Mythologizing the Vietnam War Jennifer Good,Brigitte Lardinois,Paul Lowe,2014-10-16 The Vietnam War is evolving from contemporary memory into history Fifty years on it still serves as a benchmark in the history of war reporting and in the representation of conflict in popular culture and historical memory However as contemporary culture tries to come to terms with the events and their political psychological and cultural implications the real Vietnam War has been appropriated and changed into a set of mythologies which implicate American and Vietnamese national identities specifically and ideas of modern conflict more broadly particularly in shaping the mediation of the twenty first century War on Terror This collection of interdisciplinary critical essays explores the cultural legacies of the US involvement in South East Asia considering this process of mythologising through the lenses of visual media and tracing the war s evolution from contemporary reportage to subsequent interpretation and consumption It reassesses the role of visual media in covering and remembering the war its memorialisation mediation and memory The origin of this collection of essays was an international conference titled Considering Vietnam held at the Imperial War Museum London in February 2012 co organised by the museum and the University of the Arts London Photography and the Archive Research Centre PARC

Resisting Injustice and the Feminist Ethics of Care in the Age of Obama David A.J. Richards,2014-02-05 David A J Richards s Resisting Injustice and The Feminist Ethics of Care in The Age of Obama Suddenly All The Truth Was Coming Out builds on his and Carol Gilligan s The Deepening Darkness to examine the

roots of the resistance movements of the 1960s the political psychology behind contemporary conservatism and President Obama's present day appeal as well as the reasons for the reactionary politics against him Richards begins by laying out the basics of the ethics of care and proposing an alternative basis for ethics relationality which is based in convergent findings in infant research neuroscience and evolutionary psychology He critically analyzes patriarchal politics and states that they are rooted in a reactionary psychology that attacks human relationality and ethics From there the book examines the 1960s resistance movements and argues that they were fundamentally oriented around challenging patriarchy Richards asserts that the reactionary politics in America from the 1960s to the present are in service of an American patriarchy threatened by the resistance movements ranging from the 1960s civil rights movements to the present gay rights movement Reactionary politics intend to marginalize and even reverse the ethical achievements accomplished by resistance movements creating in effect a system of patriarchy hiding in democracy Richards consequently argues that Obama's appeal is connected to his challenge to this system of patriarchy and will examine both Obama's appeal and the reactions against him in light of the 2012 presidential election This book positions recent American political development in a broad analysis of the role of patriarchy in human oppression throughout history and argues that a feminist based ethics of care is necessary to form a more humane and inclusive democratic politics

All in the Family Robert O. Self, 2012-09-18 A brilliant history of American beliefs about the family and how those ideas have affected our politics since the 1960s Washington Monthly In the 1960s Lyndon Johnson's Great Society and War on Poverty promised an array of federal programs to assist working class families In the 1980s Ronald Reagan declared the GOP the party of family values and promised to keep government out of Americans lives Again and again historians have sought to explain the nation's profound political realignment from the 1960s to the 2000s five decades that witnessed the fracturing of liberalism and the rise of the conservative right The award winning historian Robert O Self is the first to argue that the separate threads of that realignment from civil rights to women's rights from the antiwar movement to Nixon's silent majority from the abortion wars to gay marriage from the welfare state to neoliberal economic policies all ran through the politicized American family Based on an astonishing range of sources All in the Family rethinks an entire era from the Great Society's default assumption of a white heterosexual man at the head of each household to the quests for equal rights and opportunities for a broader range of citizens and a more inclusive idea of the American family He discusses the Roe v Wade decision and antidiscrimination protections in the workplace and the furious conservative backlash that began in the 1970s as figures such as George Wallace Phyllis Schlafly Anita Bryant and Jerry Falwell built a political movement based on the perceived moral threat to the traditional family Self writes that family values conservatives in fact paved the way for fiscal conservatives and that Reagan's presidency united the two constituencies which remained for decades the base of the Republican Party This is a powerful well researched account of how the efforts of marginalized groups to assert their rights as citizens ran up against the resistance of entrenched privilege

setting the stage for the polarization that grips US politics today Self reminds us that our democracy is an imperfect thing only as noble as the people who constitute it The Boston Globe **Culture Wars** Roger Chapman,2015-03-17 The term culture wars refers to the political and sociological polarisation that has characterised American society the past several decades This new edition provides an enlightening and comprehensive A to Z ready reference now with supporting primary documents on major topics of contemporary importance for students teachers and the general reader It aims to promote understanding and clarification on pertinent topics that too often are not adequately explained or discussed in a balanced context With approximately 640 entries plus more than 120 primary documents supporting both sides of key issues this is a unique and defining work indispensable to informed discussions of the most timely and critical issues facing America today

