Kritika: Essays on Intellectual Property

Peter Drahos, Gustavo Ghidini, Hanns Ullrich, 2015-09-25 The field of intellectual property has broadened and deepened in so many ways and at such pace that there is a tendency for academic commentators to focus on the next new thing or to react immediately to judicial developments rather than to reflect more deeply on the greater themes of the discipline The Kritika Essays on Intellectual Property series is a series of books that are designed to fulfill this role by creating a forum for essays that take a critical long term approach to the field of intellectual property Breaking down the barriers of specialization and laying the foundation for an emergent critical scholarship this first book in the series brings together the leading scholars in the field to reflect deeply on the current state and future of their discipline

books available in the market The figures are simple and easy to draw *Guide to Reference Books, Ninth Edition* Eugene Paul Sheehy,1982 Arts & Humanities Citation Index ,2001 **Painting Shakespeare Red** Aleksandŭr Shurbanov,Boika Sokolova,2001 While the focus is predominantly on Bulgaria its particular experience is considered as representative of the entire Soviet bloc to which it belonged for four and a half long decades And its multiple links with partner countries in this fold are always kept in view **BOOK JACKET** **Guide to Microforms in Print** ,2001 **Educart CBSE Computer Application Class 10 Sample Paper 2024-25 (new 50% competency Qs) 2025** Educart,2024-10-08 What You Get 50% Competency based Q sStep wise Marks Breakdown Educart CBSE Computer Application Class 10 Sample Paper 2024 25 new 50% competency Qs 2025 Based on the CBSE Sample Paper released on 5th September 2024 Includes sample papers based on the new analytical exam pattern Detailed explanations for every solution Includes step wise mark breakdown table for every question Most likely sets of sample papers with answer booklets to prepare in an exam like environment Caution points Tips Tricks and related NCERT theory for concept clarity Why choose this book New sample papers help prepare as per the revised pattern on an increased percentage of analytical questions *The Liberal Order and its Contestations* Riccardo Alcaro,2018-08-09 The notion that we are experiencing a change in times whereby an old global order is giving way to a new one has been gaining legitimacy in international debates As US power is waning the argument goes so is the set of liberal norms rules and institutions around which the Unites States organised its global supremacy Ideational contests power shifts regional fragmentation and socio economic turmoil paint a broad picture of complex and often inter related challenges that fuel contestation of the liberal order both as a normative project and as an emanation of US power Major players China and India Europe and Russia and the United States itself are all engaged in a process of global repositioning most notably in areas where the liberal project has only fragile roots and order is contested Eastern Europe and the Caucasus the Asia Pacific and the Middle East This volume aims to provide critical frames of reference for understanding whether geopolitical and ideational contestations will eventually bring the US centred liberal order down or lead to a process of adjustment and transformation The chapters in this book were originally published in a special issue in *The International Spectator*

Modernity, History, and Politics in Czech Art Marta Filipová,2019-07-08 This book traces the influence of the changing political environment on Czech art criticism history and theory between 1895 and 1939 looking beyond the avant garde to the peripheries of modern art The period is marked by radical political changes the formation of national and regional identities and the rise of modernism in Central Europe specifically the collapse of Austria Hungary and the creation of the new democratic state of Czechoslovakia Marta Filipov studies the way in which narratives of modern art were formed in a constant negotiation and dialogue between an effort to be international and a desire to remain authentically local

Nomads and Soviet Rule Alun Thomas,2018-06-14 The nomads of Central Asia were already well accustomed to life under the power of a distant capital when the Bolsheviks fomented revolution on the streets of Petrograd Yet after the fall of the

Tsar the nature ambition and potency of that power would change dramatically ultimately resulting in the near eradication of Central Asian nomadism Based on extensive primary source work in Almaty Bishkek and Moscow Nomads and Soviet Rule charts the development of this volatile and brutal relationship and challenges the often repeated view that events followed a linear path of gradually escalating violence Rather than the sedentarisation campaign being an inevitability born of deep rooted Marxist hatred of the nomadic lifestyle Thomas demonstrates the Soviet state s treatment of nomads to be far more complex and pragmatic He shows how Soviet policy was informed by both an anti colonial spirit and an imperialist impulse by nationalism as well as communism and above all by a lethal self confidence in the Communist Party s ability to transform the lives of nomads and harness the agricultural potential of their landscape This is the first book to look closely at the period between the revolution and the collectivisation drive and offers fresh insight into a little known aspect of early Soviet history In doing so the book offers a path to refining conceptions of the broader history and dynamics of the Soviet project in this key period

Ethnicity and Beyond Eli Lederhendler,2011-03-08 Volume XXV of the distinguished annual Studies in Contemporary Jewry explores new understandings and approaches to Jewish ethnicity In current parlance regarding multicultural diversity Jews are often considered to belong socially to the majority whereas otherness is reserved for minorities But these group labels and their meanings have changed over time This volume analyzes how ethnic ethnicity and identity have been applied to Jews past and present individually and collectively Most of the symposium papers on the ethnicity of Jewish people and the social groups they form draw heavily on the case of American Jews while others offer wider geographical perspectives Contributors address ex Soviet Jews in Philadelphia comparing them to a similar population in Tel Aviv Communism and ethnicity intermarriage and group blending American Jewish dialogue and German Jewish migration in the interwar decades Leading academics employing a variety of social scientific methods and historical paradigms propose to enhance the clarity of definitions used to relate ethnic identity to the Jews They point to ethnic experience in a variety of different social manifestations language use in social context marital behavior across generations spatial and occupational differentiation in relation to other members of society and new immigrant communities as sub ethnic units within larger Jewish populations They also ponder the relevance of individual experience and preference as compared to the weight of larger socializing factors Taken as a whole this work offers revisionist views on the utility of terms like Jewish ethnicity that were given wider scope by scholars in the 1960s 70s and 80s

Gleaning for Communism Xenia A. Cherkaev,2023-07-15 Gleaning for Communism is a historical ethnography of the property regime upon which Soviet legal scholars legislated a large modern state as a

household with guaranteed rights to a commons of socialist property rather than private possessions Starting with former Leningrad workers everyday stories about smuggling industrial scrap home over factory fences Xenia Cherkaev traces collectivist ethical logic that was central to this socialist household economy in theory and practice from its Stalin era inception through Khrushchev's major foregrounding of communist ethics to Gorbachev's perestroika which unfurled its grounding tension between the interests of any given collective and of the socialist household economy itself A story of how the socialist household economy functioned how it collapsed and how it was remembered this book is haunted throughout by a spectral image of the totalitarian state whose jealous political control over the economy leads it to trample over all that which ought to be private Underlying this image and the neoliberal state phobia it justified is the question of how individual interests ought to relate to the public good in a large modern society which it is assumed cannot possibly function by the non private logics of householding This book tells the story of a large modern society that did
