**Rome and The Guidebook Tradition** Anna Blennow, Stefano Fogelberg Rota, 2019-04-01 To this day no comprehensive academic study of the development of guidebooks to Rome over time has been performed This book treats the history of guidebooks to Rome from the Middle Ages up to the early twentieth century It is based on the results of the interdisciplinary research project Topos and Topography led by Anna Blennow and Stefano Fogelberg Rota From the case studies performed within the project it becomes evident that the guidebook as a phenomenon was formed in Rome during the later Middle Ages and early Renaissance The elements and rhetorical strategies of guidebooks over time have shown to be surprisingly uniform with three important points of development a turn towards a more user friendly structure from the seventeenth century and onward the so called Baedeker effect in the mid nineteenth century and the introduction of a personalized guiding voice in the first half of the twentieth century Thus the guidebook tradition is an unusually consistent literary oeuvre which also forms a warranty for the authority of every new guidebook In this respect the guidebook tradition is intimately associated with the city of Rome with which it shares a constantly renovating yet eternally fixed nature [Lonely Planet Sarah Johnstone](#), Lonely Planet Publications (Firm), 2007 [Food Festivals and Local Development in Italy](#) Michele Filippo Fontefrancesco, 2020-10-27 What does the proliferation of food festival tell us about rural areas How can these celebrations pave the way to a better future for the local communities This book is addressing these questions contributing to the ongoing debate about the future of rural peripheries in Europe The volume is based on the ethnographic research conducted in Italy a country internationally known for its food tradition and one of the European countries where the gap between rural and urban space is most pronounced It offers an anthropological analysis of food festivals exploring the transformational role they have to change and develop rural communities Although the festivals aim mostly at tourism they contribute in a wider way to the life of the rural communities acting as devices through which a community redefines itself reinforces its sociality reshapes the perception and use of the surrounding environment In so doing thus the books suggests to read the festivals not just as celebrations driven by food fashion but rather fundamental grassroots instruments to contrast the effects of rural marginalization and pave the way to a possible better future for the community [Lonely Planet California](#) Lonely Planet, Andrea Schulte-Peevers, Brett Atkinson, Andrew Bender, Sara Benson, Alison Bing, Cristian Bonetto, Celeste Brash, Nate Cavalieri, Michael Grosberg, 2018-02-01 Lonely Planet The world s leading travel guide publisher Lonely Planet California is your passport to the most relevant up to date advice on what to see and skip and what hidden discoveries await you Sashay out onto San Francisco s Golden Gate Bridge walk beneath ancient redwoods or taste wine in Sonoma Valley all with your trusted travel companion Get to the heart of California and begin your journey now Inside Lonely Planet California Color
