Biplanes at War Wray R. Johnson, 2019-04-16 Unlike the relative uniformity of conventional warfare the peculiarities of small wars prevent a clear definition of rules and roles for military forces to follow During the small wars era aviation was still in its infancy and the US military had only recently begun battling in the skies The US Marine Corps recognized that flexibility and ingenuity would be critical to the successful conduct of small wars and thus employed the new technology of aviation In *Biplanes at War* US Marine Corps Aviation in the Small Wars Era 1915-1934 author Wray R Johnson provides a riveting history of the marines use of aviation between the world wars a time in which young soldiers were volunteering to fly in combat when flying itself was a dangerous feat Starting with Haiti in 1915 *Biplanes at War* follows the marines aviation experiences in Haiti the Dominican Republic China and Nicaragua chronicling how marines used aircraft to provide supporting fires e g dive bombing to ground troops in close contact with irregular opponents evacuate the sick and wounded transport people and cargo e g to assist humanitarian operations and even support elections in furtherance of democracy After years of expanding the capabilities of airplanes far beyond what was deemed possible the small wars era ended and the US Marines Corps transitioned into an amphibious assault force The legacy of the marines ability to adapt and innovate during the small wars era endures and provides a useful case study *Biplanes at War* sheds light on how the marines pioneered roles and missions that have become commonplace for air forces today an accomplishment that has largely gone unrecognized in mainstream histories of aviation and air power

Marine Corps Colonels 1892-1928 Mr Glenn M Harned, 2017-03-27 This is the story of the 68 Marine colonels who served during the modern Marine Corps formative period from the War with Spain 1898 to the end of the Small Wars 1934 but who did not become generals Looking below the surface or under the hood of published Marine history the author found a cornucopia of fascinating intriguing even unimaginable stories about Marine colonels who could not be found in any

standard Marine history book He explored why some Marine colonels became generals while others did not The lessons might prove useful to the new generation of Marine officers Included in this book are some well known Marine Corps legends like Medal of Honor recipient Hiking Hiram Bearss and Frederic Dopey Wise There are also lesser known Marine heroes like Constantine Perkins a hero of the 1899 Samoa expedition George Thorpe who commanded the Marine guard for the first U S diplomatic expedition to Ethiopia in 1903 Julius Turrill who distinguished himself in France in 1918 and Alexander Williams who barely survived the Long March on Samar in 1901 There are distinguished Marine field commanders like Lincoln Karmany who was denied flag rank because he divorced to marry a younger woman Franklin Moses who died at Vera Cruz before he could become a general and Thomas Treadwell and William McKelvy who both commanded battalions regiments and brigades in the West Indies campaigns Standard Marine histories provide glimpses of these officers but this book provides the rest of the story Their stories deserve to be recognized as part of the Marine Corps heritage The book includes appendices listing the commanders of Marine brigades regiments separate battalions and posts fleet marine officers and graduates of the Army and Navy War Colleges and Army Service Schools during the period
