## **Mao The Unknown Story:**

**Mao** Jung Chang, Jon Halliday, 2006-11-14 The most authoritative life of the Chinese leader ever written Mao The Unknown Story is based on a decade of research and on interviews with many of Mao's close circle in China who have never talked before and with virtually everyone outside China who had significant dealings with him It is full of startling revelations exploding the myth of the Long March and showing a completely unknown Mao he was not driven by idealism or ideology his intimate and intricate relationship with Stalin went back to the 1920s ultimately bringing him to power he welcomed Japanese occupation of much of China and he schemed poisoned and blackmailed to get his way After Mao conquered China in 1949 his secret goal was to dominate the world In chasing this dream he caused the deaths of 38 million people in the greatest famine in history In all well over 70 million Chinese perished under Mao's rule in peacetime *Was Mao Really a Monster?* Gregor Benton, Lin Chun, 2013-09-13 Mao The Unknown Story by Jung Chang and Jon Halliday was published in 2005 to a great fanfare The book portrays Mao as a monster equal to or worse than Hitler and Stalin and a fool who won power by native cunning and ruled by terror It received a rapturous welcome from reviewers in the popular press and rocketed to the top of the worldwide bestseller list Few works on China by writers in the West have achieved its impact Reviews by serious China scholars however tended to take a different view Most were sharply critical questioning its authority and the authors methods arguing that Chang and Halliday's book is not a work of balanced scholarship as it purports to be but a highly selective and even polemical study that sets out to demonise Mao This book brings together sixteen reviews of Mao The Unknown Story all by internationally well regarded specialists in modern Chinese history and published in relatively specialised scholarly journals Taken together they demonstrate that Chang and Halliday's portrayal of Mao is in many places woefully inaccurate While agreeing that Mao had many faults and was responsible for some disastrous policies they conclude that a more balanced picture is needed **Mao** Jung Chang, 2006 Based on a decade of research and on interviews with many of Mao's close circle in China who have never talked before and with virtually everyone outside China who had significant dealings with him this is the most authoritative life of Mao ever written It is full of startling revelations exploding the myth of the Long March and showing a completely unknown Mao he was not driven by idealism or ideology his intricate relationship with Stalin went back to the 1920s ultimately bringing him to power he welcomed the Japanese occupation and he schemed poisoned and blackmailed to get his way After he conquered China in 1949 his secret goal was to dominate the world He caused the deaths of 38 million people in the greatest famine in history In all well over 70 million Chinese perished under Mao's rule in peacetime p 4 of cover [Human Nature and the Causes of War](#) John David Orme, 2018-04-07 What are the causes of war Wars are generally begun by a revisionist state seeking to take territory The psychological root of revisionism is the yearning for glory honor and power Human nature is the primary cause of war but political regimes can temper or intensify these passions This book examines the effects of six types of regime on foreign

suffer physical and or psychological abuse Finally you must come of age when the political system of your country is unstable Together these events establish a basis to rise to power one that Stalin Hitler Mao Zedong Saddam Hussein and Muammar Qaddafi all used to gain life and death control over their countrymen and women It is how the leaders of the Islamic State hoped to gain such power Though these men lived in different times and places and came from vastly different backgrounds many of them felt respect for each other They often seemed to recognize their shared dark personality traits and viewed them as strengths Only in rare cases did they show signs of mental disorders Getting inside the heads of foreign leaders and terrorists is one way governments try to understand predict and influence their actions Psychological profiles can help us understand the urges of tyrants to dominate subjugate torture and slaughter Tyrannical Minds reveals how recognizing their psychological traits can provide insight into the motivations and actions of dangerous leaders potentially allow to us predict their behavior and even how to stop them As strongmen and authoritarian leaders around the world increase in number understanding the most extreme examples of tyrannical behavior should serve as a warning to anyone indifferent to the threats posed by political extremism

**The Darwin Effect** Dr. Jerry Bergman, 2014-08-01 Dr. Miklos Nyiszli, an imprisoned doctor in the Auschwitz camp, wrote that Nazi doctors hoped studying twins would solve the problem of faster reproduction of superior races. Nazis hoped to have each German mother bear as many twins as possible. What Darwin influenced went far beyond the Nazi death camps. Shocking political, social, and scientific legacies of Darwin and his family. Disturbing disclosure of how over 45 million Christians were killed in the 20th century because of their faith. Revealing and layman-friendly presentation. This book is the result of 30 years of research and study, carefully documenting the common destructive threads that tie some of history's most murderous dictators, uncaring capitalists, and aggressive social activists to the flawed concepts of Charles Darwin in an effort to change the world and how they succeeded. The extermination of races considered lower than others, the profound lack of empathy for less advanced cultures, the corrupted atheistic justifications for taking the lives of millions, all done to advance the agendas of social Darwinism at work in the world today. More than mere theoretical discussions, we have seen the horrifying evidence of the practical results when applying these destructive and misleading concepts to society in the last 100 years.

