Local Power Politics In Indonesia Decentralisation Democratisation:

Local Power & Politics in Indonesia Edward Aspinall, 2003-08-01 Indonesia is experiencing an historic and dramatic shift in political and economic power from the centre to the local level The collapse of the highly centralised Soeharto regime allowed long repressed local aspirations to come to the fore The new Indonesian Government then began one of the world's most radical decentralisation programmes under which extensive powers are being devolved to the district level In every region and province diverse popular movements and local claimants to state power are challenging the central authorities This book is the first comprehensive coverage on decentralisation in Indonesia It contains contributions from leading academics and policy makers on a wide range of topics relating to democratisation devolution and the blossoming of local level politics

Democratization in Post-Suharto Indonesia Marco Bunte, Andreas Ufen, 2008-08-21 This book gives an overview of the difficult and multilayered process of democratization in Indonesia since the fall of its long term autocratic ruler Suharto

Decentralization of government and forestry in Indonesia Thung, P.H., 2019-06-03 The decentralization program that Indonesia embarked on in 1998 continues to unfold through manifold sometimes contradictory processes This working paper presents a concise and up to date overview of the aims dimensions and dynamics of decentralization

The Politics of Educational Decentralisation in Indonesia Irsyad Zamjani, 2021-12-10 The Politics of Educational Decentralisation in Indonesia A Quest for Legitimacy is a well written analytically sharp and compelling study of educational decentralisation in Indonesia Irsyad Zamjani provides fresh insights into this important topic The author treats educational reform as a window into much deeper questions about power the government's responsibility to its citizens and social change in Indonesia His findings should interest academics as well as practitioners with an interest in educational reform Professor Christopher Bjork Vassar College New York This is a remarkable book which should appeal not only to Indonesian scholars but also to educationists and political scientists to name just a few By tracing the path of decentralisation in the Indonesian educational reform in the early 2000s Zamjani shows how the central and municipal governments struggled in different ways to retain control over education in their domains through various mechanisms largely related to claims of legitimacy The study is grounded in new institutional theory and the interview and case study data provide a richness and depth in showing the dynamics of reform attempts Professor Lawrence J Saha Australian National University Canberra This book discusses the dynamics of educational decentralisation in post reform Indonesia Taking sociology's new institutionalism approach and drawing upon data from documents and interviews with strategic informants the book investigates how institutional legitimacy of educational decentralisation was garnered manipulated and then contested Besides analysing global institutional pressures which influenced the national adoption of decentralisation reform and the central government's attempts to restore its legitimacy the book also offers comparative case studies of education governance in two local districts to highlight how this reform is responded to at the local level

Local Power and Politics in Indonesia Edward

Aspinall, 2003 Offering comprehensive coverage of decentralization in Indonesia this work contains contributions on a wide range of topics relating to democratization devolution and the blossoming of local level politics *Decentralization and Adat Revivalism in Indonesia* Adam D. Tyson, 2010-07-02 This book examines the dynamic process of political transition and indigenous adat revivalism in newly decentralized Indonesia Based on original fieldwork and using case studies from Sulawesi to illustrate the key arguments this book provides an overview of the key analytical concepts and a concise review of relevant stages in Indonesian history *The Internet in Indonesia's New Democracy* David T. Crouch, 2010 Three decades of authoritarian rule in Indonesia came to a sudden end in 1998 The collapse of the Soeharto regime was accompanied by massive economic decline widespread rioting communal conflict and fears that the nation was approaching the brink of disintegration Although the fall of Soeharto opened the way towards democratization conditions were by no means propitious for political reform This book asks how political reform could proceed despite such unpromising circumstances It examines electoral and constitutional reform the decentralization of a highly centralized regime the gradual but incomplete withdrawal of the military from its deep political involvement the launching of an anti corruption campaign and the achievement of peace in two provinces that had been devastated by communal violence and regional rebellion Political Regimes and the Media in Asia Krishna Sen, Terence Lee, 2008-02-25 This book analyzes the relationship between political power and the media in a range of nation states in East and Southeast Asia focusing in particular on the place of the media in authoritarian and post authoritarian regimes It discusses the centrality of media in sustaining repressive regimes and the key role of the media in the transformation and collapse of such regimes It questions in particular the widely held beliefs that the state can have complete control over the media consumption of its citizens that commercialization of the media necessarily leads to democratization and that the transnational liberal dimensions of western media are crucial for democratic movements in Asia Countries covered include Burma China Indonesia Malaysia Singapore Thailand the Philippines and Vietnam Decentralization & Its Discontents Max Lane, 2014-11-11 e Decentralization is a major trend in Indonesia since the first decades of that nation under Sukarno and Suharto Max Lane is justly treasured for illuminating those first decades for example through his translations of Pramoedya

Communal Violence and Democratization in Indonesia Gerry van Klinken, 2007-01-24 Through close scrutiny of empirical materials and interviews this book uniquely analyzes all the episodes of long running widespread communal violence that erupted during Indonesia's post New Order transition Indonesia democratized after the long and authoritarian New Order regime ended in May 1998 But the transition was far less peaceful than is often thought It claimed about 10 000 lives in communal ethnic and religious violence and nearly as many as that again in separatist violence in Aceh and East Timor Taking a comprehensive look at the communal violence that arose after the New Order regime this book will be of interest to students of Southeast Asian studies social movements political violence and ethnicity

