London River Henry Major Tomlinson,1921 **London's Hidden Rivers** David Fathers,2024-10-24 A fantastic guide to exploring the hidden rivers of London London has many rivers but they are often hidden under centuries of development Rivers like the Walbrook the Fleet or the Effra have left their mark on the city and still form an important part of our subterranean world From the former watering hole by the Earl s Sluice where Canterbury pilgrims rested David Bowie rehearsed and Henry Cooper trained to the Gardens by the Westbourne where a young Mozart performed From Counter s Creek and its burial grounds of Kensal Green and Brompton to the River Effra and the West Norwood cemetery From the pipe carrying the River Tyburn over Baker Street Underground station to the grate in Farringdon through which the River Fleet can be heard and seen David Fathers shows the course of London s hidden rivers in a series of detailed guided walks illustrating the traces they have left and showing the ways they have shaped the city Each walk starts at the tube or rail station nearest to the source of the river and then follows it down to the Thames through parkland suburbia historic neighbourhoods and the vestiges of our industrial past London s Hidden Rivers contains over 120km of walks both north and south of the Thames Winding through the hills valleys and marshes that underlie the city every page is a revelation **The History of British Women's Writing, 1920-1945** M. Joannou,2016-01-03 Featuring sixteen contributions from recognized authorities in their respective fields this superb new mapping of women s writing ranges from feminine middlebrow novels to Virginia Woolf s modernist aesthetics from women s literary journalism to crime fiction and from West End drama to the literature of Scotland Ireland and Wales **The British Invasion of the River Plate, 1806-1807** Ben Hughes,2013-10-17 In 1806 a British expeditionary force captured Buenos Aires Over the next eighteen months Britain was sucked into a costly campaign on the far side of the world The Spaniards were humbled on the battlefield and Montevideo was taken by storm but the campaign ended in disaster when 6000 redcoats and riflemen surrendered following a bloody battle in the streets of the Argentine capital So ended one of the most humiliating and neglected episodes of the entire Napoleonic Wars In The British Invasion of the River Plate Ben Hughes tells the story of this forgotten campaign in graphic detail His account is based on research carried out across two continents It draws on contemporary newspaper reports official documents and the memoirs letters and journals of the men who were there He describes the initially successful British invasion which was stopped when their troops were surrounded in Buenos Aires main square and forced to surrender and the second British attack which was eventually defeated too His narrative covers the course of the entire campaign and its aftermath While focusing on the military and political aspects of the campaign his book gives an insight into the actions of the main protagonists William Carr Beresford Sir Home Popham Santiago de Liniers and Black Bob Craufurd and into the experiences of the forgotten rank and file He also considers the long term impact of the campaign on the fortunes of the opposing sides Many of the British survivors went on to win glory in the Peninsular War For the Uruguayans and Argentines their victory gave them a sense of

national pride that would eventually encourage them to wrest their independence from Spain

The Poetry Toolkit: The Essential Guide to Studying Poetry Rhian Williams, 2013-01-17 With examples from an extensive range of poets from Chaucer to today The Poetry Toolkit offers simple and clear explanations of key terms genres and concepts that enable readers to develop a richer more sophisticated approach to reading thinking and writing about poems Combining an easy to use reference format defining and illustrating key concepts forms and topics with in depth practice readings and further exercises the book helps students master the study of poetry for themselves Now in its second edition The Poetry Toolkit includes a wider range of examples from contemporary poetry and more American poetry In addition an extended close reading section now offers practice comparative readings of the kind students are most likely to be asked to undertake as well as readings informed by contemporary environmental and urban approaches The book is also supported by extensive online resources including podcasts weblinks guides to further reading and advanced study guides to reading poetry theoretically

