Logical Fictions Tools For Learning The Facts:

Logical Fictions Frederick Bauer, 2007-12 The media bombard us with claims that are often strange unclear and even upsetting Quantum physicists claim that vacuum nothingness is not really nothing because it teems with energy and virtual particles Psychological research suggests that most of our neighbors suffer from some degree of mental disorder Social scientists assure us that science itself is simply a cultural myth Can anyone sort out fact from fiction in today's world The answer thankfully is Yes But first you must make a radical shift in your approach because serious thinking about reality involves serious thinking about fiction not only in your everyday mind but also in the scholarly and technical realms For anyone who has ever wondered and you should wonder whether there really are such things as government society the economy or even marriage the deeply philosophical and utterly practical Logical Fictions shows you how a solid grounding in logic and language can help you avoid getting trapped by the ideological fictions prevalent in today's sophisticated world Consider yourself warned humorous and filled with entertaining examples this book will stretch your brain and provoke your thoughts Your view of the world may never be the same

Why Control Your Imagination? Frederick Bauer, 2012-04 The Western Tradition is that humans are partially spiritual beings with an immortal destiny This tradition is under heavy attack most of all perhaps from neuroscience According to Richard Watson biographer of Descartes the future looks like this When humankind finally faces the fact that the mind is the brain that there is no independently existing mental soul to survive the death of the body that none of us chirpy sparrows is immortal then there will be a revolution in human thought the like of which none has gone before That prediction is based on contemporary materialism according to which the only scientific account of human origins is Darwin's evolutionist account That is a double error based on pre scientific naive realism a view Einstein called a plebeian illusion and based on a pre scientific naive realist answer to the question What is a human being Why Control Your Imagination is a methodical dissection of those two errors followed by a scientific presentation of the Tradition's truths

The Lie That Tells a Truth John Dufresne, 2011-10-10 This is the most practical hard nosed generous direct and useful guide to writing fiction Brad Watson Finally a truly creative and hilarious guide to creative writing full of encouragement and sound advice Provocative and reassuring nurturing and wise The Lie That Tells a Truth is essential to writers in general fiction writers in particular beginning writers serious writers and anyone facing a blank page John Dufresne teacher and the acclaimed author of *Love Warps the Mind* a Little and Deep in the Shade of Paradise demystifies the writing process Drawing upon the wisdom of literature's great craftsmen Dufresne's lucid essays and diverse exercises initiate the reader into the tools processes and techniques of writing inventing compelling characters developing a voice creating a sense of place editing your own words Where do great ideas come from How do we recognize them How can language capture them In his signature comic voice Dufresne answers these questions and more in chapters such as Writing Around the Block Plottery and The Art of Abbreviation Dufresne demystifies the writing process showing that while the idea

of writing may be overwhelming the act of writing is simplicity itself

Truth in Fiction John Woods, 2018-02-23 This monograph examines truth in fiction by applying the techniques of a naturalized logic of human cognitive practices The author structures his project around two focal questions What would it take to write a book about truth in literary discourse with reasonable promise of getting it right What would it take to write a book about truth in fiction as true to the facts of lived literary experience as objectivity allows It is argued that the most semantically distinctive feature of the sentences of fiction is that they are unambiguously true and false together It is true that Sherlock Holmes lived at 221B Baker Street and also concurrently false that he did A second distinctive feature of fiction is that the reader at large knows of this inconsistency and isn't in the least cognitively molested by it Why it is asked would this be so What would explain it Two answers are developed According to the no contradiction thesis the semantically tangled sentences of fiction are indeed logically inconsistent but not logically contradictory According to the no bother thesis if the inconsistencies of fiction were contradictory a properly contrived logic for the rational management of inconsistency would explain why readers at large are not thrown off cognitive stride by their embrace of those contradictions As developed here the account of fiction suggests the presence of an underlying three or four valued dialethic logic The author shows this to be a mistaken impression There are only two truth values in his logic of fiction The naturalized logic of Truth in Fiction jettisons some of the standard assumptions and analytical tools of contemporary philosophy chiefly because the neurotypical linguistic and cognitive behaviour of humanity at large is at variance with them Using the resources of a causal response epistemology in tandem with the naturalized logic the theory produced here is data driven empirically sensitive and open to a circumspect collaboration with the empirical sciences of language and cognition

