In Search of the I Ramón Lugo, 2016-07-25 This unbelievable yet true story reminds one of biblical struggles it echoes the story of Jacob wrestling with the Angel of God Throughout a long dark night in the middle of the Atlantic a lone man in a kayak braves ruthless tropical storm Franklin Nothing is there to help him no media no helicopters no rescue teams and yet his life is spared The book describes much more than this capturing imagination and awe inspiring ordeal In 2005 the author Ramon Lugo set off to kayak alone across the Atlantic Ocean from the Chesapeake Bay to Spain He considered this crossing a means of finding his inner self He sought to experience times when pure courage is needed to let spirit take over The narrative conveys the raw sense of a seemingly impossible attempt to cross the ocean in a kayak in hurricane season As we join Ramon David Lugo on his breathtaking odyssey we get a taste of his unimaginable courage which is a sister to faith

Man Across the Sea Carroll L. Riley,J. Charles Kelley,Campbell W. Pennington,Robert L. Rands,2014-10-14 Whether humans crossed the seas between the Old World and the New in the times before Columbus is a tantalizing question that has long excited scholarly interest and tempted imaginations the world over From the myths of Atlantis and Mu to the more credible perhaps but hardly less romantic tales of Viking ships and Buddhist missionaries people have speculated upon what is after all not simply a question of contact but of the nature and growth of civilization itself To the specialist it is an important question indeed If people in the Western Hemisphere and in the Eastern Hemisphere developed their cultures more or less independently from the end of the last Ice Age until the voyages of Columbus the remarkable similarities between New World and Old World cultures reveal something important about the evolution of culture If on the other hand there were widespread or sustained contacts between the hemispheres in pre Columbian times these contacts represent events of vast significance to the prehistory and history of humanity Originally delivered at a symposium held in May 1968 during the national meeting of the Society for American Archaeology the papers presented here by scholars eminent in the field offer differing points of view and considerable evidence on the pros and cons of pre Columbian contact between the Old World and the New Various kinds of data archaeological botanical geographical and historical are brought to bear on the problem with provocative and original results Introductory and concluding remarks by the editors pull together and evaluate the evidence and suggest ground rules for future studies of this sort *Man across the Sea* provides no final answers as to whether people from Asia Africa or Europe visited the American Indian before Columbus It does however present new evidence suggested lines of approach and a fresh attempt to delineate the problems involved and to establish acceptable canons of evidence for the future