Unmarking Whiteness and the New American Racism Michael L. Blakey, 2025-07-18 This book criticizes recent performative solutions to racism diversity programs at universities for example and White people's Fragility or intolerance of mature criticism These ideas are locked in an intellectually gated and defensive conversation that effectively denies the ongoing particular abuses of White supremacy This book instead proposes expensive educational and economic changes including reparations as necessary to achieve real equity Once imputed by the eugenical

effects of World War II and the Civil Rights Movement's opposition to White racism the word race was largely stricken from scientific writing But biological determinism remained deeply ensconced in an institution of science that assumed the natural world to be determining making natural science its most authoritative means Authoritative heritability estimates and genetic correlations though spurious continued to imply that obvious racial and class inequalities including their dire health effects were natural and acceptable White people often attempted to unmark their racial identity and assumed that of the uniquely normal people as though an act of anti racism Frankenberg shows On the contrary it served to deny their skin color privileges while enjoying benefits of ongoing structural racism as the only real complete human beings in the room This book uses an ethnology of anthropology to show White people's equivocal views of other's equality in their formal analyses museum collections and exhibitions and treatment of colleagues in recent times They remained deliberately deaf to critical African diasporic scholarship Thus *Unmarking* gives an anthropological analysis of the social history of White supremacy and shows what it is like for some to confront it In constructing this historical and sociological counternarrative the author provides a critical new social history that illuminates a tangled and turgid past for contemporary readers students and researchers with vital insights for anthropology sociology history cultural studies philosophy and American studies

The Victorian Art School Ranald Lawrence, 2020-09-02 *The Victorian Art School* documents the history of the art school in the nineteenth century from its origins in South Kensington to its proliferation through the major industrial centres of Britain Charles Rennie Mackintosh's Glasgow School of Art together with earlier examples in Manchester and Birmingham demonstrate an unprecedented concern for the provision of plentiful light and air amidst the pollution of the Victorian city As theories of design education and local governance converged they also reveal the struggle of the provincial city for cultural independence from the capital Examining innovations in the use of new technologies and approaches in the design of these buildings *The Victorian Art School* offers a unique and explicitly environmental reading of the Victorian city It examines how art schools complemented civic Improvement programmes their contribution to the evolution of art pedagogy the tensions that arose between the provincial schools and the capital and the role they would play in reimagining the relationship between art and public life in a rapidly transforming society The architects of these buildings synthesised the potential of art with the perfection of the internal environment indelibly shaping the future cultural life of Britain

Africa in Scotland, Scotland in Africa , 2014-09-25 *Africa in Scotland Scotland in Africa* provides scholarly interdisciplinary analysis of the historical and contemporary relationships links and networks between Scotland Africa and the African diaspora The book interrogates these links from a variety of perspectives historical political economic religious diplomatic and cultural and assesses the mutual implications for past present and future relationships The socio historical connection between Scotland and Africa is illuminated by the many who have shaped the history of African nationalism education health and art in respective contexts of Africa Britain the Caribbean and the USA The book contributes to the empirical theoretical and

methodological development of European African Studies and thus fills a significant gap in information interpretation and analysis of the specific historical and contemporary relationships between Scotland Africa and the African diaspora Contributors are Afe Adogame Andrew Lawrence Esther Breitenbach John McCracken Markku Hokkanen Olutayo Charles Adesina Marika Sherwood Caroline Bressey Janice McLean Evelyn Nicodemus Kristian Romare Oluwakemi Adesina Elijah Obinna Damaris Seleina Parsitau Kweku Michael Okyerefo Musa Gaiya and Jordan Rengshwat Vicky Khasandi Telewa Kenneth Ross Magnus Echtler and Geoff Palmer Turbulent Afghanistan Pamir Halimzai Sahill, 2023-09-22 This book explores the what the why and the how of the Taliban takeover of Afghanistan almost 20 years after their removal from power It examines how the U S discourses on War on Terror and state building in Afghanistan have taken shape became dominant over the past two decades and to delineate their consequences Also it highlights how both discourses are representative of wider depoliticization of the society and eventually paved the way for the illiberal oppressive politics of confinement and necropolitics The volume will be of great interest to scholars and researchers of politics and international relations U S foreign policy peace and conflict studies area studies especially West Asian and South Asian studies

