Investigations of the Syntax-Semantics-Pragmatics Interface Robert D. Van Valin, Jr., 2008-11-21 *Investigations of the Syntax Semantics Pragmatics Interface* presents on going research in Role and Reference Grammar in a number of critical areas of linguistic theory verb semantics and argument structure the nature of syntactic categories and syntactic representation prosody and syntax information structure and syntax and the syntax and semantics of complex sentences In each of these areas there are important results which not only advance the development of the theory but also contribute to the broader theoretical discussion In particular there are analyses of grammatical phenomena such as transitivity in Kabardian the verb less numeral quantifier construction in Japanese and an unusual kind of complex sentence in Wari Chapakuran Brazil which not only illustrate the descriptive and explanatory power of the theory but also present interesting challenges to other approaches In addition there are papers looking at the implications and applications of Role and Reference Grammar for neurolinguistic research parsing and automated text analysis Syntactic Iconicity and Linguistic Freezes Marge E. Systems Research I Kyoichi Kijima, Junichi Iijima, Ryo Sato, Hiroshi Deguchi, Bumpei Nakano, 2022-05-04 This book is in honor of Yasuhiko Takahara a first class researcher who has been active for some 50 years at the global level in systems research Researchers and practitioners from Japan and other countries who have been influenced by Takahara have come together from far and wide to contribute their major research masterpieces in the field of systems research in the broadest sense While the roots of Takahara's systems research are in general systems theory and systems control theory he developed his research and teaching in diverse directions such as management information science engineering social simulation and systems thinking As a result many of the researchers and practitioners he supervised or influenced have established their own positions and are now active around the world in a wide range of systems research Volume I is a collection of their masterpieces or representative works in the field of systems theory and modeling Speculative Grammar and Stoic Language Theory in Medieval Allegorical Narrative Jeffrey Bardzell, 2010-07-01 In his *Plaint of Nature De planctu Naturae* Alan of Lille bases much of his argument against sin in general and homosexuality in particular on the claim that both amount to bad grammar The book explores the philosophical uses of grammar that were so formative of Alan's thinking in major writers of the preceding generations including Garland the Computist St Anselm and Peter Abelard Many of the linguistic theories on which these thinkers rely come from Priscian an influential sixth century grammarian who relied more on the ancient tradition of Stoic linguistic theory than the Aristotelian one in elaborating his grammatical theory Against this backdrop the book provides a reading of Prudentius *Psychomachia* and presents an analysis of allegory in light of Stoic

linguistic theory that contrasts other modern theories of allegorical signification and readings of Prudentius The book establishes that Stoic linguistic theory is compatible with and likely partially formative of both the allegorical medium itself and the ideas expressed within it in particular as they appeared in the allegories of Prudentius Boethius and Alan

Prepare the Way of the Lord Kirsten Marie Hartvigsen, 2012-10-30 This study analyzes an oral performance of the entire Gospel of Mark with emphasis on involvement with characters and events the emotional effects of such involvement and how these processes maintain or shape the identity of those who hear the Gospel Insights from cognitive poetics and psychonarratology are employed to illuminate the complex cognitive processes that take place when audience members experience an oral performance of the Gospel Consequently this study expands previous research on the Gospel of Mark which was conducted on the basis of narrative criticism orality criticism and performance criticism by including cognitive aspects Cognitive poetics and psychonarratology have to my knowledge not been extensively employed to illuminate an oral performance of the Gospel of Mark previously This investigation provides

- 1 An original coherent theoretical and methodological framework
- 2 An analysis of mechanisms which promote involvement with characters and events in the Markan narrative
- 3 An examination of the prospective emotional effects of such involvement
- 4 Reflections on the potential of these mechanisms with regard to identity maintenance or formation through cultural memory
- 5 A cognitive poetic commentary on the entire Gospel of Mark

The Perfect and the Preterite in Contemporary and Earlier English Johan Elsness, 2011-07-11 The future of English linguistics as envisaged by the editors of Topics in English Linguistics lies in empirical studies which integrate work in English linguistics into general and theoretical linguistics on the one hand and comparative linguistics on the other The TiEL series features volumes that present interesting new data and analyses and above all fresh approaches that contribute to the overall aim of the series which is to further outstanding research in English linguistics

The SAGE Encyclopedia of Theory in Science, Technology, Engineering, and Mathematics James Mattingly, 2022-09-21 The SAGE Encyclopedia of Theory is a landmark work that examines theory in general and the broad split between the hard and soft sciences a split that is being re examined as approaches to scientific questions become increasingly multidisciplinary

