**Gothic Travel through Haunted Landscapes** Lucie Armitt, Scott Brewster, 2022-12-06. This book argues that the process and experience of travel in Gothic literature provides a unique and transformative perspective on the relationship between fear and recurring cultural preoccupations from the late eighteenth century to the present, ranging from concerns about climate change or the presence of the unseen to the negotiation of cultural difference and the apprehension produced by various modes of modern transport and unknown, unknowable terrain. The book follows travellers who take many fictional forms: tourists, commuters, walkers, explorers, as well as the armchair tourist or reader, as they encounter fascinating, strange, and often disconcerting weathers, climates, landscapes, and topographies. Gothic travel epitomises the wonder, excitement, suspicion, or incomprehension that arises from journeys through familiar and unfamiliar terrain. While exposure to the wild, elemental, or primitive could produce the elevation of the sublime, in early Gothic increasingly the experience of travel raised unsettling questions about people, places, and environments that lay beyond established frames of knowledge. Gothic travellers are haunted, never alone, and the experience of journeying through these landscapes provokes fears that may shadow them even after they have returned to home ground. *Climates of Fear* reveals the persistent ways in which Gothic narratives of travel confront fears about the environment, surveillance, immigration, and the foreign. These abiding concerns speak loudly to the present time, however, when the encroachments on our immediate surroundings from climate change, digital communication, and geopolitical dislocation seem at once remote and intimate, invisible yet urgent. Thus the book also asks whether recent portrayals of Gothic journeys now pose different questions to the reader.

A bible for UFO watchers. *The Wall Street Journal*. This fascinating new volume tells the story of contact between aliens and humans from all across the globe, dating back to 1932, including meetings with military personnel and American presidents such as Eisenhower and Kennedy. For the first time, a former member of MI6 reveals her conversation with Neil Armstrong at a NASA conference when she confirmed that there were other spacecraft on the moon when Apollo 11 landed in 1969. Armstrong also confirmed that the CIA was behind the cover-up. In a further admission in December 2012, Russian Prime Minister Dmitry Medvedev revealed the president of Russia is given a special top secret folder that in its entirety contains information about aliens who have visited our planet. Along with this, the president is given a

report of the Special Service that exercises control over aliens in our country I will not tell you how many of them are among us because it may cause panic

*Haunted Skies* John Hanson, Fsg Fil, Dawn Holloway, 2015-04-08 Volume 11 contains over 750 pages with a foreword written by retired USAF Colonel Charles Halt then the Deputy Base Commander of RAF Woodridge during the now famous UFO incident that has attracted worldwide attention which took place in late December 1980 Like its predecessors Volumes 8 9 and 10 it is also in colour but is even larger in pagination making it excellent value for money It continues with further chronological reports of UFO activity over Great Britain USA Australia New Zealand and Tasmania for the period 1989 1990 As with the former Volumes published by the authors this has been painstakingly and meticulously prepared from over 20 years research It is priced at 25 which is good value taking into consideration the earlier books Volumes 1 6 approximately 320 pages in black and white sold at 14 99 John Hanson and Dawn Holloway with Brenda Butler have accumulated a vast amount of information over the years including material from the late Essex UFO researcher Ron West which identifies the presence of what has become labelled as appearances of the Triangular UFO sighted over Belgium and Europe towards the end of the 1980s and on occasion chased by Air Force Jets They will show that previously unpublished accounts of a wave of similar sightings around the Essex area are now being brought to the attention of the public who would not have been aware of how prolific sightings were during that period Disappointingly recent attempts to attract the

attention of the Essex newspapers and media have been unsuccessful The authors contend that nothing should be left out as these books form part of our social history It is their wish at great personal expense to themselves that these unique books will endure and provide future historians of the UFO subject an opportunity to see exactly what took place rather than fading from history It also includes an examination of UFO reports covering the period of 1963-1964 including some sightings from the archives of Project Blue Book for the first time In addition the Volume outlines the valuable commitment made by the researchers themselves and their efforts to preserve what forms part of our important social history rather than relying on other dubious sources of information Unfortunately despite their greatest efforts the authors have been unable to secure any reviews of their work by any of the National newspapers although having sent many books to them The authors point out that very few of the UFO sighting reports published in the Haunted Skies books will be found in any declassified MOD files
