white masculinity in Poe's fiction and the culture it represents. Poe's men are tormented by chronic illness, deviant attachments, and ugly emotions. As it analyzes these afflictions, this book illuminates the pathologies of American masculinity that emerged in a terrible history of imperialism, capitalism, racism, misogyny, and homophobia. One of its central contentions is that we can better understand a past and present American masculinity through a reckoning with its perverse feelings. More pointedly, this book asks: What does masculinity feel? What does white American masculinity feel in the first decades of nation formation? What does it feel in the crucible of its revolution, its slave system, its democracy, its nascent capitalism, and its pursuit of happiness? What feelings besiege and beleaguer Poe's men? And what can they teach us about the antagonisms of contemporary white American masculinity?

Emotions in

Conflict Eran Halperin, 2015-12-07 Social and political psychologists have attempted to reveal the reasons why individuals and societies that acknowledge that peace would improve their personal and collective well-being and are aware of the required actions needed to promote it are simply incapable of making this step forward. Some social psychologists have advocated the idea that certain societal beliefs and collective memories about the nature of the opponent, the in-group, the history, and the current state of the conflict distort the perceptions of society members and prevent them from identifying opportunities for peace. But these cognitive barriers capture only part of the picture. Could identifying the role of discrete emotions in conflicts and conflict resolution potentially provide a wide platform for developing pinpoint conflict resolution interventions? Using a vast array of primary sources, critical literature analysis, and firsthand personal experiences in various conflict zones (Middle East, Cyprus, Bosnia, and Northern Ireland), Eran Halperin introduces a new perspective on psychological barriers to peace. Halperin focuses on various emotional mechanisms that hamper peace processes even when parties face real opportunities for conflict resolution. More specifically, he explores how hatred, anger, fear, angst, hope, despair, empathy, guilt, and shame combined with various emotion regulation strategies provide emotion-based explanations for people's attitudinal and behavioral reactions to peace-related events during the ongoing process of conflict resolution. Written in a clear and accessible style, *Emotions in Conflict* offers a thought-provoking and pioneering insight into the role discrete intergroup emotions play in impeding as well as facilitating peace processes in intractable conflicts. This book is essential reading for those who study intractable conflicts and their resolutions and those who are interested in the real-world implication of recent theories and findings on emotion and emotion regulation.
