Places of the Imagination Dr Stijn Reijnders, 2013-01-28. Recent years have seen an explosive growth in the phenomenon of people visiting locations from popular novels, films or television series. *Places of the Imagination* presents a timely and insightful analysis of this form of media tourism, exploring the question of how best to explain the increasing popularity of media tourism within contemporary culture. Drawing on extensive empirical and interview material, this book examines the representation of landscapes in popular narratives that have inspired media tourism, whilst also investigating the effects over time of such tourism on local landscapes and the processes by which tourists appropriate the landscape, experiencing and accommodating them into their imagination. Oriented around three central case studies of popular television, detective shows, famous films and classic literature, *Places of the Imagination* develops a new theoretical understanding of media tourism. As such, it will appeal to sociologists and cultural geographers as well as those working in the fields of media and cultural studies, popular and fan culture, tourism and the sociology of leisure.

Cinematic Urban Geographies François Penz, Richard Koeck, 2017-07-12. This book proposes new methodological tools and approaches in order to tease out and elicit the different facets of urban fragmentation through the medium of cinema and the moving image as a contribution to our understanding of cities and their topographies. In doing so, it makes a significant contribution to the literature in the growing field of cartographic cinema and urban cinematics by charting the many trajectories and points of contact between film and its topographical context. Under the influence of new technologies, the opening and the availability of previously unexplored archives, but also the contribution of new scholars with novel approaches, in addition to new work by experienced academics, *Cinematic Urban Geographies* demonstrates how we

can reread the cinematic past with a view to construct the urban present and anticipate its future