**What Is Happening to America? The Hidden Truth of Global Destruction** Simona Pipko, 2012-08-31 We are at war. We've been in WWII for many decades now. We have been systematically targeted on different fronts and locations. Alas, my beloved America has not recognized it yet. This war is aimed at you, your family, your country, and at Western civilization as a whole. The name of your enemy is Soviet Fascism. To survive and win the war, awareness and knowledge about the enemy is imperative. This nonfiction work chronicles the development of world politics in the twentieth and twenty-first centuries. Discover the single driving force behind today's threat of global terrorism. Learn why the 9/11 attack was just one link in a long chain of battles against Western civilization and how Islam and oil are being used as weapons by a very determined enemy that is fighting for world domination. The author sets the stage with first-hand narrative from her unique and horrifying experiences as a child in Russia. Then she demonstrates how a global war set in motion nearly a century ago continues to pose the largest and most imminent threat to the United States and the world. Decide for yourself once you have seen Ms. Pipko's evidence ranging from Russia's aggressive foreign policy and growing intelligence apparatus to infiltration into foreign governments, businesses, and institutions, including the UN. *What Is Happening to America: The Hidden Truth of Global Destruction* is Ms. Pipko's third book. It continues exposing the roots of modern terrorism, its ideology, and its modus

operandi The book is a profound contribution of first hand experience and information which brings to light the as yet uncovered truth about Russia and its role in the ongoing global strife we see every day With Simona Pipkos heartfelt voice this book is also an intriguing retelling of a life lived purposefully

**An Analysis of Frank Dikotter's Mao's Great Famine** John Wagner Givens,2017-07-05 The power of Frank Dikotter s ground breaking work on the disaster that followed China s attempted Great Leap Forward lies not in the detail of his evidence though that shows that Mao s fumbled attempt at rapid industrialization probably cost 45 million Chinese lives It stems from the exceptional reasoning skills that allowed Dikotter to turn years of researching in obscure Chinese archives into a compelling narrative of disaster and above all to link two subjects that had been treated as distinct by most of his predecessors the extent of the crisis in the countryside and the actions hence the responsibility of the senior Chinese leadership In Dikotter s view ultimate responsibility for the catastrophe lies at the door of Mao Zedong himself the Chairman conceived and ordered the policies that led to the famine and he did nothing to reverse them or limit the damage that was being wrought when evidence for their disastrous impact reached him Dikotter s ability to persuade his readers of the fundamental truth of these arguments despite his admission that his access to sources was necessarily limited and incomplete together with the clear structure of his presentation combine to produce a work that has had enormous influence on perceptions of Mao and of the Great Leap Forward itself

**Mao's China and the Sino-Soviet Split** Mingjiang Li,2013-03-01 The Sino Soviet split in the 1960s was one of the most significant events of the Cold War Why did the Sino Soviet alliance hailed by its creators as unbreakable eternal and as representing brotherly solidarity break up Why did their relations eventually evolve into open hostility and military confrontation With the publication of several works on the subject in the past decade we are now in a better position to understand and explain the origins of the Sino Soviet split But at the same time new questions and puzzles have also emerged The scholarly debate on this issue is still fierce This book the result of extensive research on declassified documents at the Chinese Foreign Ministry

and on numerous other new Chinese materials sheds new light on the problem and makes a significant contribution to the debate More than simply an empirical case study by theorising the concept of the ideological dilemma Mingjiang Li's book attempts to address the relationship between ideology and foreign policy and discusses such pressing questions as why it is that an ideology can sometimes effectively dictate foreign policy whilst at other times exercises almost no significant influence at all This book will be of essential reading to anyone interested in Chinese Soviet history Cold War history International Relations and the theory of ideology

**Mao's Great Famine** Frank Dikötter, 2010-09-06 An unprecedented groundbreaking history of China's Great Famine that recasts the era of Mao Zedong and the history of the People's Republic of China

Mao's Forgotten Successor Robert Weatherley, 2010-07-30 Hua Guofeng succeeded Mao in 1976 emerging almost out of nowhere following an unexceptional career in Shanxi and Hunan In just over two years Hua had been eclipsed by Deng Xiaoping a more politically shrewd progressive and charismatic figure If Hua's rise to power was remarkable then this fall was even more so

China's Long March to Freedom Kate Zhou, 2017-09-08 China is more than a socialist market economy led by ever more reform minded leaders It is a country whose people seek liberty on a daily basis Their success has been phenomenal despite the fact that China continues to be governed by a single party Clear distinctions between the people and the government are emerging underlining the fact that true liberalization cannot be imposed from above Although a large percentage of the Chinese people have been part of China's long march to freedom farmers entrepreneurs migrants Chinese gays sex pleasure seekers and black marketers played a particularly important role in the beginning Lawyers scholars journalists and rights activists have jumped in more recently to ensure that liberalization continues Social dissatisfaction with the government is now published in the media addressed in public forums and deliberated in courtrooms Intellectuals devoted to improvement in human rights and continued liberalization are part of the process This grassroots social revolution has also resulted from the explosion of information available to ordinary people especially via the Internet and far reaching international influences All have fundamentally altered key elements of the moral and material content of China's party state regime and society at large This social revolution is moving China towards a more liberal society despite its government The Chinese government reacts rather than leads in this transformative process This book is a landmark a decade in the making
