Portraits: 9/11/01 The New York Times,2003-08 Presents portraits of the people whose lives were lost in the September 11 attack on the World Trade Center as published in The New York Times including four hundred additional portraits published since February 2002 *Al Smith: Hero of the Cities (A Political Portrait Drawing on the Papers of Frances Perkins)* Matthew Josephson,Hannah Josephson,2019-10-28 Al Smith 1873 1944 was born and grew up in New York s Lower East Side slums and got his start in politics under Tammany Hall sponsorship Frances Perkins was a New Englander a trained social worker who became a public figure when Smith appointed her to the New York State Industrial Commission They shared a concern for working people and a love for the Empire State which Smith served as governor for four precedent breaking terms between 1919 and 1928 after serving in the New York State Assembly between 1904 and 1915 as a member and later as Speaker Smith considered himself an Assemblyman His record as governor is based on the solid understanding of politics he acquired in those years It was also fostered by his encounter at a decisive stage with a group of reformers and social workers including Belle Moskowitz who became his chief political strategist Smith s own great contribution was to show how reform could be made practicable As governor Smith fought a running battle with an obstructive legislature he

was able to reorganize New York State's sprawling executive departments protect women and children in industry strengthen workmen's compensation laws and shorten their working hours stop the handouts of state resources to private companies and expand recreational areas for the benefit of the public He cut taxes while building hospitals schools and low cost housing developments When the legislature balked he appealed to the people on radio and they responded with avalanches of letters and telegrams to their representatives The dauntless spirit with which he battled his adversaries earned him the title The fighting Governor After his defeat for the Presidency in 1928 Smith was able to hand on to his successor a comparatively inexperienced politician named Franklin D Roosevelt a working state government and a blueprint for social reform which Roosevelt would put to good use At the time of her death in 1965 Frances Perkins was working on a book about Al Smith as she knew him Her notes the few chapters she had written and the oral history she recorded for Columbia University were turned over to Matthew and Hannah Josephson who used them and their own exhaustive research to write this biography The Josephsons both authors in their own right were invited to complete the unfinished biography of Smith that Frances Perkins left behind at her death in 1965 Finding only a rather bare start they ended up writing it 90% themselves The sections on Smith's early years provide a delightful picture of the Old East Side and a thriving Tammany Hall A happily executed portrait of an eminent and engaging American Kirkus Reviews The most thorough study yet available of Smith's career and one that also pays considerable attention to Frances Perkins contributions to reform during the Progressive period and during Smith's gubernatorial administrations a useful biography of Al Smith Joel A Tarr The American Historical Review The book reflects the warmth and vigour of its subject The book's principal contribution is its emphasis on Smith's tremendous effectiveness both as a party leader and as a reformer His quarter century of almost continuous success was founded on exceptional memory intense application a sharp wit and shrewd appeals to the people His enduring monuments are his reform of the state administration his fight against the utilities and his work in housing conservation and social reform Michael Simpson History The Josephsons political portrait is of a man who was at one and the same time an ambitious and successful politician who could skillfully manipulate the party system reward friends and punish enemies hold personal grudges yet temper his actions with genuine humanistic concern for the welfare of the first and second generation immigrants for whom he was both spokesman and symbol John L Shover The Pacific Northwest Quarterly The Josephsons biography is comprehensive providing careful and discerning detail about Smith's life and career William W Bremer The Wisconsin Magazine of History

