**Independent Politics** Samara Klar,Yanna Krupnikov,2016-01-19 The number of independent voters in America increases each year yet they remain misunderstood by both media and academics Media describe independents as pivotal for electoral outcomes Political scientists conclude that independents are merely undercover partisans people who secretly hold partisan beliefs and are thus politically inconsequential Both the pundits and the political scientists are wrong argue the authors They show that many Americans are becoming embarrassed of their political party They deny to pollsters party activists friends and even themselves their true partisanship instead choosing to go undercover as independents Independent Politics demonstrates that people intentionally mask their partisan preferences in social situations Most importantly breaking with decades of previous research it argues that independents are highly politically consequential The same motivations that lead people to identify as independent also diminish their willingness to engage in the types of political

**Trump Era** Janet McIntosh, Norma Mendoza-Denton, 2020-09-03 Early in his campaign Donald Trump boasted that I know words I have the best words yet despite these assurances his speech style has sown conflict even as it has powered his meteoric rise If the Trump era feels like a political crisis to many it is also a linguistic one Trump has repeatedly alarmed people around the world while exciting his fan base with his unprecedented rhetorical style shock tweeting and weaponized words Using many detailed examples this fascinating and highly topical book reveals how Trump s rallying cries boasts accusations and mockery enlist many of his supporters into his alternate reality From Trump s relationship to the truth to his use of gesture to the anti immigrant tenor of his language it illuminates the less obvious mechanisms by which language in

the Trump era has widened divisions along lines of class gender race international relations and even the sense of truth itself

The INTRAFaith Conversation: How Do Christians Talk Among Ourselves About INTERfaith Matters? Susan Strouse,2016-03-18 This crisp and cogent book by the Rev Dr Strouse is published at a time when both interfaith and intrafaith dialogue are critical to the vitality of spiritual life in our nation As a parish pastor in a small struggling congregation I have become increasingly aware of the insularity and isolation of many of our parishioners This seems less the result of inadequate parish education as it is the byproduct of too many people getting their information from biased TV networks so called social media or word of mouth We parish pastors need to examine our internal intra congregational conversations about diverse faith traditions and how they bear on congregational mission I was particularly impressed by the author s use of footnotes and her extensive bibliography The book is a walking talking workshop in print with its detailed reflection discussion questions and suggestions for further reading Thank you Pastor Strouse for such a comprehensive presentation of how to approach constructively this timely and important conversation

**US Health: A Failed System:** Liaropoulos, Lykourgos, 2016-10-29 Health has been one of the most frequent issues arising in the Social Policy debate for the last 60 or more years The answers given vary according to political ideology economic expediency and the moral standing of individuals and society The sources of funding are essentially two either the individual directly or a larger group acting on his behalf In the second case we have two main categories The individual is either covered by private for profit insurance or by a public insurance scheme financed by mandatory employment contributions and or by taxes on income and or wealth The economic implications of each form of health insurance are immense for individuals employers the government and for the economy as a whole The main differentiation is the position of health care in the value system of society If health care is considered a right its financing must be similar to that of other public goods or rights such as justice national security personal safety basic education etc At the same time the provision of all public goods is a public responsibility and government is judged by how well it measures up to this responsibility If on the other hand health care is considered a good bought and sold on the market then it is up to individuals to provide for themselves Obviously this fundamental issue belongs to the sphere of politics and is up to society to judge according to its code of ethics The time to decide has come in America somewhat belatedly but in a way more acute than ever The health of individuals but also and mainly the economic health of the nation depends on the decision
