History of the Great Reformation in Europe in the Times of Luther and Calvin Jean Henri Merle d'Aubigné, 1871

Culture and Human Development Jaan Valsiner, 2000-02-02 This major new textbook by Jaan Valsiner focuses on the interface between cultural psychology and developmental psychology. Intended for students from undergraduate level upwards, the book provides a wide-ranging overview of the cultural perspective on human development with illustrations from pre-natal development to adulthood. A key feature is the broad coverage of theoretical and methodological issues which have relevance to this truly interdisciplinary field of enquiry encompassing developmental psychology, cultural anthropology, and comparative sociology. The text is organized into five coherent parts: Part 1 Developmental theory and methodology; Part 2 Analysis of environments for human development; Part 3 *Europe's Welfare Traditions Since 1500, Volume 1* Thomas McStay Adams, 2023-01-26 Tracing the interwoven traditions of modern welfare states in Europe over five centuries, Thomas McStay Adams explores social welfare from Portugal, France, and Italy to Britain, Belgium, and Germany. He shows that the provision of assistance to those in need has faced recognizably similar challenges from the 16th century through to the present: how to allocate aid equitably and with dignity; how to give support without undermining autonomy and motivation; and how to balance private and public spheres of action and responsibility. Across two authoritative volumes, Adams reveals how social welfare administrators, critics, and improvers have engaged in a constant exchange of models and experience locally and across Europe. The narrative begins with the founding of the Casa da Misericórdia of Lisbon in 1498, a model replicated throughout Portugal and its empire, and ends with the relaunch of a social agenda for the European Union at the meeting of the Council of Europe in Lisbon in 2000. Volume 1, which focuses on the period from 1500 to 1700, discusses the concepts of welfare and tradition. It looks at how 16th-century humanists joined with merchants and lawyers to renew traditional charity in distinctly modern forms and how the discipline of religious reform affected the exercise of political authority and the promotion of economic productivity. Volume 2 examines 18th-century bienfaisance, which secularized a Christian humanist notion of beneficence, producing new and sharply contested assertions of social citizenship. It goes on to consider how national struggles to establish comprehensive welfare states since the second half of the 19th century built on the power of the vote as politicians pushed by activists and advised by experts appealed to a growing class of industrial workers. Lastly, it looks at how 20th-century welfare states addressed aspirations for social citizenship while the institutional framework for European economic cooperation came to fruition. **The Age of Reform, 1250-1550** Steven Ozment, 2020-08-25 Celebrating the fortieth anniversary of this seminal book, this new edition includes an illuminating foreword by Carlos Eire and Ronald K. Rittiges. The seeds of the swift and sweeping religious movement that reshaped European thought in the 1500s were sown in the late Middle Ages.
