**LOGISTICS OF DREAMING** Jerry Nelson,2005-07-13 Mother Nature is in the business of writing software programs in DNA Dreaming is our software program and it is also how early Homo sapiens learned logic and the use of tools Author Jerry DC Nelson is neither a scientist a doctor nor a physiologist just an engineer with a bottomless thirst for details on how everything works When some of his dreams became intriguing Nelson began to wonder why we dream What makes us dream and how do we dream During Nelson s search for answers he interviewed friends read books and articles on the dreaming brain and watched television programs pertaining to the functions of the brain In all his research he never found any satisfactory answers to the question of why we have these wonderful unique strange and bizarre dreams Then after recording hundreds of dreams he started to see particular patterns emerging which lead him to formulate several theories When Mother Nature was worked into the equation everything fell into place After having recorded more than 4 000 dreams and conducted many years of research Nelson is confident that he has enough detailed information to back up his theories on why we dream Logistics of Dreaming is his way of sharing some of Mother Nature s brilliancies concerning the dreaming brain

One Vision Billion Dreams Santosha K. Nayak,2020-11-26 This book is all about the economic empowerment of the common man More than 80% of the people are under sheer darkness and away from real development When we talk and see of development it is less than 20 % of the country Historically and systematically large sections of the people were kept under darkness And the trend hasn t seen light for quite some time despite all the efforts from many eminent persons from different walks of life Perhaps they all used only their minds and lacked in their heart while trying to find solutions The author in this book has attempted afresh some steps with a bottom up approach to achieve real development of all especially the left out 80% and achieve comprehensive economic development across every nook and corner of the country This book talks about Unique Natural Endowment Theory Graded Self sufficient Model of Regional Economic Development and analysed the structural needs in each sector of the economy so as to address the persistent on the ground problems At present entrepreneurial knowledge is at a low level among the larger mass and challenges to micro entrepreneurship are high The book also talks about entrepreneurial spirit and processes for the common man This book discovers ways to reach new heights of growth and development in New India This book has dreams for every common man and tries to find ways to materialise the individual dreams of the billion plus people of India That s why this book is One Vision for a Billion Dreams