The Magic of Truth Farah Dally,2014-11-10 Questions of truth have occupied philosophers scientists and theologians throughout human history What is truth Does it exist How do we define truth Who determines what is true and what is not The Magic of Truth defends the relativity of truth by examining its role in literature the arts and science as well as in our own lives and traditions The product of intensive research on the idea of truth and the secret meaning it holds Farah Dally argues that no field of study can progress without calling into question the traditional view of truth as a clear objective image

Fact, Fiction & Family Mary L. Currier,2010-06-09 This is a true story of a familys attempt at working together to care for aging parents It involves four adult siblings two parents some anger resentment love and joy There are tears astonishment sleepless nights laughter and a whole lot of conflict quiet and otherwise Mary L Currier shares her insight beliefs and professional experiences to normalize conflict between adult siblings She explains that families are often no strangers to conflict Rather they may be strangers to managing that conflict Or perhaps its more of an unwillingness to slip into the deeper crevices of those sticky issues that form the patterns of communication therefore creating conflict Either way there is often a deeply imbedded cycle of poor communication that courses through family veins Youd think that blood relatives would have a comparatively easy time sorting out issues of conflict Youd think that four siblings would share similarities in problem solving techniques That is not the case in this family What first appeared as a moderate challenge evolved into a lifelong lesson requiring patience self understanding unconditional love and an unending supply of forgiveness As anxiety Alzheimers depression and cancer come out from behind the shadows each family member acts or reacts as only they can with the skills they have cultivated Does that work for them Not always This is a wonderful tool for adult siblings thinking about how they will sustain their relationships with one another as they venture into the care giving process Mary even offers troubleshooting guidance in an effort to improve skills in communications and conflict resolution in hopes of sustaining adult sibling relationships

Resources in Education ,1995 Truth to Post-Truth in American Detective Fiction David Riddle Watson,2021-10-25 Truth to Post Truth in American Detective Fiction examines questions of truth and relativism turning to detectives both real and imagined from Poe s C Auguste Dupin to Robert Mueller to establish an oblique history of the path from a world where not believing in truth was unthinkable to the present where it is common to believe that objective truth is a remnant of a simpler more na ve time Examining detective stories both literary and popular including hard boiled postmodern and twenty first century novels the book establishes that examining detective

fiction allows for a unique view of this progression to post truth since the detective's ultimate job is to take the reader from doubt to belief David Riddle Watson shows that objectivity is intersubjectivity arguing that the belief in multiple worlds is ultimately what sustains the illusion of relativism

Fuzzy Logic , Founded in Fiction Thomas Koenigs, 2021-06-15 An original account of the importance of diverse forms of fiction in the early American republic one that challenges the rise of the novel narrative What is the use of fiction This question preoccupied writers in the early United States where many cultural authorities insisted that fiction reading would mislead readers about reality Founded in Fiction argues that this suspicion made early American writers especially attuned to one of fiction's defining but often overlooked features its fictionality Thomas Koenigs shows how these writers explored the unique types of speculative knowledge that fiction could create as they sought to harness different varieties of fiction for a range of social and political projects Spanning the years 1789 1861 Founded in Fiction challenges the rise of novel narrative that has long dominated the study of American fiction by highlighting how many of the texts that have often been considered the earliest American novels actually defined themselves in contrast to the novel Their writers developed self consciously extranovelistic varieties of

fiction as they attempted to reform political discourse shape women's behavior reconstruct a national past and advance social criticism Ambitious in scope Founded in Fiction features original discussions of a wide range of canonical and lesser known writers including Hugh Henry Brackenridge Royall Tyler Charles Brockden Brown Leonora Sansay Catharine Maria Sedgwick Edgar Allan Poe Robert Montgomery Bird George Lippard Harriet Beecher Stowe Frederick Douglass and Harriet Jacobs By reframing the history of the novel in the United States as a history of competing varieties of fiction Founded in Fiction shows how these fictions structured American thinking about issues ranging from national politics to gendered authority to the intimate violence of slavery