Anthropology and Slavery at the Dawn of White Supremacy Michael L. Blakey, 2025-07-18 This volume examines biological and cultural data that debunk a primordial basis for racism It tracks the ancient history of all social inequity to agricultural and feudal societies The book then focuses on social and ideological developments in European societies associated with religious justifications for the enslavement of others The European Enlightenment built upon those prejudices with ideas about nature and acceptable natural causes of unequal social status for people newly classified into biological races Nineteenth century anthropology is critiqued by African diasporic scholars who are the first Americans to argue that nurture rather than nature is responsible for human variation The American Civil War brought slavery nearly to an end but racist science continued to grow as eugenics applied to justify otherwise unjustifiable structures of human inequality such as Jim Crow segregation as though they are morally sound In constructing this historical and sociological counternarrative the author provides a critical new social history that illuminates a tangled and turgid past for contemporary readers students and researchers with vital insights for anthropology sociology history cultural studies philosophy and American studies Racial Segregation and Eugenical Science Between the Wars Michael L. Blakey, 2025-07-18 This volume examines the rise and decline of racial science and its relationship to the political and social imposition of Jim Crow in the American South a racialized code of laws grounded upon an inherently racist and prejudicial pseudoscience The author argues here that the study of human beings within the emerging 18th and 19th century institutions of Western science was corrupted by the limited social intuitions of its enslaving colonizing and elitist members Western science and White societies plowed forward in continued ideological adherence to a biodeterministic imagination to justify slavery then Jim Crow racial segregation immigration restriction and other deadly and exploitative eugenical solutions of Social Darwinist thought The

story is further complexified by the countervailing theories and voices of Black and Jewish intellectuals in the social and biocultural sciences in the 19th and 20th centuries such as Frederick Douglass W E B Du Bois and Montague Cobb These had profound consequences not only for the social sciences but also for the cultural life of Black Americans in the aftermath and afterlife of slavery At the same time even here the author discloses that the racialized dimensions of social science could not be fully exorcised as social science continued to construct soft line racism in that it selectively primitivized darker people and omitted White racism and colonialism from their human story African American social scientists and historians brought White racism and Black modernity to the fore Eugenics had begun to paint marginal White people Jewish and Italian immigrants to the United States as natural inferiors to Nordics or Aryans with devastating consequences in World War II Europe As the War ended the world community began its turn against racism in science and society In constructing this historical and sociological counternarrative the author provides a critical new social history that illuminates a tangled and turgid past for contemporary readers students and researchers with vital insights for anthropology sociology history cultural studies philosophy and American studies

Discourse Jean-Paul Metzger,2019-05-29 Discourse is not just a means of expressing thought it is also an autonomous body an act through which we aim to achieve a certain effect Modern linguistics proposes a broader definition of discourse as a discrete and unique enunciative process where the speaker or author makes language concrete through speech in the Saussurian sense and describes the various acts oral illocutionary perlocutionary that discourse performs This book examines discourse an object of analysis and criticism from a wide range of perspectives Among the concepts explored are the contributions of rhetoric in the art of discourse the evolution of multiple approaches and the main methods of discourse analysis conducted by a variety of researchers The book deepens our knowledge and understanding of discourse a concept on which any research related to information and communication can be based

Cherokee Power Kristofer Ray,2023-09-26 In 1754 South Carolina governor James Glen observed that the Tennessee River has its rise in the Cherokee Nation and runs a great way through it While noting the prodigious extent of the corridor connecting the Tennessee Ohio and Wabash River valleys and the Cherokees undoubted ownership of this watershed Glen and other European observers were much less clear about the ambitions and claims of European empires and other Indigenous polities regarding the North American interior In Cherokee Power Kristofer Ray brings long overdue clarity to this question by highlighting the role of the Overhill Cherokees in shaping imperial and Indigenous geopolitics in seventeenth and eighteenth century America As Great Britain and France eyed the Illinois country and the Tennessee Ohio and Wabash River valleys for their respective empires the Overhill Cherokees were coalescing and maintaining a conspicuous presence throughout the territory Contrary to the traditional narrative of westward expansion the Europeans were not the drivers behind the ensuing contest over the Tennessee corridor The Overhills traded negotiated and

fought with other Indigenous peoples along this corridor in the process setting parameters for European expansion Through the eighteenth century the British and French struggled to overcome a dissonance between their visions of empire and the reality of Overhill mobility and sovereignty a struggle that came to play a crucial role in the Anglo American revolutionary debate that dominated the 1760s and 1770s By emphasizing Indigenous agency in this rapidly changing world Cherokee Power challenges long standing ideas about the power and reach of European empires in eighteenth century North America

