organs function optimally so that they can do what they're supposed to do in metabolism and digestion. They also contribute to the release of emotional and spiritual blockages. Bring yourself back into balance.

The Postnatal Depletion Cure Dr. Oscar Serrallach, 2018-06-05 While postpartum depression has become a recognizable condition, this is the first book to treat root causes of mommy brain, baby blues, and other symptoms that leave mothers feeling exhausted. Any woman who has read *What to Expect When You're Expecting* needs a copy of *The Postnatal Depletion Cure*. Filled with trustworthy advice, protocols for successful recovery, and written by a compassionate expert in women's health, this book is a guide to help any mother restore her energy, replenish her body, and reclaim her sense of self. Most mothers have experienced pain, forgetfulness, indecision, low energy levels, moodiness, or some form of baby brain. And it's no wonder: The process of growing a baby depletes a mother's body in substantial ways. On average, a mother's brain shrinks 5% during pregnancy, and the placenta saps her of essential nutrients that she needs to be healthy and contented. But with postnatal care ending after 6 weeks, most women never learn how to rebuild their strength and care for their bodies after childbirth. As a result, they can suffer from the effects of depletion for many years without knowing what's wrong, as well as getting the support and treatments that they need.

Strategies For Health Steven Horne, RH (AHG), 2022-01-14 If you're looking to solve your own health problems, help someone you love, or you're searching for answers to assist customers or clients, this practical guide to natural remedies will help you succeed. This book is the result of the healing journey I started fifty years ago when I failed to find answers to my own chronic respiratory problems. After years of getting worse with allopathic treatments, I discovered a different approach. I started studying and applying the use of herbs, diet, and other natural modalities. I went from being a sickly teenager to a healthy young adult. For the past forty years, I have been consulting, writing, and teaching, sharing what I have learned to help other people experience the same health transformation. I wrote *Strategies for Health* to share this knowledge so that anyone who is struggling with poor health can move beyond symptomatic relief and start learning how to achieve lasting health. To get better results, this book teaches you to find and adopt strategies to correct the underlying root causes of disease, such as nutritional deficiencies, exposure to toxins, unresolved stress, and poor lifestyle habits. Because when you look beyond treating disease symptoms and correct these root causes, the body returns to its natural state of health. This is the approach that I have taken to successfully care for myself and my family. It has also helped me transform the lives of my clients and teach hundreds of successful natural health consultants to do the same. And I hope the information in this book will help bring the same health and wellbeing to you and many others. Steven Horne, RH, AHG, DHS, DHM.

The Community Club Shannon M. Simmons, 2010-08-18 Cynthia Hale is a true cancer survivor. With help from her friends and family, she was able to beat the horrible disease. After eighteen months with leukemia, she's finally ready to lead a normal life again. The CC or Community Club are happy to welcome Cynthia into their club. She soon feels right at home. But it's summer, and many of the club's siblings and baby-sitting charges are starting to feel that dreaded boredom that comes

with summertime The CC is ready to help so they plan the perfect way to keep kids busy a day camp With so many kids and so much sun the girls feel sure that they can raise a lot of money to send to the local wildlife reserve As soon as camp starts however the girls face challenges Four children is hard enough but with more than twenty children to look after and only two extra pairs of hands the girls are afraid that instead of helping the neighborhood kids they might just be setting them up to get themselves into trouble And what about the helpless animals that are counting on them