A Great Disorder Richard Slotkin,2024-03-05 The culture wars are pitting us against each other with a vitriol that is fueling outright violence Slotkin looks to the foundational myths that have shaped American identity the Frontier the Founding the Civil War Emancipation and the Lost Cause and the Good War and reveals why they are bringing the US to the brink of an existential crisis Right Way to Lose a War Dominic Tierney,2025-05-01 Why has America stopped winning wars For nearly a century up until the end of World War II in 1945 America enjoyed a Golden Age of decisive military triumphs And then suddenly we stopped winning wars The decades since have been a Dark Age of failures and stalemates in Korea Vietnam Iraq and Afghanistan exposing our inability to change course after battlefield setbacks In this provocative book award winning scholar Dominic Tierney reveals how the United States has struggled to adapt to the new era of intractable guerrilla conflicts As a result most major American wars have turned into military fiascos And when battlefield disaster strikes Washington is unable to disengage from the quagmire with grave consequences for thousands of U S troops and our allies But there is a better way Drawing on interviews with dozens of top generals and policymakers Tierney shows how we can use three key steps surge talk and leave to stem the tide of losses and withdraw from unsuccessful campaigns without compromising our core values and interests Weaving together compelling stories of military catastrophe and heroism this is an unprecedented timely and essential guidebook for our new era of unwinnable conflicts The Right Way to Lose a War illuminates not only how Washington can handle the toughest crisis of all battlefield failure but also how America can once again return to the path of victory *Our Separate Ways* Dana H Allin,Steven N Simon,2016-06-07 Anger and distrust have strained the U S Israeli alliance as the Obama administration and Netanyahu government have clashed over Israeli settlements convulsions in the Arab world and negotiating with Iran Our Separate Ways is an urgent examination of why the alliance has deteriorated and the dangers of its neglect Powerful demographic cultural and strategic currents in Israel and the United States are driving the two countries apart In America the once solid pro Israel consensus is being corroded by partisan rancor which also pits conservative Jews against the more liberal Jewish majority In Israel surveys of young Jewish citizens reveal a disdain for democracy and in some cases a readiness to curb the civil liberties of non Jews Prospects for

preserving a liberal Zionism against the pressures for Greater Israel are dimming as hopes for a two state solution fade The acrimony between President Barack Obama and Prime Minister Benjamin Netanyahu has been a symptom not cause of the deeper crisis If the alliance becomes just a transactional arrangement then the moral emotional and largely intangible bonds that have long tied the two countries together will continue to weaken Going separate ways at a time of Middle East chaos and despite profound historical commitment would be an immense tragedy The partnership must restore the shared vision that created it

Netherlands Annual Review of Military Studies 2015 Jörg Noll, Daan van den Wollenberg, Frans Osinga, Georg Frerks, Irene van Kemenade, 2015-07-27 This book seeks to bridge the gap between academic political and military thinking concerning the success and failure of peacekeeping operations and their termination Exit strategies have recently gained attention in political military academic and public debates due to the Western engagement in international and intrastate conflicts since the end of the Cold War Yet many of those debates took place separately This volume which is predominantly a joint product of academics and the military of the Faculty of Military Sciences of the Netherlands Defence Academy shows new venues by bridging the putative political military divide Drawing on theory empirics and personal experiences the authors address exits at political strategic operational and tactical levels of current and past military missions and interventions ranging from decolonisation wars to Afghanistan and Iraq Although some of those conflicts are still ongoing valid inferences can be drawn An important one is that exit forms a problem for those who leave and for those who stay While political and military objectives might not have been reached and many of those involved have the feeling that the job is still not yet done the termination of the entire mission or transitions at operational level necessitate both departures and handovers takeovers and are thereby characterised by discontinuities and continuities at the same time It is these dynamics between unfulfilled end states and end dates that in the end lead to the dilemma of leaving All the editors except van den Wollenberg are affiliated with the Faculty of Military Sciences of the Netherlands Defence Academy in Breda the Netherlands Jörg Noll is Associate Professor of International Conflict Studies First Lieutenant Air Commodore Frans Osinga is Professor of Military Operational Art and Sciences Georg Frerks is Professor International Security Studies and Irene van Kemenade runs the Research Office of the Faculty Daan van den Wollenberg is Commander of a mechanized artillery platoon of the Netherlands armed forces

When Movements Anchor Parties Daniel Schlozman, 2015-09-01 Throughout American history some social movements such as organized labor and the Christian Right have forged influential alliances with political parties while others such as the antiwar movement have not When Movements Anchor Parties provides a bold new interpretation of American electoral history by examining five prominent movements and their relationships with political parties Taking readers from the Civil War to today Daniel Schlozman shows how two powerful alliances those of organized labor and Democrats in the New Deal and the Christian Right and Republicans since the 1970s have defined the basic priorities of parties and shaped the available alternatives in national politics He traces how they diverged sharply from three other major social movements that failed to establish a place inside political parties the abolitionists following the Civil War the Populists in the 1890s and the antiwar movement in the 1960s and 1970s Moving beyond a view of political parties simply as collections of groups vying for preeminence Schlozman explores how would be influencers gain influence or do not He reveals how movements join with parties only when the alliance is beneficial to parties and how alliance exacts a high price from movements Their sweeping visions give way to compromise and partial victories Yet as Schlozman demonstrates it is well worth paying the price as movements reorient parties priorities Timely and compelling When Movements Anchor Parties demonstrates how alliances have transformed American political parties
