Lock On No 8 McDonnell Douglas F 4e Phantom II:

Modelling the F-4 Phantom II Geoff Coughlin, Neil Ashby, 2012-05-20 The Phabulous Phantom first took to the air on 27 May 1958 and has been in service around the world for many decades The United States the United Kingdom Australia Egypt Germany Greece Iran Israel Japan South Korea Spain and Turkey have all operated this powerful aircraft The Phantom starred in both the Vietnam War and Operation Desert Storm and in its service career has flown every traditional military mission With many F 4 variants in service from FG 1s to Wild Weasels and some 25 scale model kits currently available the possibilities for modelling this subject are endless One of the few guides available on this model this book provides an in depth and step by step approach to modelling this plane across a variety of scales types and national schemes [Iran Iraq Naval War](#) Tom Cooper, E.R. Hooton, Farzin Nadimi, Milos Sipos, 2024-07-04 Draws upon unique access to Iranian naval archives and examines in detail the naval war between 1981 and early 1984 Well away from the major battlefields on the ground in the Iran Iraq War and hidden from the gaze of the curious public the navies and air forces of the two belligerents contested the waters of the Persian or Arabian Gulf This naval aspect of the war still remains largely unknown and hugely underreported in the West other than in terms of the Tanker War and the impact upon international shipping Yet this was a war in which Iran and Iraq pitted the best technologies available to them bought from the world's leading arms manufacturers and exporters against each other's vital oil production and exports and against vital maritime lifelines Iran in particular relied upon caravans of shipping to import raw materials provide logistic support to the land war and to export oil based products Iraq would make the first and by far most extensive combat use of the famous Exocet anti ship missile long before its first claimed use by Argentina in the Falklands Malvinas War and would make extensive use of French sourced electronic warfare capabilities and Soviet anti radiation missiles Iran would make the first combat use of the F 14 Tomcat and its associated AIM 54 Phoenix air to air missile and would be the first to launch the RGM 84 Harpoon surface to surface missile in anger Far from being a backwater this was the testing ground for many cutting edge technologies Volume 2 of Iran Iraq Naval War draws upon unique access to Iranian naval archives and examines in detail the naval war between 1981 and early 1984 as Iraq struggled to defeat Iran's highly organized maritime caravans how each side experienced successes and failures in the employment of new technologies and their efforts to counter these This book is illustrated throughout with original photographs many in color and never previously published in the West and with specially commissioned color maps and the War series signature color artworks showing the ships and aircraft employed in this war *Hitler's Luftwaffe* Tony Wood, Bill Gunston, 1977 This is a pictorial history and technical encyclopedia of Hitler's air power in WW II [Defense & Foreign Affairs Handbook](#), 1999 **Congressional Record** United States. Davies,2013-04-20 A definitive technical guide to the USAF and foreign variants of the McDonnell Douglas F4 Phantom In many respects the most successful versatile and widely used combat aircraft of the post war era the F 4 Phantom II was quickly adopted by the USAF after its spectacular US Navy introduction Its introduction to USAF squadrons happened just in time for the Vietnam conflict where USAF F 4Cs took over MiG fighting duties from the F 100 Super Sabre Although the F 4 was never intended as a dog fighter to tangle with light nimble gun armed MiGs it was responsible for destroying 109 MiGs in aerial combat At the end of their careers many of the survivors from the 3 380 land based Phantoms were converted into target drones for training purposes New aircraft were also built for West Germany Iran and Israel As Peter Davies outlines in this illustrated history the USAF s experience with the Phantom showed clearly that the air to air fighter was still a necessity Its decision to fund its successor the McDonnell Douglas F 15 Eagle as well as the F 16 Fighting Falcon and F 22A Raptor was heavily influenced by the lessons of US and other Phantom pilots in combat USN McDonnell Douglas F-4 Phantom II Peter E. Davies,2016-03-24 Originally designed as a carrier borne long range interceptor armed with radar guided missiles and tasked with defence against missile launching bombers the Phantom II went on to establish itself as one of the most important multi role fighter attack and reconnaissance aircraft of the 20th century Arguably the United States most important aircraft in the Vietnam War where it played the role of workhorse as well as being a deadly MiG interceptor the Phantom was also a mainstay of Atlantic Fleet operations intercepting Soviet bomber and reconnaissance aircraft and turning them away from the carrier groups at the height of the Cold War This book reveals the design and development history of the naval Phantom its variants and the exported designs adopted by other NATO countries Packed with illustrations photographs and first hand accounts it provides a technical history of one of the most famous aircraft ever built *McDonnell Douglas, F-4e/Ej/F/G/Rf-4e Phantom II.
