Longman Britain Explored:

Britain explored Paul Harvey, Rhodri Jones, 2002 **The harem, slavery and British imperial culture** Diane Robinson-Dunn, 2017-03-01 This book focuses on British efforts to suppress the traffic in female slaves destined for Egyptian harems during the late nineteenth century. It considers this campaign in relation to gender debates in England and examines the ways in which the assumptions and dominant imperialist discourses of these abolitionists were challenged by the newly established Muslim communities in England as well as by English people who converted to or were sympathetic with Islam. While previous scholars have treated antislavery activity in Egypt first and foremost as an extension of earlier efforts to abolish plantation slavery in the New World, this book considers it in terms of encounters with Islam during a period which it argues marked a new departure in Anglo-Muslim relations. This approach illuminates the role of Islam in the creation of English national identities within the global cultural system of the British Empire. This book would appeal to those with an interest in British imperial history, Islam, gender, feminism, and women's studies, slavery, and race, the formation of national identities, global processes, Orientalism, and Middle Eastern studies. **Books! Books! Books! Explore the Amazing Collection of the British Library** Mick Manning, Brita Granström, 2017-09-05 Award-winning duo Manning and Granström bring to life the extraordinary history of the book through the treasures of one of the greatest libraries in the world, the British Library. **Britain, the Empire, and the World at the Great Exhibition of 1851** Jeffrey A. Auerbach, 2016-04-15 Britain, the Empire, and the World at the Great Exhibition is the first book to situate the Crystal Palace Exhibition of 1851 in a truly global context. Addressing national, imperial, and international themes, this collection of essays considers the significance of the Exhibition both for its British hosts and their relationships to the wider world and for participants from around the globe. How did the Exhibition connect London, England, important British colonies, and significant participating nation-states including Russia, Greece, Germany, and the Ottoman Empire? How might we think about the exhibits, visitors, and organizers in light of what the Exhibition suggested about Britain's place in the global community? Contributors from various academic disciplines answer these and other questions by focusing on the many exhibits, publications, visitors, and organizers in Britain and elsewhere. The essays expand our understanding of the meanings, roles, and legacies of the Great Exhibition for British society and the wider world, as well as the ways that this pivotal event shaped Britain's and other participating nations' conceptions of and locations within the wider nineteenth-century world. *Christians and Pagans in Roman Britain (Routledge Revivals)* Dorothy Watts, 2014-03-18 In *Christians and Pagans in Roman Britain*, first published in 1991, Professor Dorothy Watts sets out to distinguish possible Pagan features in Romano-British Christianity in the period leading up to and immediately following the withdrawal of Roman forces in AD 410. Watts argues that British Christianity at the time contained many Pagan influences, suggesting that the former, although it had been present in the British Isles for some two centuries, was not nearly as firmly established as in other parts of the Empire. Building on recent developments in the archaeology of

Roman Britain and utilising a nuanced method for deciphering the significance of objects with ambiguous religious identities Christians and Pagans in Roman Britain will be of interest to classicists students of the history of the British Isles Church historians and also to those generally interested in the place of Christianity during the twilight of the Western Roman Empire

Longman's Pamphlets on the British Commonwealth, 1941 The London catalogue of books published in Great Britain, 1831 to 1855 [compiled by T. Hodgson], London catalogue, 1855 *Evaluating Empire and Confronting Colonialism in Eighteenth-Century Britain* Jack P. Greene, 2013-03-29 This book analyzes how Britons celebrated and critiqued their empire during the short eighteenth century from about 1730 to 1790 It focuses on the emergence of an early awareness of the undesirable effects of British colonialism on both overseas Britons and subaltern people in the British Empire whether in India the Americas Africa or Ireland

The Reputations of Thomas Moore Sarah McCleave, Triona O'Hanlon, 2019-08-08 This collection of eleven essays positions Moore within a developing and expanding international readership during the course of the nineteenth century In accounting for the successes he achieved and the challenges he faced recurring themes include Moore's influence and reputation modes of dissemination through networks and among communities also the articulation of personal political and national identities This book the product of an international team of scholars is the first to focus explicitly on the reputations of Thomas Moore in different parts of the world including Bombay Dublin Leipzig and London as well as America Canada Greece and the Hispanic world Through it we will understand more about Moore's reception and also appreciate how the publication and dissemination of poetry and song in the romantic and Victorian eras operated in different parts of the world in particular considering how artistic and political networks effected the transmission of cultural products

The London Catalogue of Books Published in Great Britain, 1855 *Exploring British Politics* Mark Garnett, Philip Lynch, 2014-06-03 Concise comprehensive and accessible Exploring British Politics presents an insightful approach to British politics with a special emphasis on developments since the 2010 general election and the formation of Britain's first coalition government since 1945 Designed to stimulate critical analysis and provoke lively debate it provides new perspectives on two key themes the health of British democracy and the transition from traditional models of government to more flexible forms of governance

Agriculture and Industry in South-Eastern Roman Britain David Bird, 2016-12-31 The ancient counties surrounding the Weald in the SE corner of England have a strongly marked character of their own that has survived remarkably well in the face of ever increasing population pressure The area is however comparatively neglected in discussion of Roman Britain where it is often subsumed into a generalised treatment of the civilian part of Britannia that is based largely on other parts of the country This book aims to redress the balance The focus is particularly on Kent Surrey and Sussex account is taken of information from neighboring counties particularly when the difficult subsoils affect the availability of evidence An overview of the environment and a consideration of themes relevant to the South East as a whole accompany 14 papers covering the topics of rural settlement in each county crops querns and
