Many Mansions Multiple Religious Belonging And Christian Identity Faith Meets Faith:

Many Mansions? Catherine Cornille, 2002 These superb essays explore the phenomenon of individuals who identify themselves as followers of more than one religious tradition The results prove that the late Joseph Kitagawa was prescient when he cautioned that the world is Easternizing as much as it is Westernizing and that modernization is a far from adequate key to name what is happening in world religious history in our age Book jacket *The Spirit Shaped Church* Swarup Bar, 2021-02-23 In *The Spirit Shaped Church* Swarup Bar argues that the church is defined by its relationship with others A relational church depends on the porousness of its borders which means that while a church has its distinctiveness it ought to be open to negotiate relational engagements with the world around it This sort of relationally distinct permeable church is found to be possible through the leading of the Spirit and the work of Christ Such engagement is found to be relevant in a plural religio cultural context and in situations of marginalization in India The *Spirit Shaped Church* reflects an ongoing commitment on the part of Fortress Press to engage the needs of Christian communities around the world The book is aimed at teachers clergy students and anyone with an interest in the lived experience of Christians in India *Many Mansions?*

Catherine Cornille, 2010-04-01 These superb essays explore the phenomenon of individuals who identify themselves as followers of more than one religious tradition The results prove that the late Joseph Kitagawa was prescient when he cautioned that the world is Easternizing as much as it is Westernizing and that modernization is a far from adequate key to name what is happening in world religious history in our age **Ritual Participation and Interreligious Dialogue** Marianne Moyaert, Joris Geldhof, 2015-04-23 Shared ritual practices multi faith celebrations and interreligious prayers are becoming increasingly common in the USA and Europe as more people experience religious diversity first hand While ritual participation can be seen as a powerful expression of interreligious solidarity it also carries with it challenges of a particularly sensitive nature Though celebrating and worshiping together can enhance interreligious relations cross riting may also lead some believers to question whether it is appropriate to engage in the rituals of another faith community Some believers may consider cross ritual participation as inappropriate transgressive behaviour Bringing together leading international contributors and voices from a number of religious traditions *Ritual Participation and Interreligious Dialogue* delves into the complexities and intricacies of the phenomenon They ask what are the promises and perils of celebrating and praying together What are the limits of ritual participation How can we make sense of feelings of discomfort when entering the sacred space of another faith community The first book to focus on the lived dimensions of interreligious dialogue through ritual participation rather than textual or doctrinal issues this innovative volume opens an entirely new perspective

Religious Diversity--What's the Problem? Rita M. Gross, 2014-04-24 Once upon a time on grounds of both religion and common sense people assumed that the earth was flat and that the sun literally rose and set each day When newly developing knowledge made those beliefs untenable giving them up was difficult Today the belief that only one of the world's

various religions is true for all people on earth is equivalent to the belief in a flat earth Both notions have become untenable given contemporary knowledge about religion Even though many people are still troubled by the existence of religious diversity today that diversity is a fact of life Religious diversity should be no more troubling to religious people than the fact that the earth is round and circles the sun This provocative book based on the author's longtime practice of Buddhism and comparative study of religion provides tools with which one can truly appreciate religious diversity as a gift and resource rather than as a deficiency or a problem to be overcome After we accept diversity as inevitable and become comfortable with it diversity always enriches life both nature and culture

Buddhist-Christian Dialogue as Theological Exchange

Ernest M. Valea, 2015-04-14 This book is intended to encourage the use of comparative theology in contemporary Buddhist-Christian dialogue as a new approach that would truly respect each religious tradition's uniqueness and make dialogue beneficial for all participants interested in a real theological exchange As a result of the impasse reached by the current theologies of religions exclusivism inclusivism and pluralism in formulating a constructive approach in dialogue this volume assesses the thought of the founding fathers of an academic Buddhist-Christian dialogue in search of clues that would encourage a comparativist approach These founding fathers are considered to be three important representatives of the Kyoto School Kitaro Nishida Keiji Nishitani and Masao Abe and John Cobb an American process theologian The guiding line for assessing their views of dialogue is the concept of human perfection as it is expressed by the original traditions in Mahayana Buddhism and Orthodox Christianity Following Abe's methodology in dialogue an Orthodox contribution to comparative theology proposes a reciprocal enrichment of traditions not by syncretistic means but by providing a better understanding and even correction of one's own tradition when considering it in the light of the other while using internal resources for making the necessary corrections

