Looting the Past Paolo Brusasco, 2012

The Looting Machine Tom Burgis, 2016-05-03 One of Financial Times Books of the Year 2015 The trade in oil gas gems metals and rare earth minerals wreaks havoc in Africa During the years when Brazil India China and the other emerging markets have transformed their economies Africa's resource states remained tethered to the bottom of the industrial supply chain While Africa accounts for about 30 per cent of the world's reserves of hydrocarbons and minerals and 14 per cent of the world's population its share of global manufacturing stood in 2011 exactly where it stood in 2000 at 1 percent In his first book The Looting Machine Tom Burgis exposes the truth about the African development miracle for the resource states it's a mirage The oil copper diamonds gold and coltan deposits attract a global network of traders bankers corporate extractors and investors who combine with venal political cabals to loot the states value And the vagaries of

resource dependent economies could pitch Africa's new middle class back into destitution just as quickly as they climbed out of it. The ground beneath their feet is as precarious as a Congolese mine shaft; their prosperity could spill away like crude from a busted pipeline. This catastrophic social disintegration is not merely a continuation of Africa's past as a colonial victim. The looting now is accelerating as never before. As global demand for Africa's resources rises, a handful of Africans are becoming legitimately rich, but the vast majority like the continent as a whole is being fleeced. Outsiders tend to think of Africa as a great drain of philanthropy. But look more closely at the resource industry and the relationship between Africa and the rest of the world, and it looks rather different. In 2010, fuel and mineral exports from Africa were worth 333 billion more than seven times the value of the aid that went in the opposite direction. But who received the money? For every Frenchwoman who dies in childbirth, 100 die in Niger alone, the former French colony whose uranium fuels France's nuclear reactors. In petro-states like Angola, three quarters of government revenue comes from oil. The government is not funded by the people, and as a result, it is not beholden to them. A score of African countries whose economies depend on resources are rentier states; their people are largely serfs. The resource curse is not merely some unfortunate economic phenomenon, the product of an intangible force. What is happening in Africa's resource states is systematic looting. Like its victims, its beneficiaries have names.

Salt mines and castles: The discovery and restitution of looted European art Thomas Carr Howe, 2022-08-21

In *Salt Mines and Castles: The Discovery and Restitution of Looted European Art*, Thomas Carr Howe presents a meticulous exploration of the dark legacy of art looting in Europe, particularly during the tumultuous periods of war. This scholarly work deftly intertwines historical narrative and critical analysis, employing a clear and engaging prose style that invites readers to reflect on the moral complexities of cultural heritage. Howe brings to light the often overlooked stories of stolen artworks and the subsequent efforts to reclaim them, situating his discussion within the broader context of art history and ethics. Thomas Carr Howe, an influential figure in the field of art restitution, draws on his extensive background in art curation and historical research to illuminate the multifaceted dimensions of this pressing issue. His experiences with various art institutions and involvement in restitution dialogues provide him with unique insights, motivating a passionate examination of how societies confront the legacies of the past through art. Readers seeking a deeper understanding of the intersections between art, morality, and history will find *Salt Mines and Castles* indispensable. Howe's rigorous scholarship, combined with poignant storytelling, not only educates but also challenges us to consider the implications of art ownership and cultural restitution in contemporary society.

Civil Imagination Ariella Aïsha Azoulay, 2024-03-19

This remarkable book enhances Ariella Azoulay's position as the most compelling theorist of photography writing today. Jonathan Crary, author of *Scorched Earth*, a groundbreaking work on the power of photography as a vehicle for civil protest, writes: "Understanding photography is more than a matter of assessing photographs; it is merely one event in a sequence that constitutes photography and

which always involves an actual or potential spectator in the relationship between the photographer and the individual portrayed. The shift in focus from product to practice outlined in *Civil Imagination* brings to light the way images can both reinforce and resist the oppressive reality foisted upon the people depicted. Through photography *Civil Imagination* seeks out relations of partnership, solidarity, and sharing that come into being at the expense of sovereign powers that threaten to destroy them. Azoulay argues that the civil must be distinguished from the political as the interest that citizens have in themselves in others in their shared forms of coexistence as well as in the world they create and transform. Azoulay's book sketches out a new horizon of civil living for citizens as well as subjects denied citizenship, inevitable partners in a reality they are invited to imagine anew and to reconstruct. Beautifully produced with many illustrations, *Civil Imagination* is a provocative argument for photography as a civic practice capable of reclaiming civil power.

New Perspectives in Italian Cultural Studies Graziella Parati, 2012-11-10. Following the more theoretical first installment of *New Perspectives in Italian Cultural Studies* devoted to Definitions, Theory, and Accented Practices, the second volume of *New Perspectives* deals with practicing cultural studies by offering articles that are valuable for both scholars of Italian studies and students interested in a cultural studies approach. Divided in four sections, the articles included offer complex approaches to literature, film, the visual arts, and a particular moment in Italian history with which Italians are still coming to terms: fascism. The essays cover about two hundred years of Italian cultures dealing with the construction of national myths, the role of soccer in contemporary debates, the contemporary success of mystery novels, and issues of race and crime in fascist Italy. Contributors look at film through the lens of fashion history and the particular Italian use of dubbing that continues even today. Place and memory are the topics of a number of essays that also allow for an interpretation of Italian culture in America's imagination. This volume contains a multifaceted representation of Italy and invites additional discussion on the complexity of representing cultures.

Italian Prisoners of War in Pennsylvania Flavio G. Conti, Alan R. Perry, 2016-10-19. During World War II, 51,000 Italian prisoners of war were detained in the United States. When Italy signed an armistice with the Allies in September 1943, most of these soldiers agreed to swear allegiance to the United States and to collaborate in the fight against Germany. At the Letterkenny Army Depot located near Chambersburg, Pennsylvania, more than 1,200 Italian soldiers were detained as co-operators. They arrived in May 1944 to form the 321st Italian Quartermaster Battalion and remained until October 1945. As detainees, the soldiers helped to order stock repair and ship military goods, munitions, and equipment to the Pacific and European Theaters of war. Through such labor, they lent their collective energy to the massive home front endeavor to defeat the Axis Powers. The prisoners also helped to construct the depot itself, building roads, sidewalks, and fences along with individual buildings such as an assembly hall, amphitheater, swimming pool, and a chapel and bell tower. The latter of these two constructions still exist and together with the assembly hall bear eloquent testimony to the Italian POW experience. For their work, the Italian co-operators received a very modest regular salary and they experienced

more freedom than regular POWs In their spare time they often had liberty to leave the post in groups that American soldiers chaperoned Additionally they frequently received or visited large entourages of Italian Americans from the Mid Atlantic region who were eager to comfort their erstwhile countrymen The story of these Italian soldiers detained at Letterkenny has never before been told Now however oral histories from surviving POWs memoirs generously donated by family members of ex prisoners and the rich information newly available from archival material in Italy aided by material found in the U S have made it possible to reconstruct this experience in full All of this historical documentation has also allowed the authors to tell fascinating individual stories from the moment when many POWs were captured to their return to Italy and beyond More than seventy years since the end of World War II family members of ex POWs in both the United States and Italy still enjoy the positive legacy of this encounter
