Searching for Security in a New Europe Gerald J. Protheroe, 2004-03-01 Drawing on an array of archival material this study sheds light on Sir George Russell Clerk an important yet forgotten figure in British and European diplomatic history During the First World War Clerk was a senior

Foreign Office official strongly sympathetic to the cause of the oppressed nationalities of the Austro Hungarian Empire This biographical study focuses on the most significant part of Clerk s career his role as a nation builder in post war Europe until his eventual downfall at the hands of Antony Eden and retirement in 1937 This is an excellent account of the thoughts and deeds of a remarkable man in British History Multifaceted Nationalism and Illiberal Momentum at Europe's Eastern Margins Andrey Makarychev,2021-05-19 This edited volume addresses the set of politically challenging issues that the advent of populist movements raised for individual nation states and the whole Europe Based on critical engagements with the extant scholarship in comparative politics political philosophy international relations regional studies and critical geopolitics this collection of chapters offers the interpretation of the contemporary populism as illiberal nationalism and underscores its deeply political challenge to the post political core of the EU project The contributors discuss the deep transformations within the fabric of contemporary European societies that makes scholars rethink the post Cold War hegemonic understanding of liberal democracy as the dominant paradigm destined to expand from its traditional hotbed in the West to other regions This edited volume intends to stretch analysis beyond the conventional accounts of populism as an anti elite and extra institutional appeal to the general public for the sake of its mobilization against incumbent power holders and look for more nuanced meanings inherent to this term The chapters in this book were originally published in *European Politics and Society* and the *Journal of Contemporary European Studies* *Searching for Justice After the Holocaust* Michael J. Bazyler,Kathryn Lee Boyd,Kristen Nelson (Lawyer),Rajika Shah,2019 The Nazis and their state sponsored cohorts stole mercilessly from the Jews of Europe In the aftermath of the Holocaust returning survivors had to navigate a frequently unclear path to recover their property from governments and neighbors who had failed to protect them and who often had been complicit in their persecution This book is about the less publicized area of post Holocaust restitution involving immovable real property confiscated from European Jews and others during World War II **The Czech And Slovak Republics** Carol Leff,2018-02-15 This clear objective introduction to the politics of Czechoslovakia and the successor Czech and Slovak Republics provides a comprehensive analysis of Czechoslovakia in the postcommunist period Carol Leff builds a framework for understanding the dynamics of the triple transition democratization marketization and a national transformation that has reconfigured the dynamic between state and nation She shows how the interaction of these three transformational agendas has shaped Czechoslovakia s development ultimately culminating in the paradoxical disintegration of a state that most of its citizens wished to preserve The book offers a valuable case study of a country coming back to Europe but it also provides an opportunity for analyzing the influence of communism on what had been a significant interwar European state The book s strong comparative element will make it invaluable as well for those seeking to understand contemporary Central and Eastern Europe