Biblical and Ancient Greek Linguistics, Volume 4 Stanley E. Porter,Matthew Brook O'Donnell,2016-03-24 Biblical and Ancient Greek Linguistics BAGL is an international journal that exists to further the application of modern linguistics to the study of Ancient and Biblical Greek with a particular focus on the analysis of texts including but not restricted to the Greek New Testament The journal is hosted by McMaster Divinity College and works in conjunction with its Centre for Biblical Linguistics Translation and Exegesis and the OpenText org organization www.opentext.org in the sponsoring of conferences and symposia open to scholars and students working in Greek linguistics who are interested in contributing to advancing the discussion and methods of the field of research BAGL is a refereed on line and print journal dedicated to distributing the results of significant research in the area of linguistic theory and application to biblical and ancient Greek and is open to all scholars not just those connected to the Centre and the OpenText org project The Present in Linguistic Expressions of

Temporality Marie-Eve Ritz,2023-11-30 This book offers a comprehensive examination of Present Time Expressions PTEs illustrating how a more informed understanding of their semantic and pragmatic representations can offer unique insights into the temporal systems of languages The volume takes as its point of departure the notion that tenses aspectual viewpoint markers and temporal expressions have a semantic meaning which is further pragmatically enriched and manipulated in use by speakers Building on this foundation the book introduces current theories on the linguistic expression of temporality toward better highlighting the need for further understanding of PTEs encompassing tenses of the present and words such as now The volume draws on data from Australian English and Indigenous Australian languages to support its goal of arriving at a theory of the flexibility of uses of PTEs and their centrality in language and highlight the implications for future research on pragmatic and semantic change This book will be of particular interest to graduate students and researchers in semantics

pragmatics discourse analysis and philosophy of language as well as those interested in research on Indigenous Australian Languages and Australian English **Digital Humanities in Biblical, Early Jewish and Early Christian Studies** Claire

Clivaz, Andrew Gregory, David Hamidović, 2013-11-28 Ancient texts once written by hand on parchment and papyrus are now increasingly discoverable online in newly digitized editions and their readers now work online as well as in traditional libraries So what does this mean for how scholars may now engage with these texts and for how the disciplines of biblical Jewish and Christian studies might develop These are the questions that contributors to this volume address Subjects discussed include textual criticism palaeography philology the nature of ancient monotheism and how new tools and resources such as blogs wikis databases and digital publications may transform the ways in which contemporary scholars engage with historical sources Contributors attest to the emergence of a conscious recognition of something new in the way that we may now study ancient writings and the possibilities that this new awareness raises Revisiting Aspect and

Aktionsart Francis G. H. Pang, 2016-02-02 In *Revisiting Aspect and Aktionsart* Francis G H Pang employs a corpus approach to analyze the relationship between Greek aspect and Aktionsart Recent works have tried to predict the meanings that emerge when a certain set of clausal factors and lexical features combine with one of the grammatical aspects Most of these works rely heavily on Zeno Vendler's telicity distinction Based on empirical evidence Pang argues that telicity and perfectivity are not related in a systematic manner in Koine Greek As a corollary Aktionsart should be considered an interpretive category meaning that its different values emerge not from the interaction of only one or two linguistic parameters but from the process of interpreting language in context **Perspectives on Aspect** Henk J. Verkuyl, Henriette

De Swart, Angeliek Van Hout, 2006-01-17 The aim of this book is two fold to offer a retrospective view on the past thirty years of research on aspectuality and temporality as well as to develop new perspectives on the future development of the field Articles contain overviews of the development of the field and or present the state of the art of current research suggesting new and upcoming lines of research An important theme throughout the book is typological variation and the relevance of empirical data for theory formation Together the articles in the book take a wide crosslinguistic scope including aspectual analyses of English and two varieties of English African American English and Colloquial Singapore English Italian French Bulgarian Czech Mandarin Chinese West Greenlandic Wakashan languages and Nakh Daghestanian languages Audience Scholars and students of aspectuality in semantics and at the syntax semantics interface *Occasional Papers in Translation and Textlinguistics*, 1987 Meaning, Context and Methodology Sarah-Jane Conrad, Klaus Petrus, 2017-10-23 What

methodological impact does Contextualism have on the philosophy of language This collection sets out to provide some answers The authors in this volume question three ultimately connected assumptions of the philosophy of language The first assumption relates to the predominant status of referential semantics and its power to explain truth conditional meaning This assumption has come under attack by the context thesis and a number of papers pursue the question of whether this is

justified The second assumption gives priority to assertive sentences when considering language use The context thesis changes our understanding of language use altogether possible implications from this methodological shift are addressed in this volume According to the third assumption philosophical analysis amounts to nothing more than conceptual analysis The context thesis risks undermining this project Whether conceptual analysis can still be defended as a methodological tool is discussed in this volume
