and Buddha in Language of Science Mathura Prasad, 2017-04-18 The Buddha answers all questions that a scientist like Stephen Hawking has in his mind Two beginning less self existent entities are the Universe and the Buddha Field At high energy level both covert in to each other The Buddha Field gives birth to physical and psychic particles souls At high energy level a soul converts in to the Buddha Field Mass is of two kinds Positive mass is due to souls A soul is cause of dark matter Gravitational force is repulsive in nature between two souls attractive between matters Outer region of the Universe is dark because here beings are without material bodies Here TIME does exist BUT without SPACE Psychic matter is the cause of

Expanding Universe God's atom does exist All heavenly bodies including black holes are abodes of beings Stars are born due to gravitational instability in the Orion Nebula caused by God Number of God is uncountable in the Universe Very soon the world will see all religions barring Buddhism Marxism and all other Wrong Views dying of natural death I have dedicated this book to Stephen Hawking one of the brilliant theoretical physicists since Einstein

Summary of Dalai Lama's The Universe in a Single Atom Everest Media,2022-05-04T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The central question of how we can make the wonderful developments of science into something that offers altruistic and compassionate service for the needs of humanity and the other sentient beings with whom we share this earth is how we can make science into something that is governed by compassion 2 The most important point is to ensure that science never becomes divorced from the human feeling of empathy for others Otherwise we risk losing our sense of priorities 3 I was born into a family of simple farmers who used cattle to plow their field and when the barley was harvested used cattle to trample the grain out of the husk I was educated in all aspects of Buddhism and I spent periods in retreat with my tutors

Inner and Outer Meanings of Buddhism Singh M Parashar,2016-11-04 Buddhas concept of no self is correct and superior to the old Hindu concept of a permanent eternal and unchanging self God freedom of will immortality and the law of karma moral retribution are the things in themselves These things in themselves belong to the transcendent realm of noumena These things are not governed by the causal chain of the world of senses The outer meanings of many concepts of Buddhism are different from their inner meanings Mind is a physical thing like mercury and human body is like a glass tube containing mercury Mind is active as well as passive Existence is prior to essence There is no transcendent aesthetic There is only a phenomenal aesthetic The sense of space is created by the inverse square law The light of the absolute goes on decreasing as we move from a mother to the family from the family to the society and from the society to the state According to the inner meanings the twelve links of the dependent origination are actually made of three separate and independent chains Nirvana and many other concepts of Buddhism are unknowable and inconceivable An attempt has been made to make the inconceivable concepts as conceivable

Earthing the Cosmic Christ of Ephesians—The Universe, Trinity, and Zhiyi's Threefold Truth, Volume 4 John P. Keenan,2024-02-26 In a Tiantai theology conventional truth is conventionally arisen which means that such truth is never set once and for all but is to be cherished and rethought in new circumstances whether interreligious or scientific but always in critical consonance with its ancient embodiments Contexts shift frameworks but life in Christ is translatable across cultures Christian faith and theology discourage the assumption that the point of it can be clearly pinned down God's appearance to Elijah out of the whirlwind is an eternal reminder of the paltriness of all human perspectives Symbolic worlds of faith and wisdom are not themselves finished products Because it has a past and a future the cosmos itself is unfinished Christian creeds ought not be defended as last word ideological positions and bastions against relativity but instead recognized in their cultural contexts and affirmed as grammars of

communal and personal assent *The Hidden "God"* Peter Baekelmans, 2022-05-27 Theology means discourse about god Christian theology is a reflection on the Christian faith in which God takes a central place Therefore the Christian theology of other religions seeks to understand if and how God as Christians call their experience of Him may be present in the thought devotion and ritual of those other religions Christian theology of Buddhism is then a Christian reflection on the Buddhist faith in god or gods Now Buddhist teaching contains many seeming contradictions as does Christian teaching Accepting these and looking for clues to understand how they came about and how they might be reconciled is not only an intellectual challenge but also a religious duty The Hidden God feels like a detective story taking the reader along on an exacting investigation of the manifold themes concepts and persons of the different Buddhist faith traditions in order to discern whether they can be related to the Christian understanding of who God is The result which is both complex and simple will enable readers to take steps toward uniting both religions in the mystery that God or the Dharma is Dharma and Abhidharma ,2007 Contributed articles presented at the fourth Biannual International Conference on Dharma and Abhidharma at University of Mumbai held in March 2006 **Manual of Indian Buddhism** Hendrik Kern, 1896 **Manual of Indian buddhism** Hendrik Kern, 2022-09-06 No detailed description available for Manual of Indian buddhism **Manual of Indian Buddhism** Johan Hendrik C. Freeing the Buddha Brian Ruhe, 2005-01-01 This book is not written to reinvent the wheel and offer up just another introduction to Buddhism This has a fresh approach of Buddhism which does not stir up dust in areas that most people have not thought of There are Buddhist teachers who would discuss things privately such as Buddhist views on UFOs Adolf Hitler and the historical Jesus but they would not give public talks or publish books on such controversial subjects The author has the courage to do so as he boldly discusses such topics in this book Zen and Comparative Studies Masao Abe, 1997-01-01 This volume concludes the two volume sequel to Masao Abe s *Zen and Western Thought* Like its companion *Buddhism and Interfaith Dialogue* this work contains many previously published essays and papers by Abe Here he clarifies the true meaning of Buddhist emptiness in comparison with the Aristotelian notion of substance and the Whiteheadian notion of process *The Diamond Sutra* Mu Soeng, 2011-03-17 In this brilliant new translation and commentary on The Diamond Sutra one of the sublime wisdom teachings of Mahayana Buddhism Mu Soeng integrates this ancient wisdom teaching with current scientific and psychological thought His clear and readable commentary traces the connections between these teachings and contemporary theories of quantum reality explores the sutra within the framework of Buddhist meditation practices and provides a comprehensive historical survey of the Mahayana Buddhist tradition Mu Soeng s goal throughout is to reveal the inspiration and wisdom of The Diamond Sutra to today s reader in an accessible engaging and modern manner
