Fueroghne, 2017-03-01 In this lively entertaining and informative book Dean K Fueroghne guides readers through the complex laws governing the creation of advertising illuminating a heavily regulated arena at the intersection of free enterprise and consumer protection Is it acceptable to use images of real people famous or not Can Nike talk about Adidas in its promotional campaign When can money be shown What constitutes puffery or deceptive truth or bait and switch advertising What are the specific rules pertaining to professional businesses political advertising or the marketing of alcohol or tobacco What is the difference between copyright and trademark Fueroghne answers these questions and more as he covers the complex laws relevant to advertising in all its guises In addition to

discussing specific cases he explains the reasoning behind the court's decisions and how it affects the business of advertising. Students of strategic communication as well as advertising professionals from agency account executives and copywriters to art directors and freelance designers will learn to anticipate when proposed advertising may cause legal problems and how to avoid costly mistakes. Advertising lawyers will also appreciate the book as a handy reference that gathers in one place the many disparate laws affecting marketing and promotion in the United States today. *Trade Regulation Reporter*, 1932

The Tangled Web They Weave Ivan L. Preston, 1994 Ivan L. Preston, recognized as a preeminent scholar of the legal dimensions of American advertising, has written *The Tangled Web They Weave* for the ordinary consumer as well as for advertisers and trade regulators. His frank aim is to demonstrate how advertising can better serve its audience. Advertising, Preston points out, is full of falsity that is quite legal. Indeed, clever presentation of lies can make advertising entertaining to consumers, and Preston provides lively examples and anecdotes of such cases. The problem with falsity in advertising, he argues, is not so much with the bald lie as it is with deception. It is in this thicket of implied claims that he shows us the dangers and indicates the need for regulatory adjustment. Preston takes us down the slippery slope from the high ground of honest product claims to the unscrupulous bottom of the barrel claims that are wholly false. Along the way he documents the subtle misrepresentations, half and lesser truths, and exploitations of our gullibility that abound in contemporary advertising. The cases he describes are sometimes comic and sometimes shocking and infuriating. Preston's agenda is not merely to cry foul. He sees advertising as performing not only a legitimate but an important public service. It is in all our interests, therefore, to perfect and not just pillory. As he concludes, it is the time to see a way to serve society by creating a standard of personal and corporate credibility under which all advertisers, regulators, and consumers should want to live. *Court Decisions*, United States. Federal Trade Commission, 1982 **Statutes and Court Decisions, Federal Trade Commission** United States.