of Missourians who served out of state and the process of reunion in the postwar years Fly leaf *Eating Smoke* Mark Tebeau, 2012-09-01 During the period of America's swiftest industrialization and urban growth fire struck fear in the hearts of city dwellers as did no other calamity Before the Civil War sweeping blazes destroyed more than 200 million in property in the nation's largest cities Between 1871 and 1906 conflagrations left Chicago Boston Baltimore and San Francisco in ruins Into the twentieth century this dynamic hazard intensified as cities grew taller and more populous confounding those who battled it Firefighters death defying feats captured the popular imagination but too often failed to provide more than symbolic protection Hundreds of fire insurance companies went bankrupt because they could not adequately deal with the effects of even smaller blazes Firefighters and fire insurers created a physical and cultural infrastructure whose legacy in the form of heroic firefighters insurance policies building standards and fire hydrants lives on in the urban built environment In *Eating Smoke* Mark Tebeau shows how the changing practices of firefighters and fire insurers shaped the built landscape of American cities the growth of municipal institutions and the experience of urban life Drawing on a wealth of fire department and insurance company archives he contrasts the invention of a heroic culture of firefighters with the rational organizational strategies by fire underwriters Recognizing the complexity of shifting urban environments and constantly experimenting with tools and tactics firefighters fought fire ever more aggressively eating smoke when they ventured deep into burning buildings or when they scaled ladders to perform harrowing rescues In sharp contrast to the manly valor of firefighters insurers argued that the risk was quantifiable measurable and predictable Underwriters managed hazard with statistics maps and trade associations and they eventually agitated for building codes and other reforms which cities throughout the nation implemented in the twentieth century Although they remained icons of heroism firefighters cultural and institutional authority slowly diminished Americans had begun to imagine fire risk as an economic abstraction By comparing the simple skills employed by firefighters climbing ladders and manipulating hoses with the mundane technologies maps and accounting charts of insurers the author demonstrates that the daily routines of both groups were instrumental in making intense urban and industrial expansion a less precarious endeavor *Firefighters in Art and Media* John Albert Walker, 2005 **New York Magazine**, 1994-06-27 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **The Daguerreian Annual**, 1997 **A Life in the American Century** Joseph S. Nye, Jr., 2023-12-19 For the past eight decades we have lived in the American Century a period during which the US has enjoyed unrivalled power be it political economic or military on the global stage Born on the cusp of this new era Joseph S Nye Jr has spent a lifetime illuminating our understanding of the changing contours of America power and world affairs His many books on the nature of

power and political leadership have rightly earned him his reputation as one of the most influential international relations scholars in the world today In this deeply personal book Joseph Nye shares his own journey living through the American century From his early years growing up on a farm in rural New Jersey to his time in the State Department Pentagon and Intelligence Community during the Carter and Clinton administrations where he witnessed American power up close shaping policy on key issues such as nuclear proliferation and East Asian security After 9 11 drew the US into wars in Iraq and Afghanistan Nye remained an astute observer and critic of the Bush Obama and Trump presidencies Today American primacy may be changing but he concludes with a faint ray of guarded optimism about the future of his country in a richer but riskier world Also available as an audiobook Portrait and Biographical Record of the Willamette Valley, Oregon ,1903 **The Courier** ,1978 *Fire and Water* ,1898 **Warwick** Donald A. D'Amato,2001 Although known as the retail capital of Rhode Island Warwick is much more than a conglomeration of shopping centers malls and industrial parks it is a city marked by an extraordinary history and in many ways serves as a mirror of the American experience Like many communities across the United States Warwick developed from a rural hamlet into a town distinguished by a variety of industries in the nineteenth century attracting immigrants from across the globe desiring a new beginning within its mill villages These industries brought wealth and opportunity and paved the way for Warwick s transformation from small town to cosmopolitan center Warwick A City at the Crossroads is not a stale chronology but is a work that breathes new life into the memorable characters and events that shaped the community s history over the past four centuries Taking readers on an exciting journey through Warwick s past this unique illustrated history begins with the first Narragansett Indian tribes that hunted amidst the virgin wilderness and details an evolving landscape touched by colonial settlement wars storms depressions resort development and industrialization up through the present day However the true measure of a community is in its people and Warwick possesses a remarkable cast of colorful characters such as controversial city father Samuel Gorton Revolutionary War heroes Nathanael Greene and James Varnum textile magnate Robert Knight and scores of other distinct personalities ranging from privateers and bootleggers to feared political bosses and industrial giants **Publishers' Circular and Booksellers' Record of British and Foreign Literature** ,1882 *The Illustrated London News* ,1866 Hampton's Magazine ,1911 San Antonio on Parade Judith Berg-Sobré,2003 Recounts the events of six historic festivals in San Antonio Texas at the end of the nineteenth century describing each event s pageantry parades competitions and participants
