Victorian Visions of Suburban Utopia

Nathaniel Robert Walker,2020-11-17 The rise of suburbs and disinvestment from cities have been defining features of life in many countries over the course of the twentieth century In Victorian Visions of Suburban Utopia Nathaniel Walker asks why did we abandon our dense complex urban places and seek to find the best of the city and the country in the flowery suburbs While looking back at the architecture and urban design of the 1800s offers some answers Walker argues that a great missing piece of the story can be found in Victorian utopian literature The replacement of cities with high tech suburbs was repeatedly imagined and breathlessly described in the socialist dreams and science fiction fantasies of dozens of British and American authors Some of these visionaries such as Robert Owen Edward Bulwer Lytton Edward Bellamy William Morris Ebenezer Howard and H G Wells are enduringly famous while others were street vendors or amateur chemists who have been all but forgotten Together they fashioned strange and beautiful imaginary worlds built of synthetic gemstones lacy metal colonnades and unbreakable glass staffed by robotic servants and teeming with flying carriages As varied as their futuristic visions could be Walker reveals how most of them were unified by a single desperate plea for humanity to have a future worth living we must abandon our smoky poor chaotic Babylonian cities for a life in shimmering gardens

Cities of God David Gange,Michael Ledger-Lomas,2013-10-17

The history of archaeology is generally told as the making of a secular discipline In nineteenth century Britain however archaeology was enmeshed with questions of biblical authority and so with religious as well as narrowly scholarly concerns In unearthing the cities of the Eastern Mediterranean travellers archaeologists and their popularisers transformed thinking on the truth of Christianity and its place in modern cities This happened at a time when anxieties over the unprecedented rate of urbanisation in Britain coincided with critical challenges to biblical truth In this context cities from Jerusalem to Rome became contested models for the adaptation of Christianity to modern urban life Using sites from across the biblical world this book evokes the appeal of the ancient city to diverse groups of British Protestants in their arguments with one another and with their secular and Catholic rivals about the vitality of their faith in urban Britain
