

# PRICE PUMP Installation, Operating, and Maintenance Manual

## Type XJ/JB Series

**Caution:**  
Before installing,  
repairing or performing  
maintenance on this  
pump, read these  
instructions completely.

## Installation Electrical

### **WARNING!**

Ground motor before  
connecting to electrical  
power supply! Failure to  
ground motor can cause  
severe or fatal electrical  
shock hazard!

Do not ground to gas  
supply line!

Disconnect power to  
motor before working on  
motor or pump!

Match voltage to  
nameplate voltage on  
motor. Incorrect voltage  
can cause fire or seriously  
damage motor, voiding  
warranty.

## Close Coupled - Motor Pumps

These pumps require no special  
care in mounting, although it is  
suggested that they be firmly  
bolted to a level surface.  
Adequate air movement over  
motor will help prevent  
overloads.

## Power Frame Mounted Pumps

These pumps must be mounted  
on a rigid steel base that will not  
warp or flex. Each pump must  
be mounted such that the pump  
shaft centerline is on center  
with the driver shaft center-  
line. Pads and/or shims will be  
required on either pump, driver  
or both. The two shafts should  
not touch each other and the  
distance between them depends  
on the coupling used to connect  
them. Misalignment will cause  
bearing failure and void  
warranty. Pumps are rough  
aligned at the factory but  
must be realigned after  
shipment and installation.  
Pulley driven pumps must have  
pulleys in line and good belt  
tightness practices followed.