The Encyclopedia of the British Press, 1422-1992 Dennis Griffiths, 1992 Lists in an encyclopaedic format all the information available about the British Press This book provides bibliographic entries on major journalistic figures as well as a chronicle of available newspapers and a summary of trade terminology used *Policing Intimacy* Jenna Grace Sciuto, 2021-04-22 In *Policing Intimacy* Law Sexuality and the Color Line in Twentieth Century Hemispheric American Literature author Jenna Grace Sciuto analyzes literary depictions of sexual policing of the color line across multiple spaces with diverse colonial histories Mississippi through William Faulkner s work Louisiana through Ernest Gaines s novels Haiti through the work of Marie Chauvet and Edwidge Danticat and the Dominican Republic through writing by Julia Alvarez Junot Diaz and Nelly Rosario This literature exposes the continuing coloniality that links depictions of US democracy with Caribbean dictatorships in the twentieth century revealing a set of interrelated features characterizing the transformation of colonial forms of racial and sexual control into neocolonial reconfigurations A result of systemic inequality and large scale historical events the patterns explored herein reveal the ways in which private relations can reflect national occurrences and the intimate can be brought under public scrutiny Acknowledging the widespread effects of racial and sexual policing that persist in current legal economic and political infrastructures across the circum Caribbean can in turn bring to light permutations of resistance to the violent discriminations of the status quo By drawing on colonial documents such as early law systems like the 1685 French Code Noir instated in Haiti the 1724 Code Noir in Louisiana and the 1865 Black Code in Mississippi in tandem with examples from twentieth century literature *Policing Intimacy* humanizes the effects of legal histories and leaves space for local particularities By focusing on literary texts and variances in form and aesthetics Sciuto demonstrates the necessity of incorporating multiple stories histories and traumas into accounts of the past The Illustrated London News , 1846 **Travel and the Pan African Imagination** Tracy Keith Flemming, 2021-09-02 *Travel and the Pan African Imagination* explores the African Atlantic world as a productive theater or space where modernity racialized dominance and racialized resistance took form The book stresses the importance of placing three Atlantic figures the Charleston South Carolina based armed resistance leader Denmark Vesey the West African emigration advocate Edward Wilmot Blyden and the Christian missionary and teacher in Liberia as well as the United States Alexander Crummell within an Atlantic context and as African world community figures between the late eighteenth and early twentieth centuries The book also examines the religious origins of Black Power ideology and modern Pan Africanism as products of the intense

dialogue within the African world community about concepts of modernity progress and civilization Tracy Keith Flemming identifies how travel and social mobility led to the generation of an ever more complex and dynamic Atlantic world and of a fluid and adaptive African world community imagination for those figures who were forced to operate within and against a racially framed universe The vexing social position and symbolic figure of the African was central to the dilemmas facing the racialized imagination of African world community figures and the discipline of Africology Famous and (Infamous) Workplace and Community Training David M. Kopp, 2017-07-25 This book explores the social history of training and development and describes how ordinary training systems were linked to extraordinary events Using instrumental case studies the author explores the direct and indirect motives behind famous and infamous training systems of history such as the methods used by John Lennon and Paul McCartney in the Beatles those used by the Third Reich in training forced labor and in the social guidance films of the 1950 s among others This book links modern day themes of corporate and community social responsibility and social justice to historical cases of workplace and community training in addition it offers a unique view of business history that students and scholars can relate to and contributes to a more thorough and robust inquiry into critical human resource development ethics in the workplace and the nature of training adults in general