Fragrant Rivers of Wisdom A. Christian van Gorder, 2021-12-09

Spiritual Capital Samuel D. Rima, 2017-07-05 Presenting a thorough comprehensive theory of spiritual capital based on solid academic research Spiritual Capital serves to reinforce and amplify the notion of a moral economic core that is beginning to feature in contemporary economic arguments In this rare major work wholly dedicated to the subject of spiritual capital Sam Rima explains the desperate need for revolutionary and transformational thinking in the area of

economic policy and practice and makes the case for a new moral foundation to business and economics that directly addresses today's financial and business crisis. Writing in an accessible style and drawing on examples from several continents, Rima explains spiritual capital theory in terms of the resources needed for its creation, how it is formed, how it can be invested, and what the return on investment can be. The book provides practical tools for measuring a personal or organizational store of spiritual capital along with clear guidelines on how to engage in spiritual capital formation. These will benefit business leaders interested in developing viable and sustainable enterprises capable of avoiding the disconnection between economic policy and social reality. There are also recommendations here for policy makers regarding the macro application of spiritual capital theory. This important contribution to Gower's Transformation and Innovation Series will appeal to business leaders and policy makers, academicians and students in the fields of sociology, theology and economics, and anyone interested in social and economic justice issues, social innovation and corporate social responsibility.

Spiritual Capital Michael O'Sullivan, Bernadette Flanagan, 2017-07-05. Spiritual Capital seeks to refocus discussion on core social values, on individuals' value systems and the internal dynamics that impel human beings to live by truth, goodness and love. This book defines, refines and disseminates the concept of spiritual capital. Contributions by practitioner scholars in applied spirituality who have practical experience of spiritual capital at work in diverse human situations provide accounts of concrete expressions of spiritual capital and create an interdisciplinary discussion between spirituality practitioners, artists, ecologists, sociologists and others on the frontiers of change in contemporary culture.

Interreligious Hermeneutics in Pluralistic Europe David Cheetham, 2011. At the second major conference held in Salzburg in 2009 of The European Society for Intercultural Theology and Interreligious Studies (ESITIS), participants probed the broad theme of interreligious hermeneutics in a pluralistic Europe. Due to the phenomenon of an increasingly plural Europe, questions arise about how we see each other's cultural heritage, religious traditions and sacred scriptures. Following the discussions that took place at the conference, this book focuses on the usage of texts in our global and mass media world, the possibility of scriptural reasoning, the theological comparison of selected topics from religious traditions by scholars belonging to multiple religions or interreligious communities of scholars, the pragmatics of using sacred texts in social contexts of family and gender, polemical attacks on the other's sacred text and the challenge to interreligious hermeneutics of the postcolonial deconstruction of religion by cultural studies. The future of interreligious hermeneutics is going to be complex. This book exhibits the multiple agendas: power, gender, postcolonialism, globalisation, dialogue, tradition, polemics that will have a stake in these future debates.

Postcolonial Theology of Religions Jenny Daggert, 2013-07-18 This original and ambitious book considers the terms of engagement between Christian theology and other religious traditions beginning with criticism of Christian theology of religions as entangled with European colonial modernity Jenny Daggert covers recent efforts to disentangle Eurocentrism from the meeting of the religions and investigates new constructive possibilities arising in the postcolonial context In dialogue with Asian and feminist theologies she reflects on ways forward for relations between the religions and offers a particularist model for theology of religions standing within a classical Trinitarian framework **Pluralism: The Future of Religion** Kenneth Rose, 2013-03-28 Theology of religions has defaulted in the last two decades to an epicyclic inclusivism which seeks to undermine pluralism with claims that it is covertly triumphalistic and that it mirrors the logic of exclusivism With the exception of pioneers in the field such as John Hick and Paul Knitter most major figures in this theological field have retreated from pluralism and promote versions of particularism and inclusivism *Pluralism: The Future of Religion* argues for an apophatic pluralism that is motivated by the insight that it is impossible to secure universal assent for changeable bodies of religious teachings This insight implies the non finality and consequent departicularization of all religious teachings and their inclusivistic defenses These conclusions point us inevitably toward pluralism and lead us out of the inclusivistic impasse of contemporary theology in religions **Understanding Insider Movements** Harley Talman, John Jay Travis, 2015-09-01