Regime Change and Ethnic Politics in Indonesia Taufiq Tanasaldy, 2012-01-01 When the Indonesian New Order regime fell in 1998 regional politics with strong ethnic content

emerged across the country In West Kalimantan the predominant feature was particularly that of the Dayaks This surge however was not unprecedented After centuries of occupying a subordinate place in the political and social hierarchy under the nominal rule of the Malay sultanates Dayaks became involved in an enthusiastic political emancipation movement from 1945 The Dayaks secured the governorship as well as the majority of the regional executive head positions before they were shunned by the New Order regime This book examines the development of Dayak politics in West Kalimantan from the colonial times until the first decade of the 21st century It asks how and why Dayak politics has experienced drastic changes since 1945 It will look at the effect of regime change the role of the individual leaders and organizations the experience of marginalization and conflicts on the course of Dayaks politics It will also examine ethnic relations and recent political development up to 2010 in the province

Political Change and Territoriality in Indonesia Ehito Kimura, 2013-05-07 What makes large multi ethnic states hang together At a time when ethnic and religious conflict has gained global prominence the territorial organization of states is a critical area of study Exploring how multi ethnic and geographically dispersed states grapple with questions of territorial administration and change this book argues that territorial change is a result of ongoing negotiations between states and societies where mutual and overlapping interests can often emerge It focuses on the changing dynamics of central local relations in Indonesia Since the fall of Suharto's New Order government new provinces have been sprouting up throughout the Indonesian archipelago After decades of stability this sudden change in Indonesia's territorial structure is puzzling The author analyses this provincial proliferation which is driven by multilevel alliances across different territorial administrative levels or territorial coalitions He demonstrates that national level institutional changes including decentralization and democratization explain the timing of the phenomenon Variations also occur based on historical cultural and political contexts at the regional level The concept of territorial coalitions challenges the dichotomy between centre and periphery that is common in other studies of central local relations This book will be of interest to scholars in the fields of comparative politics political geography history and Asian and Southeast Asian politics

Activists in Transition Thushara Dibley, Michele Ford, 2019-12-15 Activists in Transition examines the relationship between social movements and democratization in Indonesia Collectively progressive social movements have played a critical role over in ensuring that different groups of citizens can engage directly in and benefit from the political process in a way that was not possible under authoritarianism However their individual roles have been different with some playing a decisive role in the destabilization of the regime and others serving as bell weathers of the advancement or otherwise of Indonesia's democracy in the decades since Equally important democratization has affected social movements differently depending on the form taken by each movement during the New Order period The book assesses the contribution that nine progressive social movements have made to the democratization of Indonesia since the late 1980s and how in turn each of those movements has been influenced by democratization

Bureaucracy and Development Diana Suhardiman, 2016-05-13 The fall of the New

Order government in 1998 and the political reform that followed posed substantial challenges for Indonesia's bureaucracy to continue fulfilling its mandate. This book analyses the process of bureaucratic reform in the irrigation sector. Using Irrigation Management Transfer policy as the entry point for analysis, it documents and analyses the irrigation bureaucracy's ability to sustain its power and prominence in the sector's development amidst and against national and international pressures for reform. The book argues that bureaucratic reform in the irrigation sector rather than attempting to change the bureaucracy's functioning in the image of national and global good governance perspectives and priorities should instead focus on linking the irrigation bureaucracy's everyday practice more effectively with farmers' needs and aspirations. Reform efforts of the past decades show that Indonesia's irrigation sector development cannot be redirected without the irrigation bureaucracy's knowledge, experience and cooperation and without strengthening its downward accountability to farmer irrigators. (Un) Civil Society and Political Change in Indonesia Verena Beittinger-Lee, 2013-01-11. Un Civil Society and Political Change in Indonesia provides critical analysis of Indonesia's civil society and its impact on the country's democratization efforts that does not only take the classical pro-democratic actors of civil society into account but also portrays uncivil groups and their growing influence on political processes. Beittinger-Lee offers a revised categorization of civil society including a model to define the sphere of uncivil society more closely and to identify several subcategories of uncivil society. This is the first book to portray various uncivil groups in Indonesia ranging from vigilantes, militias, paramilitaries, youth groups, civil security task forces and militant Islamic and other religious groups, ethnonationalist groups to terrorist organizations and groups belonging to organized crime. Moreover, it provides the reader with an overview of Indonesia's history, its political developments after the democratic opening, main improvements under the various presidents since Suharto's fall, constitutional amendments and key reforms in human rights legislation. This book will be of interest to upper level undergraduates, postgraduates and academics in political science and Southeast Asian studies. *The Revival of Tradition in Indonesian Politics* Jamie Davidson, David Henley, 2007-03-12. This important resource provides detailed coverage of the growing significance of adat in Indonesian politics. It identifies its origins, the historical factors that have conditioned it and the reasons behind its recent blossoming. **Indonesia, Law and Society** Timothy Lindsey, 2008. Since the first edition, Indonesia has undergone massive political and legal change as part of its post-Soeharto reform process and its dramatic transition to democracy. This work contains 25 new chapters and the 4 surviving chapters have all been revised where necessary. Indonesia Law and Society now covers a broad range of legal fields and includes both historical and very up-to-date analyses and views on Indonesian legal issues. It includes work by leading scholars from a wide range of countries. There is still no comparable English language text in existence.
