Finding Reliable Information Online

Leslie F. Stebbins,2015-09-16 We live in an information saturated environment and spend far too much time searching surfing skimming contributing and organizing the information in our lives We spend too little time immersing ourselves in reliable high quality information We are often so buried in information and strapped for time that we grab information like it was fast food without bothering to evaluate its quality Finding Reliable Information Online Adventures of an Information Sleuth uses stories or information adventures to illustrate the best approaches to searching for information and to help us develop our aptitude for locating high quality resources in a rapidly changing digital environment that is becoming proficient at monopolizing our attention with useless or unreliable information This book is about taking charge of the search process and not handing over the reins to search engines like Google Bing or Yahoo to dictate what information we consume Each chapter focuses on a quest for different types of information while digging deeper into the complexities of finding credible places to look for information and ways to think about evaluating it As the Internet evolves and becomes more sophisticated our strategies for finding and evaluating information need to evolve as well The stories in this book range from investigating challenging research questions to exploring health issues and everyday life questions like finding a reliable restaurant or product review These chapters go beyond the simple and more mechanical checklist approach to evaluating information though these factors are also discussed

Politics, Identity, and Mobility in Travel Writing Miguel A. Cabañas,Jeanne Dubino,Veronica Salles-Reese,Gary Totten,2015-06-26 This collection examines the intersections between the personal and the political in travel writing and the dialectic between mobility and stasis through an analysis of specific cases across geographical and historical boundaries The authors explore the various ways in which travel texts represent actual political conditions and thus engage in discussions about national transnational

and global citizenship how they propose real world political interventions in the places where the traveler goes what tone they take toward political or socio political violence and how they intersect with political debates Travel writing can be viewed as political in a purely instrumental sense but as this volume also demonstrates travel writing s reception and ideological interventions also transform personal and cultural realities This book thus examines the ways in which politics material effects inform and intersect with personal experience in travel texts and engage with travel s dialectic of mobility and stasis In spite of globalization and efforts to eradicate the colonial vision in travel writing and in travel writing criticism this vision persists in various and complex ways While the travelogue can be a space of discursive and direct oppression these essays suggest that the travelogue is also a narrative space in which the traveler employs the genre to assert authority over his or her experiences of mobility This book will be an important contribution for interdisciplinary scholars with interests in travel writing studies global and transnational studies women s studies multicultural studies the social sciences and history

Not So Innocent Abroad Ulrike Brissou, Bernard Schweizer, 2009-10-02 With its specific focus on the connections between politics travel and travel writing *Not So Innocent Abroad* offers a fresh approach to the study of travel literature The authors make clear that travel and travel writing are never an innocent enterprise rather journeying always occurs within political systems and travel writing either reflects the traveler s political stance includes political aspects of foreign cultures or directly or indirectly influences political decisions In contrast to most scholarly publications that primarily focus on travel literature of former colonial nations this volume includes a broader range of travelogues depicting cultures worldwide spanning from the eighteenth to the twenty first century It thus offers with its comparative approach not only a geographically wide selection but also an historical dimension to the political aspects of travel writing Although most travel literature generally has followed the Horatian principle to instruct and delight the armchair traveler the authors of this volume clearly address the broader political implications of travel and travel writing within networks of naked politics such as international or interior conflicts emigration laws or national propaganda They also reveal how insidiously political messages are dissimulated through travel writing

[Exploring Race in Predominantly White Classrooms](#) George Yancy, Maria Davidson, 2014-02-18 Although multicultural education has made significant gains in recent years with many courses specifically devoted to the topic in both undergraduate and graduate education programs and more scholars of color teaching in these programs these victories bring with them a number of pedagogic dilemmas Most students in these programs are not themselves students of color meaning the topics and the faculty teaching them are often faced with groups of students whose backgrounds and perspectives may be decidedly different even hostile to multicultural pedagogy and curriculum This edited collection brings together an interdisciplinary group of scholars of color to critically examine what it is like to explore race in predominantly white classrooms It delves into the challenges academics face while dealing with the wide range of responses from both White students and students of color and provides a powerful overview of how teachers of

color highlight the continued importance and existence of race and racism Exploring Race in Predominately White Classrooms is an essential resource for any educator interested in exploring race within the context of today s classrooms

Microtravel Charles Forsdick, Zoë Kinsley, Kate Walchester, 2024-06-04 The 2020 COVID 19 pandemic imposed immobility on large sectors of the world s population with confinement becoming an everyday reality The lives of those who previously enjoyed the privileges of being fast castes ground to a halt while at the same time the displacement of more vulnerable populations along well established migration corridors has been radically reduced The result has been a recalibration of the scale of journeying with travellers slowing down their journeys and readjusting their relationship to the proximate and nearby This situation has provided an opportunity for those who study travel and travel writing to rethink their objects of study and approaches to them This volume explores and historicizes the phenomenon of microtravel designating slower journeys within a limited radius which allow and sometimes necessitate new forms of experiencing the world
