Marantz 41:

Causatives in Minimalism Mercedes Tubino Blanco, 2011 This monograph studies issues of current minimalist concern such as whether differences in the expression of argument and syntactic structure can all be attributed to the parameterization of specific functional heads In particular this book studies in depth the extent to which variation in the expression of causation available both intra and crosslinguistically can be accounted for by appealing only to the microparameterization of the causative head Cause as previously argued for by linguists such as Pytkkanen It concludes that the microparameterization of Cause may explain some major characteristics associated with causatives but it cannot be regarded as the only explanation behind variation in these structures The book includes relevant discussion on argument structure and looks in detail at languages such as the Uto Aztecan Hiaki that have not received much attention before It is mostly intended for an audience interested in theoretical approaches to argument structure and variation *The Battle for Boston* Don Gillis, 2025-05-06 How Mayor Ray Flynn s leadership and a coalition of activists transformed Boston challenging established powers and setting new precedents for urban governance The Battle for Boston captures the remarkable era under Mayor Ray Flynn whose election in 1983 marked the beginning of a profound shift in the city s political and social landscape Don Gillis a Flynn senior advisor chronicles the inspiring journey of a city that dared to challenge the entrenched power brokers including developers landlords and banking industry leaders through powerful grassroots campaigns Gillis provides a vivid portrayal of the political dynamics and the coalition of community organizers neighborhood leaders and residents that played a pivotal role in rejecting the business backed growth machine and the city s historically divisive racial politics This book charts the strategic battles fought within the corridors of power and on the streets and highlights the substantial impact these movements had on the city s governance and power dynamics In a historic turn in 2021 Michelle Wu became the first woman person of color and Asian American elected Mayor of Boston Wu s victory on a similarly progressive platform as Flynn underscores the enduring relevance of his legacy signaling a hopeful future for more inclusive and effectively governed cities The Battle for Boston poses a critical inquiry Can cities truly embrace progressivism and govern effectively in the twenty first century This qualitative narrative study is a testament to the possibility of such governance driven by the indomitable spirit of those who strive for a fair and equitable society **The Corporate Directory of US Public Companies 1995** Elizabeth Walsh, 2016-06-11 This valuable and accessible work provides comprehensive information on America s top public companies listing over 10 000 publicly traded companies from the New York NASDAQ and OTC exchanges All companies have assets of more than 5 million and are filed with the SEC Each entry describes business activity 5 year sales income earnings per share assets and liabilities Senior employees major shareholders and directors are also named The seven indices give an unrivalled access to the information Morphology: Morphology: its relation to phonology Francis Katamba, 2004 This six volume collection draws together the most significant contributions to

morphological theory and analysis which all serious students of morphology should be aware of By comparing the stances taken by the different schools about the important issues the reader will be able to judge the merits of each with the benefit of evidence rather than prejudice Morphological Theory and the Morphology of English Jan Don,2014-05-14 In presenting the morphology of English in relation to theoretical developments that have shaped the field over the last couple of decades this textbook gives a reasoned overview of the morphology of English *Annual Report of the State Treasurer* New York (State). Treasurer's Office,1915 **Shadow of a Doubt** Diane Negra,2021-04-15 *Shadow of a Doubt* 1943 was British born Alfred Hitchcock s sixth American film and the one that he at various times identified as his favourite and his best It seems likely that one of the reasons he liked *Shadow* so much is that it is an extraordinarily well ordered narrative system a meticulous cause and effect chain that melds its various scenes and sequences together to form a unified narrative that is highly effective in building suspense and cultivating identification with characters This scrupulously organized film operates as a masterclass on principles of narrative design while generating resonant commentary on the nature of family life This book redresses the deficit of sustained critical attention paid to *Shadow* even in the large corpus of Hitchcock scholarship Analysing the film s narrative system issues of genre authorship social history homesickness and family values Diane Negra shows how the film s impeccable narrative structure is wedded to radical ideological content linking the film s terrors to the punishing effects of looking beyond conventional family and gender roles This book understands *Shadow* as an unconventionally female centred Hitchcock text and a milestone film that marks the director s emergent engagement with the pathologies of violence in American life and opens a window into the placement of femininity in World War II consensus culture and more broadly into the politics of mid century gender and family life **Documents of the Senate of the State of New York** New York (State). Legislature. Senate,1912 *Linguistic Analysis* ,2003 **California. Court of Appeal (2nd Appellate District). Records and Briefs** California (State)., **Language in Cognition** Cedric Boeckx,2010-04-29 This textbook explores the ways in which language informs the structure and function of the human mind offering a point of entry into the fascinating territory of cognitive science Focusing mainly on syntactic issues *Language in Cognition* is a unique contribution to this burgeoning field of study Guides undergraduate students through the core questions of linguistics and cognitive science and provides tools that will help them think about the field in a structured way Uses the study of language and how language informs the structure and function of the human mind to introduce the major ideas in modern cognitive science including its history and controversies Explores questions such as what does it mean to say that linguistics is part of the cognitive sciences how do the core properties of language compare with the core properties of other human cognitive abilities such as vision music mathematics and other mental building blocks and what is the relationship between language and thought Includes an indispensable study guide as well as extensive references to encourage further independent study **Official Gazette of the United States Patent and Trademark Office** ,2004 *Summary of Andrew Marantz's*
