## **Local Action Global Change Handbook Ebook:**

Local Action/Global Change Julie A. Mertus, Nancy Flowers, 2015-12-03 This handbook on women's human rights is an integrated set of fourteen teaching and learning units. Together they are designed to identify key issues in women's human rights, define concepts, outline different methodologies for achieving women's human rights, and offer a wide range of activities to facilitate teaching, learning, and discussion of women's human rights challenges. Included in every chapter are a statement of key objectives, background information, discussion questions, special issue boxes, strategies, and examples for taking action and learning activities. Also included are key UN documents and international law bearing on women's human rights. Handouts, checklists, assessment forms, and activist organizations round out the range of reference materials provided. User-friendly, jargon-free, authoritative, and packed with hands-on information, the handbook is an essential resource for anyone working in the field: human rights professionals, scholars, students, and activists. **Local Action/Global Change**

Julie A. Mertus, 2008 *Handbook of Global Environmental Politics* Peter Dauvergne, 2012-01-01 The second edition of this Handbook contains more than 30 new and original articles, as well as six essential updates by leading scholars of global environmental politics. This landmark book maps the latest theoretical and empirical research in this energetic and growing field. Captured here are the pioneering and lively debates over concerns for the health of the planet and how they might best be addressed. The introduction explores the intellectual trends and evolving parameters in the field of global environmental politics. It makes a case for an expansive definition of the field, one that embraces an interdisciplinary literature on the connections between global politics and environmental change. The remaining chapters are divided into four broad themes: states and cooperation, global governance, the political economy of governance, and knowledge and ethics, with each section covering key emerging issues. In-depth explorations are given to topics such as climate change, multinational corporations, international agreements, and UN organizations, regulations, and business standards, trade, and international finance, multilevel and transnational governance, and ecological citizenship. *Handbook of Global Environmental Politics, Second Edition* is a comprehensive review of the field and offers cutting-edge ideas for further research. As such, scholars, students, and policymakers will find themselves looking to it for many years to come. **Handbook of Clean Energy Systems, 6 Volume Set**

**Handbook on Sustainable Urban Tourism** Cristina Maxim,Alastair M. Morrison,Jonathon Day,J. A. Coca-Stefaniak,2024-01-18 In this multidisciplinary and multi jurisdictional account of sustainability in urban tourist destinations the Handbook on Sustainable Urban Tourism draws together the latest academic research and provides key practical insights on this developing area of study It not only considers the importance of cities as ideal tourist destinations due to their complex characteristics and the variety of attractions they offer but also the challenges they are confronted with most notably sustainability

The GEO Handbook on Biodiversity Observation Networks Michele Walters,Robert J. Scholes,2016-11-25 Biodiversity observation systems are almost everywhere inadequate to meet local national and international treaty obligations As a result of alarmingly rapid declines in biodiversity in the modern era there is a strong worldwide desire to upgrade our monitoring systems but little clarity on what is actually needed and how it can be assembled from the elements which are already present This book intends to provide practical guidance to broadly defined biodiversity observation networks at all scales but predominantly the

national scale and higher This is a practical how to book with substantial policy relevance It will mostly be used by technical specialists with a responsibility for biodiversity monitoring to establish and refine their systems It is written at a technical level but one that is not discipline bound it should be intelligible to anyone in the broad field with a tertiary education

**World Cities Report 2024** UN-HABITAT,2024-11-05 The World Cities Report 2024 will advance a people centred approach to climate action that promotes effective and inclusive climate action as a framework for building climate resilience in urban areas The WCR 2024 advocates that people must be at the centre of any meaningful climate action In this regard climate action should not only contribute to mitigating GHG emissions adapting and reversing the effects as of climate change but should ensure that people have sustainable livelihoods and stable incomes have food security access to clean water and other basic services including affordable healthcare all of which will reduce the vulnerability to climate change The impacts of climate change are quite significant to the extent that adaptation and risk management can be powerful contributors to poverty eradication and sustainable development
